Negotiations for Armistice Silences Guns of Bulgar and Turk

Tension Between Servia and Austria-Hungary Is Relieved

LONDON, Nov 20—Fighting has ceased for the moment between the Turkish and Bulgarian armies struggling for possession of the key to the gates of Constantinople and the opposing commanders-in-chief are engaged in negotiating terms of an armistice If these negotiations prove successful they will be preparatory to a meeting of plenipotentiaries who will discuss conditions of peace

In accordance with the suggestion contained in the Bulgarian note, the Turkish commander-in-chief, with a view of arranging an armistice with the Ottoman government, has appointed Nazim Pasha to confer with General Savoff, the Bulgarian leader. The Turking general, who has been putting up such an excellent defense, now has thrown on him the additional burden of deciding whether or not a further display of tenacity behind the fortifications of Tchatalja may bring easier terms and save to the Ottoman empire more than Constantinople and a strip of Thrace on the shores of the sea of Marmora which seemingly is all the conquerors are at present disposed to lose to the vanquished

ARMIES HOLD POSITIONS.

Meanwhile the two armies hold their respective positions. How long this armed truce will be maintained, however, will depend on the terms of peace offered by the league of the Balkan nations.

Reports regarding the conditions proposed by the allies are conflicting It is officially stated in Constantinople that the agreement of the allies to discuss the terms of an armistice and the preliminaries of peace does not stipulate any conditions

Simultaneously with the lull on the battlefield comes news of a diminution of tension in the Austro-Servian dispute by the compliance of Servia wiht the demand of the Austrian government for an investigation on the spot On the other hand, there is nothing yet to indicate a solution of the question of Servia's demand for ports on the Adriatic sea. If, as is threatened, she diverts her army, released by the capture of Monastir, to the country Arnaut tribesmen, her relations with Austria-Hungary will, it is thought, be further imperiled

The reports that orders for the mobilization of the Austro-Hungarian army had been issued are today officially declared untrue

DUE TO POWERS.

The more amenable attitude of Servia is doubtless partly due to the action of the German and Italian governments at Belgrade. As the Germans and Italians at Prisrend are under the protection of the Austrian consulate, the two governments warmly supported the Austro-Hungarian representations.

Courtsmartial at Constantinople are busily engaged in sentencing members of the Young Turk party to terms of imprisonment Nineteen of them were sentenced yesterday Deputy Carasso of Saloniki has been arrested

A private letter received by a business firm from Constantinople and dated November 15, says that under martial law order is better than ever before in that city It concludes:

"We can take this from an old business firm, that Constantinople will always be left to Turkey, and that trouble will never occur in the way people abroad imagine."

ORDERED TO CEASE.

SOFIA, Bulgaria Nov 20—The Bulgarian troops operating before the line of fortifications defending Constantinople at Tchatalja have received orders to cease firing and merely to hold the positions they have won, as negotiations have been begun for the conclusion of an armistice at the request of Turkey

All the reports emanating from Turkish sources, alleging that the Turks [illegible] over the Bulgarians along the line of fortifications at Tchatalja are said to be untrue by the Bulgarian war office today.

From Dedeaghatch, on the Aegean sea, it is reported that two battalions of Turkish troops posted on the heights to the north were routed by the Bulgarians The Turks fled leaving a train filled with provisions, ammunition and horses

Millionaire H. H. Hart Hurls Balky Automobile from Boat

The eternal cussedness of inanimate objects had always been a supreme irritation to H H Hart "sour dough" and millionaire, but last Sunday night he took glorious revenge for all the wrongs and worries he had suffered Afterwards he rejoiced mightily, The revenge cost him about $6500 and the celebration thereafter was in proportion.

Hart, who owns a palatial villa near the Claremont hotel in the Berkeley hills, recently purchased a beautiful limousine for $4500. Repairs and incidentals connected with the "cussedness" developed by the machine added $2000 to this The limousine and its "incidentals" now rest at peace in the bottom of San Francisco bay. And Hart has made a formal offer to the Southern Pacific to go halves on the expense of sending out a pile driver to drive the auto several feet deeper into the mud to make her stick there.

Hart's offer concerning the pile driver has sorely puzzled the Southern Pacific officials, and the matter has been taken up with the head office James Litz, chauffeur for Hart, is also troubled in spirit over the strange actions of his employer. But Hart wears a genial smile which broadens into a grin when he thinks of that beautiful limousine being occupied by fishes and crabs at the bottom of the bay.

BUYS $4500 CAR.

The Hart villa is some distance from a carline, and Hart has a fine garage adjoining his home About a month ago he purchased the limousine for $4500 and hired James Litz, a sober-minded chauffeur, to drive it for him

On the first trip Hart was going to attend a banquet. Half way on the journey something went wrong in the interior workings of the machinery Litz got out a flash lamp for an hour, while Hart aided with a flow of language that astonished the chauffeur Finally Hart took a street car and Litz got the car repaired It cost over $100 to pay for the repairs, and Hart was out of pocket for incidentals and out of temper on account of missing his banquet The former mining man regarded his auto with baleful eye

But he gave it another trial Again the car went back on him and left him stranded on a wet and lonely road in the mud and rain Hart remembered his mining days and added to Litz's vocabulary by several new

173 TO BE JAILED.

WASHINGTON, Nov 20—Postoffice inspectors and United States marshals in seventy-two leading cities of the country began today practically simultaneous raids for the arrest of 173 physicians, questionable medical and surgical practitioners and proprietors or agents of drug concerns, charged wth using the mails to promote criminal medical practice or the sale of drugs and instruments used for illegal purposes

The number of arrests to be made in the respective cities follows New York two, Buffalo three, Pittsburg seven, Indianapolis five Chicago nine, St. Paul five, Fort Worth three, St Louis three, Omaha four, Oklahoma City five, Portland, Ore, nine, Denver five, Seattle eight, Spokane five, San Francisco seven, Oakland eight, Los Angeles three, San Jose three, Mobile three, Marietta, O, three, Dallas three

BARRED FROM MAIL.

All of the arrests are to be made for alleged violation of section 211 of the penal code of the United States, which bars from the mails any vile or obscene matter whether sealed or unsealed, any advertisement, letter or circular proposing or suggesting criminal practices, or any packet containing any substance, drug or thing intended to be used for immoral or unlawful purposes.

Chief Inspector Robert Sharp of the postoffice department and many of his force of 300 inspectors have been working upon the cases for many months. The development of the plans which culminated today is the most extensive raid in the history of any department of the government.

Strict enforcement of municipal and state laws in the east is said by the postal authorities to account for the comparative few arrests in the large cities in that part of the country, but it is said by the postoffice inspectors that a hotbed of this sort of criminality is in the Pacific coast states.

T. R.'S OFFICIAL LEAD IS NOW 65 VOTES

Change in S. F. Returns May Reduce His Plurality

SAN FRANCISCO, Nov 20—The tabulation of the state vote for Roosevelt and Wilson, including the corrections announced by Secretary of State Jordan, on the official canvass by counties shows a Roosevelt lead of 65

A change of 16 in the San Francisco returns, giving that many more votes to Wilson has been announced by Secretary Jordan, and, if not offset by other changes in the complete San Francisco count, will reduce the Roosevelt lead to 88, when officially recorded.

In addition, it is announced unofficially from Los Angeles that Wallace, high man on the Roosevelt ticket throughout the state, ran 174 votes behind his ticket in that county If the official returns show this result, the indicated lead for Griffin, the high Wilson elector would be 88

Corrections at Sacramento of the official canvass from counties not yet reported there may increase or overturn this plurality.

TIME SOON UP.

Although the state election law provides that certifications of the state election returns from every county must be made to the governor not later than November 25, next Monday, this will be impossible, and the attorney general's office in an informal opinion given today was to the effect that the law does not contemplate the certification in face of impossible obstacles

The Selection of a Bank

BULGARIAN TROOPS HOLD UP HOSTILITIES AT CAPITAL

Ordered to Cease Firing Pending Negotiations for Armistice

(Continued From Page 1)

mander-in-chief, in a telegram to the Turkish War Office, timed 12:15 p. m. today, as follows:

"Reports received at this moment state that the enemy facing our left wing withdrew completely last night in the direction of the slopes of Papaz Burgas. Our reconnoitering parties counted 80 dead Bulgarians on the slopes in the environs of Tchataija railroad station. From their epaulets it was established that the dead soldiers belonged to the First Infantry Regiment of Sofia. A number of rifles, caps and officers' swords were brought in by our troops.

"According to statements made by Bulgarian prisoners, the enemy has been without food for three days and is retreating. The Bulgarians were unable to carry away all their wounded. The morale of our troops is very good."

"A wireless dispatch from the commander of the Turkish battleship Torgut Reis, timed 3 a. m., Nov. 20, reports a Turkish detachment operating from Derkos, aided by the fire of the ship's guns, drove back the Bulgarians in the direction of Ormanli and Karaburn for a distance of ten miles."

TURKS HOLD FORTS.

LONDON, Nov. 20.—The first official announcement sent out by the Bulgarian government at Sofia that fighting between the Bulgarian and Turkish armies had taken place at Tchataija arrived here late yesterday. It consists merely of the laconic sentence:

"The day before yesterday and yesterday the Bulgarian army engaged the Turks in battle on the advanced points of the Tchataija lines with a view to prepare the ground for its further operations."

This was issued subsequent to the declaration of the appointment of plenipotentiaries to conduct peace negotiations with the Ottoman government.

The silence of Sofia as to the result of the fighting is taken here to be an indication that General Savoff, the Bulgarian commander-in-chief, has discovered that the task of getting within the Turkish lines of forts and entrenchments will prove a tremendous test of the staying power of his troops.

FINEST FIGHTERS IN FIELD.

Sixty per cent of the Ottoman troops holding the lines of Tchataija are said to be fresh battalions of Turkey's finest fighters brought from Asia Minor.

The Ottoman government is determined not to consider peace until the Balkan allies submit conditions compatible with the honor and dignity of Turkey, according to a special dispatch from Constantinople.

It is said the Bulgarian terms suggest that Turkey retain the provinces of Adrianople and Kirk-Killiseh and ask that the Porte agree to Bulgaria and Servia autonomizing Western Macedonia and Albania and concede the port of Dedeaghatch, on the Aegean sea, to Bulgaria, and Crete and other islands to Greece.

BATTLE IS BLOODY.

LONDON, Nov. 20.—Telegraphing from in front of Hademkeui, on Monday night, the correspondent of the Daily Chronicle says:

"The battle has proved one of the bloodiest of the present war, both sides sustaining fearful losses. Magnificent courage was displayed by the Turks, officers of the highest rank exposing themselves to the fire of the Bulgarians with unequaled devotion in order to set an example for the men.

"The battle still is raging with unabated fury. The Bulgarians are directing their fire against the forts west of Hademkeui and attempting to break through the Turkish lines. The Turks, holding their ground and disputing every inch desperately, are making a most heroic resistance."

SEEK TO DEMOLISH FORTS.

LONDON, Nov. 20.—Bennet Burleigh, war correspondent of the Daily Telegraph, under date of Monday says:

"I witnessed the bombardment of the Adrianople forts to the east and north of the city. The firing was not heavy, but accurate. The besiegers are not attempting to break or destroy the city, but are devoting their attention solely to the demolition of the Turkish forts. The works in the eastern and southern section of Adrianople are easily within reach of the Bulgarian gun positions. From Hademkeui to the south the artillery might level the Minarets and the Mosque of Zelim II, but thus far not a corner of that or other landmarks has been struck.

"The Bulgarians are addressing themselves to the Turkish works, of which many interlines of trenches and bastions have been constructed. The Turks artfully have concealed their gun positions and most of their fire is delivered from batteries securely hidden far behind the front.

"They must have worked hard and skillfully to construct such a honeycombing of the territory around Adrianople. But irresistibly the Bulgarians are advancing, always contracting their steel halter.

FIGHT DESPERATELY.

"The Turks again made a sortie today to the eastward. Fighting desperately, they strove to pass out by the Turkish cemetery roadway, but the Bulgarian gunners and infantry beat them back into Adrianople. They left rows of dead. The Bulgarians were able to follow the enemy and move their lines of attack still closer to the ponderous masses of ramparts, bastions and trenches.

"I thought the Russians at Port Arthur and Lalo Yang were great and tireless in improving on their tedleben, but I have seen the desperate Turk go better and pile work up and behind work with an inventiveness and unweariness that is devilish."

HORRORS IN WAKE.

LONDON, Nov. 20.—Describing the horrors in the wake of the Turkish retreat, where the Turkish dead still lie unburied, the Daily Mail's correspondent with the Bulgarian army says:

"I passed through three or four villages which the Turks in their retreat had given to the flames. There is, I fear, no doubt that they added to the horrors of the situation by foul massacres of Christians. Evidences of these atrocities are buried, but I heard from eyewitnesses whose word cannot be disputed that women were murdered in cold blood and their slaughtered infants cast in to the mud.

"The atrocities were limited to two or three villages. Most of the people of the Christian villages, with which the country is dotted, escaped, although their houses were burned and they were left without shelter or means of subsistence."

UNABLE TO PIERCE LINES.

LONDON, Nov. 20.—The Times correspondent at the front, under date of November 18, says:

"The Bulgarians apparently found the extreme Turkish left impregnable. Until dark Sunday the Turkish gunners easily were able to keep the Bulgarians at a distance, as their heavy guns were of longer range.

"The Turks had no need to call up the reserves, who blacken the crests of the hills and the slopes behind the Tchataija lines, while they watch the artillery duel with the greatest interest. Fresh troops arrived in good condition."

AWAIT SERVIA'S REPLY.

LONDON, Nov. 20.—The Austrian cabinet is disposed to await Servia's reply until King Peter has returned to Belgrade from Uskup, according to a Vienna dispatch to the Mail. The king, who caught a cold on his way to the Te Deum service at Uskup, is seriously ill, and his return to the capital may be postponed indefintely. The attending physicians think he may be confined to bed for several weeks.

From Buda Pest it is learned that the real object of the mission to Buda Pest of Dr. Daneff, president of the Bulgarian Chamber of Deputies, was to inform Austria-Hungary in behalf of the Balkan League that, while Bulgaria was anxious that Austria and Servia arrive at an amicable settlement, the Balkan armies will stand back of their ally in the event of Austria-Hungary deciding to bar Servia's road to the Adriatic by force of arms.

The Mail's Constantinople correspondent says the landing of bluejackets and marines from the foreign warships is regarded with considerable disfavor by the Turks. The grand vizier terms the action premature and unnecessary.

MAY KEEP TERRITORY.

LONDON, Nov. 20.—A Sofia dispatch to the Times says:

"There is reason to believe that the Porte has been informed that Constantinople and the shores of Marmora and the Dardanelles, with a small adjacent territory, may remain under Turkish sovereignty.

"Even should these terms be accepted, the Bulgarian government will have difficulty in arresting the advance of its troops, who, together with the commanding officers, are burning to dictate the terms of peace from the capital of their hereditary foe."

A Vienna dispatch to the Times says it is believed that an ultimatum will be sent by Austria to Servia within 24 hours, giving five days for a reply.

WRITERS ARRESTED.

LONDON, Nov. 20.—Both Ottoman and foreign interests in Constantinople, while awaiting the publication there of definite news regardig the progress of the war, are chiefly concerned in the large number of arrests of politicians and writers belonging to the party of Union and Progress.

According to a special dispatch from the Turkish capital, the Ottoman government, through a local press agency, has issued a statement that only forty arrests have been made and that the sole reason of the organization was for a demonstration by university students in front of the government offices on October 7.

Diplomatic circles, however, attribute the arrest to a very different reason. They believe they were due to the nomination by the Sultan at the behest of the Unionists of Mahmoud Shefket Pasha as Inspector General of the army. This action was intended to cause the fall of the Ottoman cabinet.

ALLIES AT OUTS.

LONDON, Nov. 20.—The Saloniki correspondent of the Times says that the relations between the Greeks and Bulgarians [illegible]

"The fact," he says, "that more serious developments have not occurred is due to the pacific intervention of the Bulgarian minister to France, Dr. Stancheff, who is now attached to the Crown Prince Boris. When the Greeks entered the city the three columns of Bulgars had approached within striking distance. On November 8 the Bulgarians began a battle with the Turks at Aivali and pursued the enemy to within two miles from Saloniki.

"An envoy sent to demand the surrender of the place found the Greeks in possession. The Greeks refused to allow the Bulgarians to enter the town. The Bulgarians then sent an ultimatum to the Greeks, threatening to enter the town forcibly. The Greeks abandoned their opposition and the Bulgarians and Servians were permitted within the walls. The Greeks express discontent with the actions of the Bulgarians in the town after the occupation, but the latter claim they were on the spot and could have entered at the same time.

"Unpleasant incidents between the two services have been frequent. The Bulgarians suspect that the Greeks are endeavoring to interfere with the transport of their food supplies, thus giving the Greeks an excuse to request their retirement from Saloniki owing to the difficulties over the commissariat."

REPORTS OF MASSACRE.

ATHENS, Greece, Nov. 20.—Reports of massacres of Christians in Jafa, Palestine, caused the commander of the Russian cruiser Oleg to weigh anchor and depart hurriedly for that district today.

YIELDS TO DEMAND.

BELGRADE, Nov. 20.—Servia has yielded to the Austrian demand that an official from the Austro-Hungary ministry of foreign affairs should be allowed to proceed to Belgrad to investigate the complaint by the Austrian consul there that he had been hindered by the Servians in the performance of his duties.

CAPITAL IS QUIET.

NEW YORK, Nov. 20.—Cleveland H. Dodge, one of the trustees of Robert College at Constantinople, received the following cable message from the president of that institution this morning:

"Constantinople, Turkey, Nov. 19.

"The city is quiet. The school is crowded with students and is fully guarded.

(Signed) "GATES."

SENT TO LONDON.

WASHINGTON, Nov. 20.—F. Rafi Bey, counselor and secretary of the Turkish embassy at Washington, has received instructions to go to London to take up permanent duties with the embassy there. The transfer is understood to be made to strengthen the diplomatic service of the Turkish service in England.

HEAVY FIRING.

CONSTANTINOPLE, Nov. 20.—Heavy gun firing was audible at 4 o'clock this afternoon from the direction of Biyuk Chekmedye, at the sea of Marmora, and of the Tchataija. It is believed that a Turkish warship was firing at the Bulgarians.

AMENDMENTS ARE UNDER FIRE

Railroad's Fight Against 3-Cent Fare May Invalidate New Laws.

PHOENIX, Ariz., Nov. 20.—In opening their fight on the enforcement of the 3-cent fare, which was adopted by the voters at the election November 5, the Southern Pacific Railroad and its subsidiaries in Arizona argued today in the federal district court that the secretary of state did not comply with the law governing the presentation of referendum or initiative measures to the people. The railroad attorneys asserted that the secretary of state will not begin sending out the full text of the 3-cent law until 52 days before the election, whereas the constitution calls that the text of such measures must be submitted ninety days before election.

If the court sustains this contention, the decision will adversely affect every constitutional amendment and referendum measure submitted and adopted at the recent election. The amendments adopted include suffrage, the recall of judges, and that permitting the state to engage in industrial pursuits.

PLEADS INNOCENCE OF STRIKE LEADER

SALEM, Mass., Nov. 20. — Pleading the innocence of Joseph J. Ettor, leader of the Lawrence textile strike, of any responsibility for the killing of Anna Lopizzo in that struggle last winter, Attorney J. H. S. Mahoney addressed today the jury which, for five weeks has been trying his client, together with Arturo Giovannitti and Joseph Caruso.

"Who asks you to send to the electric chair this labor leader, striving to better a suffering population?" asked Mahoney. "You and I know that when a man strives to get increase in wages for laborers he runs counter to the interests. You and I know that men in the corporations of the country and the big manufacturing plants are men who are able to move the machinery of the law more than you and I."

Attorney Sisk, counsel for Caruso, also addressed the jury.

INVESTIGATE ALLEGED TRAFFIC AGREEMENT

NEW YORK, Nov. 20.—J. P. Morgan, as a director of the New York, New Haven and Hartford Railroad, has been asked to appear tomorrow before a federal grand jury here, which will investigate an alleged traffic agreement between the New Haven and the Grand Trunk Railway. The government alleges work was stopped on an extension of the Grand Trunk road, with the objection of stifling competition.

SUFFRAGETTE WINDOW SMASHERS GET TERMS

LONDON, Nov. 20. — Two suffragettes were sentenced in the court here today to long terms of imprisonment for window smashing. DOCTORS JAILED BY U. S. OFFICIALS

Alleged Misuse of the Mails to Circulate Illegal Matter Charged.

(Continued From Page 1)

tious name was used by several well-known physicians, who employed a woman to do the necessary advertising and clerical work. Cases were solicited by correspondence and by printed circulars sent through the mails. Scores of complaints have been received by the department from respectable women, complaining of the receipt of this class of matter.

Approximately 20 per cent of those arrested today are so-called "pill doctors"—men who advertise their practice by correspondence or otherwise—and send to their patients, either by mail or express, various compounds in the form of pills or powders. Careful analysis of these compounds by the government authorities is said to have disclosed that some of them are wholly innocuous, while others are dangerous poisons. Under another section of the penal code the sending of poisons through the mails is expressly forbidden.

One of the men accused is said to have been the secretary of the board of health in the city of his residence. He responded, it is said, to a decoy or test letter sent to him by the inspectors, on the stationery of the board of health. He has been indicted, according to the reports of the postoffice inspectors.

Particular care was taken by the inspectors in collecting evidence gainst business concerns—drug stores and remedy companies. The men actually reported for the illicit correspondence were ordered arrested and in this class it is said man indictments already have been returned.

DIFFICULTY ENCOUNTERED.

As showing the difficulties encountered the following case is cited by those who have conducted the inquiry:

Interviews of the inspectors with many of these practitioners indicated clearly that they knew they were violating the law and were treading upon dangerous ground. In Chicago an inspector called upon a physician having received from him a response by mail to his decoy letter. The inspector professed a desire to engage the doctor's services. The doctor was cautious, and the inspector was called upon to show the letter he had received. It was in the physician's own handwriting.

Evidently suspicous he snatched the letter from the inspector's hand, tore it twice across and threw it into the waste basket. Subsequently the inspector returned to the office in the temporary absence of the doctor, secured the strips from the basket and pasted them together. That letter constitutes an important link in the chain of evidence on which the doctor was indicted.

It is the expressed determination of the postal authorities to put an end to the promotion by mail of criminal practices and of the traffic in drugs and instruments upon which a ban is placed by the law. Postmaster General Hitchcock said today that every case against an alleged violator of the law would be pressed vigorously and every effort made to send the culprit if convicted to the penitentiary.

TWO IN SEATTLE.

SEATTLE, Nov. 20.—Two doctors indicted for illegal use of the mails were arrested today and released on $3000 bail. Federal officers are seeking five other "specialists" to arrest them. One of them, a woman, is said to have got a hint of her indictment and fled.

Before noon five other practitioners had been arrested. All arranged to give $3000 bail. The eighth person indicted, a man, is out of the city.

WOMAN IS JAILED.

ST. LOUIS, Nov. 20.—Three persons were indicted in St. Louis in the government's movement against alleged criminal medical practices. Mrs. Hulda Koch, proprietor of a maternity home, was arrested today. It was charged that the mails were misused.

A warrant was issued against Gustav F. Jacobs, manager of a drug company, and deputy United States marshals sought him early in the day. Another indictment was issued against a woman who died before it could be served.

PEORIA IS VISITED.

PEORIA, Ill., Nov. 20.—Albert Zimmerman, proprietor of one of the city's leading drug stores, was arrested today by United States Marshal Black in connection with the simultaneous raids being made throughout the country. He gave bond for his appearance at the April term of the federal court here.

MORE TO COME.

PORTLAND, Ore., Nov. 20.—Federal officers today arrested five physicians under indictment for the alleged misuse of the United States mils. Several additional arrests are expected.

TO ACT THIS AFTERNOON.

SAN FRANCISCO, Nov. 20.—No arrests of criminal practitioners were made in this vicinity this morning. At the federal office where the warrants were held it was said that all arrests in California, and more particularly in the district centering on San Francisco, would be made this afternoon between 3 and 5 o'clock.

Further corrections made in the state canvass today included one in the Solano returns and took ten votes from the Roosevelt column and added them to the Wilson figures, cut down Roosevelt's lead to sixty-five.

FIVE ARE ARRESTED.

SPOKANE, Wash., Nov. 20.—Five persons, two men and three women, were arrested here today in connection with the movement of the federal authorities against illegal use of the mails. One of those arrested was Will G. Mursgittroyd, a wealthy druggist, prominent in social and club life. All were held in bail of $1000 each. One arrest on a similar charge is reported from Bellingham.

TEN FACE PRISON.

CHICAGO, Nov. 20.—Ten arrests were made here today by postal inspectors in a nation-wide movement against doctors and persons advertising methods conducive to race suicide.

It was declared raids were being made simultaneously all over the country. The specific charge against the persons arrested is using the mails in connection with a business under the ban of the government.

CONVENTION IN GREAT DISORDER

Federation of Labor Delegates Enter Into Lively Debate.

ROCHESTER, N. Y., Nov. 20. — With the first big fight of the American Federation of Labor convention, that on the Sherman anti-trust law, temporarily disposed of, the convention took up today the subject of organization by industries rather than by trades. At the presentation of the minority report of the committee which favors industrial unionism, the convention floor became a scene of excitement. As soon as President Gompers called for the vote a dozen men shouted for recognition. Gompers recognized one delegate, who was against industrial unionism, saying:

"I am pleased to see that at last you are waking up."

As the debate progressed, hisses and groans often interrupted the speakers. Frank J. Hayes, representing the United Mine Workers, spoke in favor of the minority report by John Walker and John Mitchell, both of the miners' organization.

John P. Egan of Toledo made an attack upon the industrial unionism which brought a dozen delegates to their feet in noisy dissent. As Egan progressed in his remarks John Walker arose and demanded the right to reply. Gompers called him to order, but, refusing to comply, Walker stalked across the floor and started a personal argument with Egan. Walker finally was forced into his seat at President Gompers' orders.

B. Tappan this morning. Bail was fixed in the sum of $3000 in the case of Kennedy, and $5000 each for the other two defendants.

Illness of Crown Prince Still Serious

Berlin Surgeon Summoned by the Russian Imperial Family.

LONDON, Nov. 20.—The Berlin surgeon, Professor Israels, has been summoned to Tsarskoe-Selo, where Doctor Fedaroff has been in attendance since the Russian imperial family returned from Spala, says a dispatch to the Daily Mail from St. Petersburg. The circumstances point, according to the correspondent, to the continued gravity of the illness of the young Crown Prince. The court doctors admit that it is a serious surgical case.

GUARDIANSHIP HEARING IS POSTPONED

LOS ANGELES, Nov. 20.—Because of the delay necessary to obtain depositions from the east the hearing of the litigation concerning the guardianship of J. Ross Clark II, grandson of J. Ross Clark, the railroad magnate and son of Mrs. Jack Tannet formerly Mrs. Walter Miller Clark was postponed until December 4. In the meantime it was reported attorneys for both sides were discussing ways and means for settling the case out of court. It was stated, however, that no basis of agreement had yet been reached.

BURIES AUTO JINX AT BAY'S BOTTOM

Millionaire Hart Hurls Balky Machine From Ferry-Boat.

(Continued From Page 1)

and strange expressions. The bill for repairs was doubled this time.

TAKES ONE MORE CHANCE.

Although his patience was almost gone Hart took one more chance. It was the fatal third, and this time the millionaire miner missed an important engagement.

"Take that thing out and wreck it," Hart ordered his chauffeur.

"You don't mean that," said Litz.

"You're whistling, I do," responded Hart.

When Hart came home that night he looked into the garage. The "cussed machine" was still in its place.

"Why didn't you wreck that machine?" demanded Hart.

"Well, if you don't want it, I can raise a couple of thousand and take it and then I can start up on the renting business with an auto stand on Broadway."

"I'm going to finish that auto if I never get square on anything else in my life," declared Hart. "Take it out and lose it in the bay where it can't come back."

Sorrowfully Litz drove away with the machine. It was a pretty limousine, and he figured that perhaps the money that had been spent in repairs had taken off the "jinks," but he decided to obey, and gradually the desire to do a good job grew in his heart.

Litz drove the machine down to the Creek ferry landing at the foot of Broadway. There he waited Sunday night so as to be the last to drive on board the ferry.

DEED ACCOMPLISHED.

Nervously the chauffeur waited until the ferry was nearing the San Francisco side of the bay. He calculated the depth of water at the deepest part of the channel. When nobody was looking he pressed the self starter and let the machine buzz.

The machine was humming softly and Litz quickly threw on the reverse and drew back the crank. With a purring sound the limousine started to move and back toward the apron. A deck hand made a rush for the runaway auto and started to climb in.

"Let her go," shouted Litz. "You can't stop her now."

The deck hand saw his danger, and as he drew back the machine slid from the apron and dropped with a whirring noise and a splash into the bay. The foaming wake of the ferry closed over the machine.

Litz returned on the next boat and reported the matter to Hart.

"Good for you, my boy," smiled Hart. "Now we'll go out and open a little champagne to celebrate and you get an extra month's salary while you are finding another job."

Hart was surprised to receive a message from the claims department of the Southern Pacific yesterday.

"We are informed that your auto went overboard from our ferry. We would be glad to supply a diver to assist in the search for the machine if you desire to raise it."

"Raise it," shouted Hart. "I'll tell you what I'll do. I'll pay half on a pile driver to drive the thing forty feet deeper into the mud."

HE ADMITS IT.

Approached by a TRIBUNE reporter this morning at his residence in Claremont, Mr. Hart had a good laugh when asked of his unique method of disposing of cranky machines.

"Yes," he admitted. "I at first thought of giving the machine away, but could not think of anyone that I disliked sufficiently and consider that it would have been doing anyone else a positive harm.

"Dynamite, I thought, would leave only relics of the incident and I told the chauffeur to find a secluded spot in which he could set off a good-sized charge under it. The last trip that day had completely upset me. With my two children I had been to the train to meet my nieces and at the depot the front part of the thing commenced to jump in the air and cut other unseemly capers.

ALWAYS IN GARAGE.

"For five months it had been in the garages on both sides of the bay and for two weeks at a time and each time it was in the best of condition, according to the mechanicians, and I decided that there was nothing more to be done with the same. It was a $4500 car and cost me over $6000, and I had not had over 5000 miles out of it.

"It was after I sat down at home that the happy thought struck me that it could be dropped into San Francisco bay immediately. Arrangements which cost me $24 were soon completed and the chauffeur got the car ready for its final resting-place and at 9 o'clock, or soon after I received word that the thing was out of my sight forever I was immensely relieved.

"James Litz, the chauffeur, was not discharged," added Hart, in conclusion. "He has a month in which to find another place, and is a perfectly good chauffeur, for he does exactly as he is told."

POLICE WOMAN IS CAUSE OF ACTIVITY

San Francisco Department Is Spick and Span for Visitor.

SAN FRANCISCO, Nov. 20. — The San Francisco police department is on edge. The patrolmen are putting on their best bib and tucker. The superior officers are trimming themselves in their Sunday uniforms. The chief is practicing a broad and welcoming smile and his clerk, Captain O'Hara, has started the task of putting his desk in order so that he can find a needed paper in an instant. No such preparations as these would be made were the board of police commissioners to make a tour of inspection. There would be no such anxiety to have stars bright and shining were the President of the United States suddenly to drop in at the Hall of Justice.

And it is all on account of a woman.

She is a policewoman and the first one to ever pass the portals and enter the inner sanctum of police headquarters. She is Policewoman Shatto, and she arrived on the steamer Yale this morning for two prisoners. She received a welcome fitting her station and occupation and smilingly greeted her inferiors among the male captains to whom she was introduced.

The policewoman came here to take back to Los Angeles police department, of which she belongs, Pauline Jenks, aged 17, and Jeanette Frolich, aged 13, arrested here by Detective Gallagher and said to be runaways girls from Sawtelle, a Los Angeles suburb.

Men who used to smoke various kinds of cigarettes have been won over to Imperiales by the clever mouthpiece that cools the smoke and adds so much to the pleasure of smoking.

Men who formerly rolled their own now smoke Imperiales because of the saving of time, trouble and the annoyance of "loose" tobacco.

Framed Constitution For State in 1879

Pajaro Valley's First Pioneer Is Dead at the Age of 81.

SANTA CRUZ, Cal., Nov. 20.—Edward Martin, the first man to turn sod in the Pajaro valley with a plow, and one of those chosen to frame a constitution for California in 1879, is dead at his home here today, at the age of 81.

Martin arrived at San Francisco in 1851 on board one of the strangest craft that ever floated. At Eastport, Me., the sailing vessel Fanny was sunk and into her scooped-out hull was lowered a smaller steamer, sufficiently powered for the trip around the Horn, but of doubtful seaworthiness.

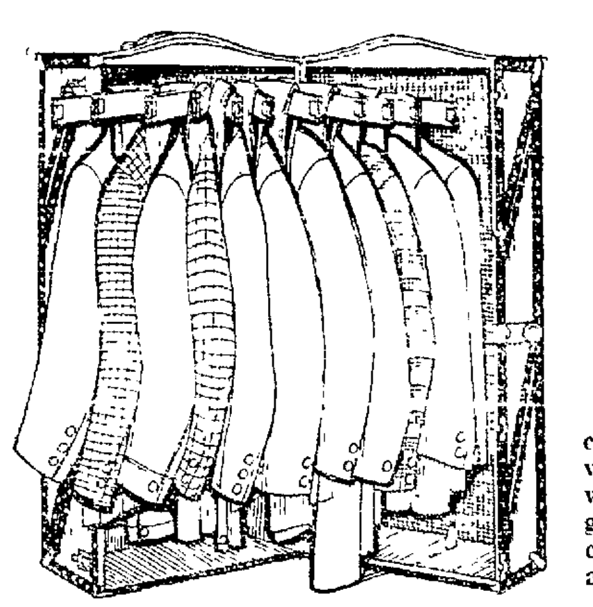

Then the Fanny was raised, the hull of the steamer chocked firmly in place between the enveloping ribs of the Fanny, holes cut for the machinery, and away she went. For 17 years Martin was postmaster at Watsonville; for 13 years county clerk, auditor and recorder for Santa Cruz county, and for the last 17 years of his life referee in bankruptcy.

BULLETS HALT FLEEING CHINESE

Oriental With Revolver Threatens to Kill Woman on Demanding Money.

SAN FRANCISCO, Nov. 20.—Screams for help, accompanied by cries of "Don't shoot," "Look out for that gun," and "Spare me," sent Patrolmen Walsh and Holmes on the run to Stockton and Jackson streets early this morning.

Fainting upon the pavement they found Miss Lily Levi of the Belvidere hotel. While running from the scene they observed the shadowy form of a man. Leaving Miss Levi for a moment the officers pursued and demanded the fugitive to halt. He failed to do so and did not stop until a volley of shots was sent after him. When he was finally taken into custody he was seen to throw away a 28-caliber revolver, fully loaded.

On returning to the scene with their prisoner the policemen learned that Miss Levi that a young Chinese with a revolver had ordered her to hand over her money and threatened to kill her. She declared that Wong Dong, the man under arrest, answered the description and because of his throwing away a weapon and by reason of his fleeing from the scene, the police charged him with assault to commit robbery.

TRIES TO EXPLAIN WOMAN'S ABSENCE

Broker Wayland Appears in Court in Divorce Case.

SAN FRANCISCO, Nov. 20.—Elbert Francis Wayland, a stock broker with offices in the Chronicle building, whose wife, Jessica Wayland, says he is in receipt of $600 per month, appeared in Judge Van Nostrand's court today to endeavor to explain the whereabouts of Miss B. D. Clark. Miss Clark is said to be the sole owner of B. D. Clark & Company, a concern in whose office Wayland is employed. His wife asserts that he is the proprietor of the business, whereas he claims that Miss Clark is the owner and he an employe.

Mrs. Wayland has brought a suit for divorce and on October 28 a subpoena was issued for Miss Clark to bring the firm's books into court. Six process servers have searched for her in vain and today Wayland was questioned about it. He declared that he had not seen her since Wednesday, when he met her at the Goodfriend hotel. Asked where she was on another occasion, he replied, "I sent her out for some stocks."

He then became much confused how it happened that he thus ordered his employer around, and asserted that he had asked Miss Clark to go. The matter is on for further hearing this afternoon.

Mrs. Wayland charged that her husband remained away from home continually and recently left her and refused to tell her of his whereabouts.

CHILDREN HATE CASTOR OIL, UGH!

The Delicious 'Syrup of Figs' Cleanses Their Little Clogged Bowels.

Look back at your childhood days. Remember the physic that mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. The day of harsh physic is over. We don't force the liver and 30 feet of bowels now; we coax them. We have no dreaded after effects. Mothers who cling to the old form of physic simply don't realize what they do. The children's stomachs and tender bowels are injured by them.

If your child is fretful, peevish, half sick, stomach sour, breath feverish and its little system full of cold; has diarrhoea, sore throat, stomach-ache; doesn't eat or rest well—remember—look at the tongue. If coated, give a teaspoonful of Syrup of Figs, then don't worry, because you surely will have a well, smiling child in a few hours.

Syrup of Figs being composed entirely of luscious figs, senna and aromatics simply cannot be harmful. It sweetens the stomach, makes the liver active and thoroughly cleanses the little one's waste-clogged bowels. In a few hours all sour bile, undigested fermenting food and constipated waste matter gently moves on and out of the system without griping or nausea.

Directions for children of all ages, also for grown-ups, plainly printed on the package.

By all means get the genuine. Ask your druggist for the full name "Syrup of Figs and Elixir of Senna" prepared by the California Fig Syrup Co. Accept nothing else.

Will Be Cast for Mrs. Witcher for vice-President if Utah Man Has Way.

SALT LAKE CITY, Utah, Nov 20 - Eight votes in the electoral college will be cast for a woman—Mrs. Margaret Zane Witcher of Salt Lake City, for vice-president of the United States, if the wishes of Eph Homer, one of the Republican electors chosen in this state, prevail.

Mrs. Witcher is herself an elector and might be averse to casting a vote in her own behalf, but there is more than a possibility that Homer may persuade his two male colleagues from Utah to vote for her and to ask the support of Vermont, the other state to be represented in the college by Republican electors.

Homer contends that inasmuch as Utah and Vermont are the only states which remain loyal to the Republican party they should be privileged to fill the vacancy on the Republican ticket caused by the death of Vice-President Sherman.

Mrs. Witcher is serving her second term as county clerk of Salt Lake county. She is a daughter of C. S. Zane, former chief justice of the Supreme Court of Utah.

WOULD HAVE BETTER KNOWLEDGE OF DOCTRINE

NEW YORK, Nov. 20.—An international exchange of professorships and lectures between the United States and South American countries as a means of giving citizens a better understanding of the Monroe doctrine, was suggested by Dr. Oliveira de Lima, Brazilian minster to Belgium, at a luncheon given in his honor by the Pan-American Society of the United States here last night.

Friendship between this country and South America was the keynote of speeches made by Charles Sherill, former minister to Argentine republic; William Miller Collier, minister to Spain; Cabot Ward, former secretary of Porto Rico; Lewis Noxon and others. Dr. de Lima tomorrow will sail for Brazil. He recently completed a lecture tour of American universities.

TEA TEST RULED OUT BY OFFICIALS

Board of Appraisers Say That Secretary Treasury Has Exceeded Authority.

NEW YORK Nov 20.—The Board of General Appraisers ruled yesterday that the Secretary of the Treasury has exceeded his authority in ordering the so-called Read test to be used to determine the purity of imported teas.

The decision is known on appeal of San Francisco importers, whose consignments of tea were rejected because they were found to contain coloring matter. The importers protested on the ground that the Read test is not according to the "commercial customs of the tea trade," as required by the tea act of 1907, empowering the Secretary of the Treasury to promulgate regulations for the inspection of tea.

TESTS BY INFUSION.

SAN FRANCISCO, Nov 20.—M. J. Brandenstein said last night that the ruling of the Board of General Appraisers will have the effect of a general adoption now of tests of tea by infusion or by chemical analysis instead of the Read test, regarded by importers as a mechanical test and one not as good as the others.

"Upon appeal to or chemical analysis the [illegible] case the best tests of tea that can be made, and that is what I believe the San Francisco importers generally wanted," he said. "Placing the tea in boiling water serves, as a general rule, to give a *thorough* test. This does not affect the importation of artificially colored tea, because the government forbids importation of that. But it does affect the tests, and the Appraisers' ruling may be supposed to find general satisfaction among importers, whose tea supplies will not be held up in delivery by the elaborateness of the other test."

Judson, a Chicago bond salesman, in the apartments of Mrs. Otto Dencker on November 11, failed to find an indictment against the woman's husband, who had been accused of attacking Judson, but against whom Judson refused to make a complaint.

BRIDE DESERTS ON HONGKONG PIER

Aged Groom Loses 67-Year-Old Wife After Tour of Europe.

SAN FRANCISCO, Nov. 20.—Deserted in Hongkong by the 67 year old bride he had married last June in New York, Martin L. Cavanaugh, 74 years old, returned yesterday on the liner Mongolia from what was to have been a round the world honeymoon.

Cavanaugh's home is in San Jose, of which city his bride was a resident. He is reputed to be worth $250,000, and he would give most of it, he said, if his bride would come back to him and live in the $6000 home he bought for her in San Jose. Mrs. Cavanaugh is said to be returning on the Nippon Maru, which is due here next Monday.

Cavanaugh is the father of a large family and was a widower at the time he made his latest venture on the sea of matrimony. Fearing the gossips of his home town, the engaged couple left San Jose for New York, where they were quietly married.

They sailed from New York on the Carmania and the honeymoon was everything a honeymoon should be, so the old man said, until their dramatic parting at Hongkong.

"My children," he said before he left the ship, "don't know anything about this yet, and I don't propose to let 'em know for a while. And I'm not going to say anything more about my bride. I have a large family and I love my children, but I'd be willing to see every one of 'em dead before I'd want any harm to come to her. I love her.

"We had a beautiful time in Europe. We took a North German Lloyd steamer from there for Hongkong and I was looking forward to *coming home* when she quit me.

BREAK COMES.

"There was nothing she wanted that I didn't buy her and I supposed she loved me as I loved her. We were going down the gangplank at Hongkong. I was giving directions about our baggage when she stepped up and said:

"'I'll attend to my own baggage.'

"Then she told me that she was through with me. That she was going her way and that I could go mine. I had her ticket home and offered to give it to her, but she refused to take it. I saw her at a tourists' office and from there she disappeared. I hunted for her four days, all over Hongkong. I found her just before the Mongolia sailed and tried to make her change her mind. She wouldn't budge.

"'Goodbye, then,' I says, holding out my hand.

"She gave me her hand and I took it and kissed it—right on the glove. And that's the lacst I saw of her.

"Before I sailed I left word at the booking agency that if she wanted money, any amount within my means, from a dollar to thousands, to send me a wire and I'd see that she got it as quick as it could be telegraphed. But no wire came, and I'm afraid I've lost her."

From passengers on the Mongolia it was learned that the woman had cabled to friends in San Jose for funds and was coming home on the Nippon Maru.

WILL NOT IMPROVE SANTA CLARA AVENUE

ALAMEDA, Nov. 20. — The turmoil and excitement created among Santa Clara avenue property owners over the proposal to repave that avenue, has subsided today, following a decision reached by the city council last night to abandon the project. The Civic Adornment league brought up the matter soon after the league was organized. One proposal was to have the entire city pay for the work, while another proposal was to tax the costs to the property owners, regardless of the fact that they had once paid for the improvement and that the city had accepted the street.

This procedure, it is claimed, can be taken, should the council elect, under the provisions of a recent street law. The council chamber was filled with property owners vitally interested. After considerable discussion the whole matter was dropped.

RUSTLERS SENTENCED TO NINE YEARS EACH

CHICO, Nov. 20. — George Michaels and J. A. Perkins were sentenced yesterday to serve nine years each in San Quentin on a charge of stealing cattle.

The man who informed on the pair and who was a member of the band, Bert Armstrong, was put on probation under bonds of $3000. He will report monthly to the court.

Michaels and Perkins had been carrying on a systematic cattle stealing business for years. Cattle belonging to various people in the Chico Canyon country continually disappeared and all efforts failed to locate the thieves. Finally a hide was traced to Armstrong's place and he was arrested. Under sweating he revealed the plot of the trio and his partners were arrested.

COUNT SENT TO PRISON FOR THEFT AT CHICO

CHICO, Nov. 20. — H. H. Hussman, a German count, whose ancestors fought in the Prussian war and who own vast estates along the Rhine, was yesterday sentenced to two years in State prison on a charge of felony embezzlement. Hussman, while employed in the Harry Fraser Hop Company's offices in this city, took advantage of the method of Fraser to sign blank checks and filled in a check for over $100 in his own favor and cashed it. He was captured, admitted his deed and refused to hire an attorney to defend him. Sentence was suspended on the Count's putting up a bond of $3000 and he is on probation, with orders to report periodically to Judge Gray.

CHICKEN CARETAKER'S FARE MUST BE PAID

WASHINGTON, Nov. 20.—Free railroad transportation for the caretaker of chickens shipped as a part of a carload of household goods is not contemplated by the law or reasonably to be expected from railroads, according to a decision of the Interstate Commerce Commission. The ruling was made in the case of Chas. Ream against the Southern Pacific and other carriers. Ream moved from Richmond, Va., to Los Angeles, and took his chickens with him.

Avoid Sedative Cough Medicines.

If you want to contribute directly to the occurrence of capillary bronchitis and pneumonia use cough medicines that contain codine, morphine, heroin and other sedatives when you have a cough or cold. An expectorant like Chamberlain's Cough Remedy is what is needed. That cleans out the culture beds or breeding places for the germs of pneumonia and other germ diseases. That is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world-wide reputation for its cures. It contains no morphine or other sedative. The Most Enjoyable Smoke in the World

MORGAN ROBERTSON

Morgan Robertson, famous writer of sea tales, says:

"*The able collaborator who has helped me over many a rough place, given me ideas when ideas were scarce, is none other than my old friend, Tuxedo Tobacco.*"

CHARLES S. ASHLEY

Charles S. Ashley, now serving his sixteenth term as Mayor of New Bedford, Mass., says:

"*Tuxedo strikes me as being the best pipe filler ever. A wholesome, enjoyable smoke.*"

EVERY man knows that pipe smoking is the *ideal* form in which to use tobacco. Only by smoking a pipe, can you get the *full* benefit and *enjoyment* from tobacco.

And yet—thousands of men reluctantly deny themselves the pleasure of the pipe—because fancy "mixtures" and ordinary tobaccos bite the tongue, dry the throat and upset the nerves.

It is not necessary longer to forego the pleasure a pipe can give you.

Tuxedo

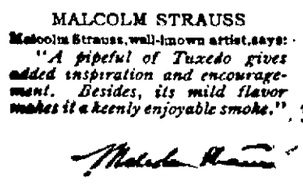

The Perfect Tobacco for Pipe and Cigarette

Tuxedo cannot bite the tongue or irritate the throat. The reason for this is that Tuxedo is made of only the mildest, choicest leaves of the highest grade, perfectly aged, Burley tobacco, by the famous "*Tuxedo process.*"

The "*Tuxedo process*" is a secret, known only to its manufacturers.

It was discovered by Dr. R. A. Patterson, the founder of the R. A. Patterson Tobacco Co., after many years of experiment. Its popularity has never been artificially forced by sensational advertising. The demand has grown *naturally* and *steadily*, until now nearly eighty million packages are sold yearly.

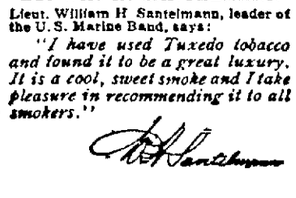

You can smoke Tuxedo in the office, on the street, and at home. It cannot make you nervous; its aroma is delightful and it cannot smell up lace curtains or your clothes.

MALCOLM STRAUSS

Malcolm Strauss, well-known artist, says:

"*A pipeful of Tuxedo gives added inspiration and encouragement. Besides, its mild flavor makes it a keenly enjoyable smoke.*"

LT. WM. H. SANTELMANN

Lieut. William H. Santelmann, leader of the U. S. Marine Band, says:

"*I have used Tuxedo tobacco and found it to be a great luxury. It is a cool, sweet smoke and I take pleasure in recommending it to all smokers.*"

GARRETT P. SERVISS

Garrett P. Serviss, president, scientist and writer, author of "The Second Deluge," etc., says:

"*I have tried many brands of tobacco, good, bad and indifferent, before alighting upon Tuxedo, the ideal smoke.*"

Illustrations are about one-half size of real packages.

WILLIAM P. SHERIDAN

William P. Sheridan, one of the most famous detectives in the country, says:

"*Tuxedo is so mighty fine, so superlative in its quality, its mildness and combined richness, that it seems the ultimate and only tobacco for the connoisseur. I can recommend it unqualifiedly.*"

GROWS HAIR ON BALD HEADS

Resorcin is one of the latest and most effective germ-killers discovered by science, and in connection with Beta Naphthol, also a powerful antiseptic, a combination is formed which destroys the germs, which rob the hair of its nutriment, and thus creates a clean and healthy condition of the scalp, which prevents the development of new germs.

Pilocarpine is a well-known agent for restoring the hair to its natural color, where the loss of color has been due to disease. Yet it is not a coloring matter or dye.

The famous Rexall "93" Hair Tonic is chiefly composed of Resorcin, Beta Naphthol and Pilocarpine, combined with pure alcohol, because of its cleansing and antiseptic qualities. It makes the scalp healthy, nourishes the hair, revitalizes the roots, supplies hair nourishment and stimulates a new growth.

We want you to try a few bottles of Rexall "93" Hair Tonic on our personal guarantee that the trial will not cost you a penny if it does not give absolute satisfaction. That's proof of our faith in this remedy and it should indisputably demonstrate that we know what we are talking about when we say that Rexall "93" Hair Tonic will grow hair on bald heads, except of course where baldness has been of such long duration that the roots of the hair are entirely dead, the follicles closed and grown over, and the scalp is glazed.

Remember, we are basing our statements upon what has already been accomplished by the use of Rexall "93" Hair Tonic, and we have the right to assume that what it has done for hundreds of others it will do for you. In any event you cannot lose anything by giving it a trial on our liberal guarantee. Two sizes, 50 cents and $1.00. Remember, you can obtain Rexall Remedies only at The Owl Drug Company stores in Oakland, San Francisco, Los Angeles, Sacramento, Portland, Seattle, Spokane.

INDEPENDENCE URGED FOR THE PHILIPPINES

WASHINGTON, Nov. 20. — Speaker Champ Clark favors independence of the Philippines. In yesterday's number of The Filipino People, published as an independent organ by the delegate from the Philippines, Quezon, Clark declares:

"The Philippines should be given their independence, guaranteed by the United States and such other powers as are willing to join us in the neutralization of the islands. I think our own guarantee would be sufficient, but I am for freeing them regardless of what the other powers do. I desire to see the islands free, and shall use every endeavor to bring it about, for their good and our own."

FLAG COMES DOWN ON OLD FRIGATE

Historic Independence Placed Out of Commission at Mare Island.

VALLEJO, Nov. 20.—The historic old frigate Independence, for the past 54 years receiving ship at Mare Island, and the oldest ship in the United States Navy, was placed out of commission at Mare Island yesterday. The ceremony of hauling down the flag was a simple one, and the men and property were formally transferred to the more modern cruiser Cleveland, lately returned from Nicaragua.

Just what will be done with the Independence has not as yet been officially announced. It has been frequently reported that the directors of the Panama-Pacific Exposition would make some arrangements with the government whereby the relic of another century would become one of the exhibits in 1915. As yet official word to this effect has never been received here.

Prominent Native Sons and Daughters of the Golden West have petitioned the government to retain the Independence because of its associations with the early history of California. For that reason it has often been referred to as "the naval Argonaut," it having first sailed up this coast in 1846, before the days of gold.

The keel of the Independence was laid down at Boston in 1812, it having been the intention of the Navy Departmet to have the ship ready for war with England in that year. However, unfortunate delays occurred and the Independence was not launched until 1814, when as the flagship of Commodore Bainbridge it took a prominent part in the war against Algiers.

In 1836, the frigate was still the pride of the old white navy, and to keep it up-to-date it was cut down to three stacks, and the guns reduced from 74 to 54. At this time the Independence was good for ten knots an hour in the wind, which was considered very fast time.

In 1846, commanded by Commodore Sculbrick, the Independence paid its first visit to California, having come around the Horn to harass the Mexican coast at the time of the war with that country. Returning to the east coast, the frigate became the flagship of the European squadron. It returned to the coast eight years later and has been at Mare Island ever since.

MME. HACK, GRAND OPERA SINGER, DIES

NEW YORK, Nov. 20.—Mme. Minnie Hauck, former grand opera singer, died in Munich last Saturday, according to word received here last night. She retired from the stage in 1895, spending most of her time at her villa on Lake Lucerne with her husband, Baron von Hesse-Wartegg.

The baroness was born in New Orleans sixty years ago, and died on her birthday anniversary. She made her debut in New York in 1868, in "La Somnambula."

SEARCH FOR WIFE OF WEALTHY DENTIST

BOULDER, Colo., Nov. 20.—Police of St. Louis, Memphis and other cities have been asked to seach for Mrs. Ira D. Scott, wife of Dr. Ira D. Scott, a wealthy dentist of Boulder. Mrs. Scott disappeared last Thursday and nothing was heard of her until today, when a rambling note was received from her from Memphis. Mrs. Scott took her four-year-old daughter with her. It is believed her mind has become unbalanced as the result of worry over a scandal with which her name has been connected.

BUILDERS OF CITY HOLD HIGH JINKS

Exchange Celebrates Twenty-fourth Year of Its Existence.

Seldom has a jinks been held with more enthusiasm and life than that with which the Builders' Exchange of Alameda county celebrated the twenty-fourth year of their existence at their headquarters at 1011 Franklin street last night. A number of prominent men in building circles showed their good faith in the association by attending. Hospitality and good fellowship reigned throughout the evening.

P. F. Bradhoff, secretary of the Builders' Exchange, toastmaster, introduced the speakers and entertainers of the evening. Miss Gold of the Pabst cafe sang "Take a Little Tip from Father," which she was compelled to repeat three times. William Larsen, editor of Daily Pacific Builder, made a hit when he rendered "My Own United States." An imitation of an Irishman's political speech brought a tremendous applause to W. V. Lloyd, a local insurance man. A. H. Shirk proved himself worthy of a name as a conjurer.

Half way through the program a recess of 30 minutes was given the entertainers in which everybody was served with several kinds of refreshments. Many spirited speeches were delivered. James H. Pedgrift, president of th Builders' Exchange, spoke on the past of the association. He was followed on the speaker's stand by John Howard Jr., vice-president of the Howard Company of this city. He had chosen as his subject "The Financial Prospects of the Coming Year."

"At no time have the business possibilities of this industry been greater than at the present," he said. "The wonderful growth of the east bay cities and the remarkable enerfy of the people will make this a close competitor to the other side of the bay. It is very probable that efforts to overshine San Francisco will be extended with much more zeal now that the main obstacle, the consolidation amendment, is removed. The east bay cities will grow and the building craft with them."

Moving to the new quarters caused an expenditure of between $300 and $400. In order to raise this amount a general collection was taken up. Subscriptions poured in so fast that in 15 minutes the required amount was reached.

UPHOLDS NAME OF PORTLAND Y.M.C.A.

Oregon Newspaper Declares Institution Is Free of All Scandal.

At the request of John Fechter, general secretary of the Oakland Y. M. C. A., the following editorial from the Portland Oregonian of Sunday, November 17, is reproduced

GOOD NAME OF THE Y. M. C. A.

The Young Men's Christian Association of Portland has 5000 members, representing every reputable calling in the professional, commercial and industrial world. It is not a sectarian institution. It has no narrow denominational impulse; it is not devoted to any particular creed; it seeks to render moral, educational and religious service, and provide physical training for all. It is altogether one of the most valuable institutions in the world.

Just now there is an attempt to connect the name of the local Y. M. C. A. with scandal, through the fact that two or three persons who have been quartered at the institution are accused, and are probably guilty, of depraved practices. The source of this attack is a newspaper which has just given in Portland a peculiarly shocking exhibition of sewer journalism in its lowest and nastiest form. The purpose of its publications appear to have been not more to give the public the facts about an unprintable episode than to cover a deserving association with odium, and to fasten [illegible] responsibility for the misdeeds of individual patrons.

The Y. M. C. A. quarters nightly have a large number of guests, most of them permanet. Due inquiry is made as to their antecedents and character, so as to guarantee their respectability. It is not strange that the confidence of the management should occasionally be abused. It is a fact that the earliest discovery of the misbehavior of one of its inmates came from the Y. M. C. A., and the investigation, resulting in the present disclosures, was started by Secretary Stone and his associates, and is now supported by them.

The Y. M. C. A. represents in a particular sense the conscience and the character of this community. Any assault upon its good name is an attack upon the fair fame of Portland itself. That a wicked attempt to asperse its membership should be made is perhaps not surprising, considering the quarter from which it came; that it should be tolerated at all by the decent citizens of Portland is a testimonial to their powers of self-restraint and sense of self-respect.

BURGLAR MAKES HIS ESCAPE OVER FENCE

SAN FRANCISCO, Nov. 20. — Leon Miller of 1080 McAllister street was sitting with his wife in the front of his store shortly before midnight, when he heard a man endeavoring to force an entrance at the rear. They ran back and saw a burglar climbing over a rear fence in an effort to escape. The police were summoned but the culprit could not be found.

The home of F. Fox, 3484 Seventeenth street, was entered by a burglar last night and $55 in valuables taken.

ANNOUNCES CANDIDACY.

BOISE, Ida., Nov. 20.—Paul Clagstone, defeated in the primaries for the Republican nomination for Governor by fifteen votes, has announced his candidacy for the United States senate to succeed the late Senator Heyburn. Clagstone is allied with the so-called Progressive branch of the Republican party.

HEAVY WEIGHT ON THE STOMACH

Stuart's Dyspepsia Tablets Remove It and All Other Forms of Indigestion Quickly

That awful feeling as though there were a heavy weight on your stomach—as though you had swallowed an enormous lump of lead—is caused by the failure of your stomach to thoroughly digest your foods. You may have eaten too fast or too much. Your stomach may be overworked and tired out. It is too weak to produce enough of the digestive juices necessary to take proper care of the food.

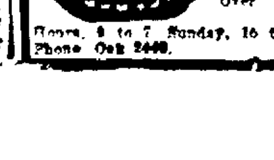

Gases form and cause all sorts of agony. The stomach demands more pepsin, hydrochloric acid and other digestive agents which it is unable to secrete.

Medicines are not only worthless in cases of this kind but are actually injurious to the whole system. It is sheer [illegible] stomach—drugs that have no digestive power whatever.

Stuart's Dyspepsia Tablets contain ingredients that not only bring quick relief to digestion sufferers, but actually digest the food for the stomach. OAKLAND TRIBUNE EDITORIAL PAGE

M. C. CHAPMAN President

Hurrah for Richmond.

Good for Richmond! The harbor improvement bonds have carried by a vote of six to one. This spells enterprise, progress, prosperity. It means that the citizens of Richmond have decided to make their town a real city and not a suburb. In improving their waterfront, they will reclaim a tract of marsh land which is an eye-sore at present and make a bid for the big business of the ocean. They have decided to utilize an opportunity at a time when it can be utilized at the smallest cost and to the best advantage.

THE TRIBUNE congratulates the citizens of Richmond on the spirit they are showing. They are laying the foundations of permanent prosperity, and at the same time doing something to build up the shipping interests centered in the bay of San Francisco. They are helping to build up the whole bay region, particularly the part of it lying on the eastern shore. We congratulate them on the start they have made, and have no doubt they will continue in the enterprising path which they have pursued thus far and which has led to such magnificent results.

With considerable asperity, the Fresno Republican warns the San Francisco Call not to meddle with its cabinet plans. Editor Rowell has picked James D. Phelan for Wilson's cabinet, and plainly tells the Call that it is guilty of lese majeste or something of the sort in booming Franklin K. Lane. He says the Call is booming Lane to beat Phelan. But how does this concern "Chut" Rowell? What's he to Phelan or Phelan to him? If Rowell really wants Phelan to get a cabinet job he will quit thrusting his oar in as if he had a voice in the matter. His impudent clamor in behalf of Phelan is characteristic, but its only effect will be to stir up more opposition to his candidate. His assertion that the object of booming Lane is to defeat Phelan is in harmony with the tactics which have distinguished him ever since he assumed editorial charge of the Republican. He cannot say anything against Lane or deny his fitness and popularity, so he resorts to the trick of impeaching the motives of those who urge him for a place in the cabinet. Rowell seems to think the weight of the nation is resting on his shoulders, whereas it is only the slack of his ears that burdens him.

The late E. J. Baldwin seems to have transmitted his soubriquet "Lucky" to his heirs. His estate has enormously increased in value since his death, and is now appraised at $20,000,000.

Colonel Roosevelt announces that the Progressives will not fuse with any other party. Now let them sail under their own name and their own flag, and quit masquerading as Republicans as they are doing in California and South Dakota. Let them release their hold on the machinery of the Republican party. In short, let them play fair and be honest. That their chief repudiates fusion is all the more reason why they should repudiate confusion and chicane. In the recent campaign the Republican party was dosed with knockout drops and robbed of its name and raiment. The popular revolt shown by the election returns admonishes the Progressive bosses not to repeat the performance.

The women of Pittsburg, Kansas, celebrated the adoption of the suffrage amendment with a bonnet-burning bee. Easter is coming and the ladies probably wanted an excuse for ordering new bonnets. They surely do not intend to quit wearing the headgear which distinguishes the sex everywhere. But if they will discard the cartwheel hat much will be forgiven. Still we do not see why they should keep the bonnet as well as the ballot.

Party Strength in the Next Congress.

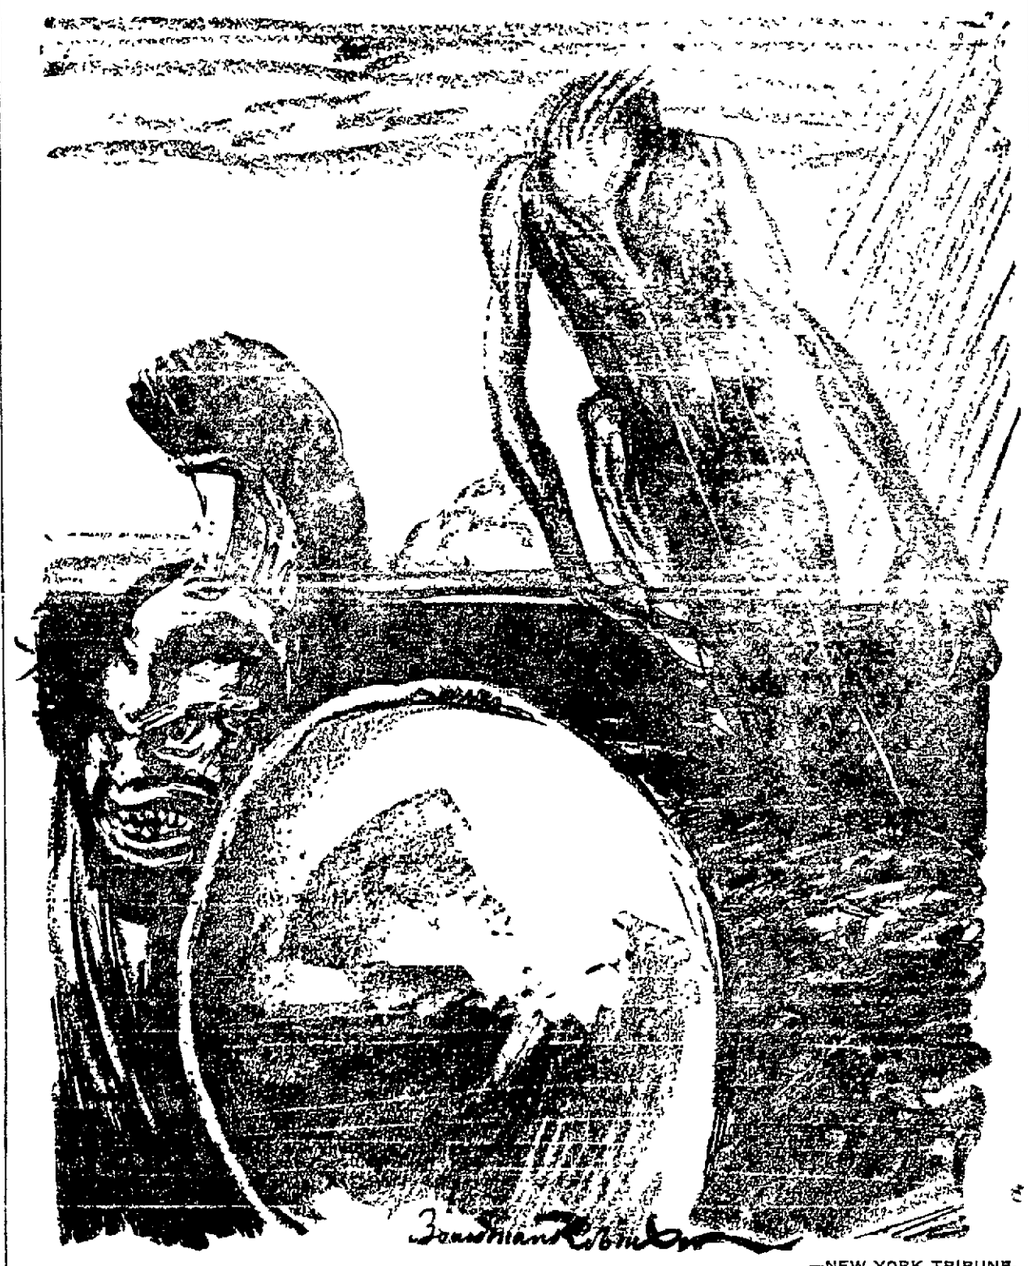

In the next House the Democrats will have a two-thirds majority. They have elected 297 Congressmen out of a total of 435 members, leaving 138 classed as Republicans. Among the Republicans, however, there are some 14 Progressives, so that the minority is not solid. The Republicans will have only 124 organization men to buck 297 Bourbons. Some of their best floor leaders, including Uncle Joe Cannon, John Dalzell, Hill of Connecticut, Crumpacker of Indiana, Needham of California and McKinley of Illinois, have been defeated. They still have Mann of Illinois, floor leader in the present House. Norris, the Bull Moose leader, will not figure in the next House. He has been promoted to the Senate, where he will take the place made vacant by the defeat of Jonathan Bourne of Oregon. Joseph M. Dixon of Montana is another Progressive who will lose his seat on March 4th. Dixon and Bourne will be succeeded by Democrats. Massey of Nevada, Briggs of New Jersey, Sanders of Tennessee and Guggenheim of Colorado are regular Republicans who will give place to Democrats. Joe Bailey will be missed as a Democratic leader; he will be succeeded by a sophomoric young man named Sheppard. All the old Democratic standbys in the House have been re-elected, save Sulzer, who will retire to take the Governorship of New York, and Cox of Ohio, who will succeed Judson Harmon in the Governor's chair. The new Congress will have many new faces in it, but few new men of national distinction.

Woodrow Wilson says he will call an extra session not later than April 15, 1913, to revise the tariff. Perhaps he has decided wisely. If it be done, 'twere well it were done quickly. Revising the tariff is a ticklish job, and since the people have authorized it to be done, let it be done as soon as possible. This done and over with, business can adapt itself to the new conditions. Perhaps it will be best to take the jolt now and not prolong the period of apprehension for another year. By waiting we may get into such a stew as to precipitate a panic when there is no need of one. The bankers all got scared to death in 1907 and had a panic all to themselves. The manufacturers may work themselves into the pessimistic frame of mind that caused the banks to suspend payment in 1907. Revise the tariff before they have a chance to stampede.

A woman in Washington went crazy because Roosevelt was defeated. A good many others went crazy thinking he was going to be elected.

A Chicago judge has decided that snoring is no crime. It all depends upon who snores.

Improving the Breed of Horses.

At the last session of Congress $50,000 was appropriated to improve the breed of horses in the United States. A better class of horses is needed for the military service, and the government is taking steps to provide better horses for the cavalry and artillery.

It is not proposed that the government shall breed its own horses; it does not intend to compete with private breeders, but to encourage the breeding of finer stock by providing stallions of approved breeds. The government will import stallions of the most useful breeds, and establish breeding stations in various parts of the country, serving farmers free on condition that they give the government an option on the horses bred under this arrangement. If any private purchaser offers more than the government option price the breeder is at liberty to sell to him. Thus the farmers can breed horses with the certainty of getting a fair price for them.

Breeding stations have already been established in Vermont, Virginia and Colorado; others will be established in Kentucky and Tennessee and perhaps other States, the aim being to locate them in the sections best adapted to horse-breeding. Morgans will be bred in Vermont, thoroughbreds in Virginia and standard breeds and saddle horses in Kentucky and Tennessee.

One or more of these breeding stations should be established in California. The conditions in this State are ideal for producing horses of the highest type and speed and the best bottom. The California horse has no superior in the world for speed and endurance and beauty of form. The breeding system the government has inaugurated primarily for the benefit of the army should be extended all over the country. It will be a help to breeders and improve the standard of road, draught and plow animals. California should have a share in these benefits.

Armageddon is now better known as the place where the boat is taken for Salt River. It is in the neighborhood of Oyster Bay.

Bob Henry of Texas says he will not be a candidate for Speaker. Congress had arrived at that conclusion before he spoke. You see Congress is acquainted with Bob.

Is respect for womanhood dying out in America? At West Clarksville, Ohio, a gang of men took a young girl from her home, stripped her naked and tarred and feathered her. About a year ago a similar outrage was perpetrated in Kansas. More recently a wealthy farmer in Georgia, aided by others, took a young girl whom his son wished to marry, out in the woods, stripped her to the skin and horsewhipped her nearly to death. The Kansas ruffians were punished, but the Georgia man has thus far escaped conviction. Indictments have been returned against some of the assailants of the Ohio woman. A dose of buckshot would not be a bad remedy for such outrages.

"Anyway, President Taft will leave the White House with the respect and best wishes of the American people," says the San Antonio Express. In time history will do justice to his virtues and the patriotic services he has rendered his country. In administering the affairs he has not sought to gain popularity for himself, but to do what seemed to him best for the people. He is largely a victim of circumstance—for the present—but in after years justice will be done to his motives and his performances. He is an example of the ingratitude of republics, but his fame will shine nevertheless. When history comes to be written it will give a high place to William Howard Taft.

MONTREAL'S NEW HARBOR

Montreal, having accomplished her harbor and the channel for 5000-ton ships that led to it from the open sea, stood still for half a century and admired her works along the water front They were impressive Much-traveled folk were not slow to say that she possessed one of the handsomest harbor fronts in the world with its gay show of shipping, its broad, stone-walled quay street and back of that the line of sober, serious limestone buildings, much given to domes and cupolas It was all impressive and in its way beautiful But it was growing obsolete And there were more and more men in Montreal who realized that each year

Then Montreal awoke Two new transcontinental lines were being driven across western Canada. If she did not take the cue the bulk of their traffic would not come to the wharves of the chief city of Canada It would go rushing by rail down across the United States or to new harbors below Quebec

Montreal Harbor is still too new in its renaissance to have given full evidence of its value but only last summer the Canadian Pacific liner Mount Royal discharged 4 70 tons of general cargo and took on 5000 tons, also of general cargo all in fifty-three hours The average time taken in European ports, as shown by carefully-compiled statistics, for the loading and unloading of a 10,000-ton cargo is fourteen days Montreal handled 13,750 tons in a little over three days and feels that her new port measured up to its test (Harper's Weekly)

BALDWIN ESTATE FINALLY SETTLED

More Than 1,000,000 Items Contained in Report Filed Yesterday.

LOS ANGELES, Nov. 20—The final report of H. A. Unruh, administrator of the estate of E. J. (Lucky) Baldwin, who died in March, 1990, was filed in the Superior Court yesterday. The report covers 929 typewritten pages and contains more than 1,000,000 classified items. Eight to ten clerks and typists worked nearly four months to complete it. It is bound in two great volumes.

The estate, the largest ever handled in Southern California, is now shown to be much more valuable than the first appraisers indicated. The minor bequests and all expenses have been paid and the litigation disposed of. In spite of many legal entanglements and suits which attacked the integrity of the estate, the administrator is now prepared to turn over to Baldwin's two daughters, the residuary legatees, fully $20,000,000 in real estate, mortgages and cash.

It is expected that the full distribution to the heirs, Mrs. Clara Baldwin Stocker and Mrs. Anita Baldwin McClaughry, will be made before the end of the year. They have already received more than $2,500,000 in cash They will also receive about $1,000,000 more in cash, $6,500,000 in mortgages and real estate valued at $11,000,000. The mortgages draw 6 and 7 per cent interest, and yield an income of $1200 per day. The real estate consists of 12,000 to 15,000 acres of land in Los Angeles and San Bernardino counties, including valuable tracts close to Los Angeles and the Santa Alta ranch of 13,000 acres. The ranch is entailed to Baldwin's grandchildren.

Champ Clark admits that his favorite fish for lunch is pie, but most Democrats want it for breakfast and dinner, too.

TRANSLATED FROM GERMAN

Mrs. Wm. Ibsen Writes of Her Experiences With New Medicine.

Here is the translation from the German of a letter written by Mrs. William Ibsen, of Redondo, Wash., telling of her experiences with Sulphurro, the new Liquid Compound of Sulphur:

"A year ago this time I heard of Sulphurro. I then had an open leg, so that I was hardly able to do my housework. I used Sulphurro two months, and was fully cured.

"Then in the spring of 1912 my limbs started to swell from the hips to the ankles, and I feared I had dropsy. I immediately started in on Sulphurro again, taking it continually for two months. Now I am well, something I could not say for two years."

Sulphurro is a most remarkable remedy for rheumatism, stomach, blood and skin diseases. It introduces Sulphur, Nature's antiseptic and purifier, into the blood, drives out the impurities and poisons, and makes you feel like a new man or woman. It comes in 50 cent and $1.00 bottles at all drug stores Health booklet free upon request to the C. M. C. Stewart Sulphur Co., 71 Columbia St., Seattle, Wash.

WEST VIRGINIANS WILL SELECT SITE

Delegates to Meet Commission Coming From New York.

SAN FRANCISCO, Nov. 20.—Governor William E. Glasscock of West Virginia has informed President Moore of the exposition that he has appointed the following representative men commissioners for West Virginia: Colonel Fred Paul Glosscup of Charleston. John T. McGraw of Grafton and G. O Nagle of Wheeling. They leave for San Francisco today and are due to arrive here November 24. They are coming to select a site for the West Virginia pavilion at the Panama-Pacific International exposition Governor Glasscock expresses regret that he is unable to accompany the delegation on the trip, as he had planned, but is prevented by important business at home.

The New York delegation, headed by Norman E. Mack, chairman of the Democratic national committee, left Buffalo last Monday and will arrive here November 25. The New Yorkers will dedicate their site, which was practically selected by the New York commission one year ago.

New York has set aside $750,000 for participation in the 1915 universal exposition. Thus far 31 States have accepted the invitaton to participate in the great exposition and 19 have dedicated their sites.

A large delegation will attend the winter convention of the counties committee of the California development board, which will be held in Oroville, December 6 and 7. This convention will hold its sessions during the progress of the annual Oroville orange and olive exposition, which will be held between December 3 and 7.

E. A. Jackson, director general of the Oroville show, is planning to entertain a large representation from this city Special trains are to be run by local civic organizations.

The chief of local publicity of the exposition will lecture tonight before the Daughters of California Pioneers in their hall in the Argonaut hotel building. He is taking the place of Congressman Joseph R. Knowland, who is ill. He will exhibit moving pictures, showing the principal events that have taken place on the exposition site and the construction work thus far accomplished on the site.

ENDORSES SALE OF RED CROSS SEALS

The Alameda County Medical Society Helps Forward Worthy Cause.

At its regular monthly meeting last evening, the Alameda County Medical Society heartily endorsed the work of the committee having in charge the sale of Christmas seals, the proceeds to go to the anti-tuberculosis fund. The society also promised all the assistance in its power to forward the good work in a great cause. Mrs. Mark Requa, chairman of the executive committee, announces the general assembly for a public discussion for Sunday afternoon, December 1, at Ebell hall, at 4 o'clock. The public is cordially invited to be present, and there is to be no collection.

Dr. Philip King Brown of San Francisco, one of the leading physicians of the coast, is to be one of the leading speakers, and District Attorney Donahue will also give one of the addresses. The work of formulating the many plans goes rapidly on, and success along every line marks the early phases of the work. Mrs. Walter Seaver has charge of Berkeley and many plans of work are being outlined there also.

A meeting will be held at the Woman's Exchange tomorrow morning at 10 o'clock, when the executive committee and the many captains will discuss various plans for a great holiday success.

The women's clubs are rendering most efficient service, both in this city and throughout the county, for it is hoped to make the coming Christmas sale of seals an east bay city affair.

GETS INTO OFFICE BY GUESSING; CAN'T STAY IN

CANTON, Ohio, Nov. 20.—Harry Schilling, Socialist, has replaced Arthur Turnbull, Democrat, as mayor of Canton, following a decision of the courts that Schilling legally was chosen last year. The returns showed Schilling and Turnbull [illegible] decided by guessing the number of grains of corn in a cup. Turnbull won on his guess. The court held that a later count showed Schilling elected.

AUDIENCE GRANTED.

Johnson did not indicate to either of the union men what action he would take in the matter.

SCHOONER WINS BATTLE AT SEA

One Man Swept Away; Starvation and Thirst Threaten All on Board.

SAN FRANCISCO, Nov. 20—With one man lost overboard, the canvas torn from the masts, its cargo of lumber started and the crew of fifteen men in dire straits for food and water the power schooner Archer arrived from Puget Sound last night after a terrific buffeting by head winds and heavy seas

Fifteen days were required by the little vessel to make this port from Roche Harbor. In the first three days it made Cape Mendocino The remaining twelve were required to negotiate a scant 200 miles. In this period the Archer's gasoline engine broke down and its helm refused to work.

The Archer left San Francisco on October 17 and began the return trip on November 3 laden with lumber, lime and empty oil drums. Immediately it plunged into heavy head winds and angry seas.

Charles Anderson, the ship's carpenter, was thrown to the slippery deck by a sudden plunge on the night of November 6 and was washed overboard. Captain F. O. Parker was in the cabin and heard the man's cries.

Unable to lower a boat on account of the huge swells the men stood by helplessly while their comrade was swept out of hearing and drowned.

After leaving Crescent City more gales were encountered The Archer was sighted on November 7 by the steamship Iaqua, bound for Portland.

LOST FOR TWELVE DAYS.

For twelve days following the little vessel passed out of communication with the world and underwent experiences which its seamen say to be without parallel in their experiences. The log of the vessel reads like a page from romance.

Terrific southeasters made progress impossible. Plunging and rolling, the vessel disabled its engine, lost headway and had much of its canvas whipped from the masts. The southeasters continued clear to Point Reyes.

One billow smashed in two windows of the second mate's room, letting in a flood which required heroic efforts to stop. The breach was fixed hastily.

Then it was found that the deck cargo had started to go overboard. All hands were called on deck to lash the lumber securely.

On account of their shortage of food and water the men suffered real hardships.

The meat supply gave out entirely. Several cargoes of live ducks, on their way to San Francisco markets, were all that saved the day.

THOMAS E. WATSON IS INDICTED BY GRAND JURY

AUGUSTA, Ga., Nov. 20.—Thomas E. Watson, at one time presidential candidate of the Populist party, now editor and publisher of the Watson Jeffersonian, was indicted last night by a federal grand jury on a charge of sending obscene matter through the mails.

The charges were presented in connection with articles which appeared in the magazine under Mr. Watson's signature bitterly arraigning Catholicism. The articles were characterized by the grand jury as "obscene, filthy and improper to spread on the court records."

BOY KICKED BY HORSE.

SPRINGVILLE, Nov. 20.—Alva, the 16-year-old son of Edward Clements, a wealthy rancher of this district, was kicked in the head by his driving horse and perhaps fatally injured. He was removed to a valley hospital, where it is said an operation may save his life.

AEGIS SHOWN ON BOARDS; ORIGINAL ACTS PROMISED

MISS GERTRUDE BANGS (TOP)

MISS ESTHER WITTER.
—Webster Photo.

The semi-annual Aegis show of the Oakland High school, for the benefit of the girl's edition of the school paper, will be given in the High school gymnasium next Saturday evening at 8.15. With a cast of 52 people, the show will be one of the largest and probably the best ever given at the Oakland High school. Miss Margaret Morrison, editor of the girls' Aegis, is managing the show, and Miss Claire Soule, a prominent member of the faculty, is coaching the production.

The program is complete, containing seven vaudeville numbers of various kinds. The first two acts are Japanese musical numbers; the third act will be a first class boxing match with two prominent featherweights as opponents; in the fourth act will appear a fun-making quartet; the fifth act is a fancy dancing act with ten young misses appearing in the Dolly Varden dances; the sixth act will include a solo dance and a Hungarian fancy dance; the seventh act will probably be the feature of the evening, an operatic burlesque on "Romeo and Juliet," with a cast of four and a beauty chorus of eight.

PERSONNEL OF ACTS.

The first act of the evening will be the Ukelele chorus in a Japanese musical number, featuring ten dainty maids of the Orient as follows: The Misses Charlotte Cockroft, Ruth Vincent, Katherine Bangs, Anita Howard, Alice Crellin, Margaret Morrison, Margaret Boveroux, Alice Watson, Esther Witter and Helen MacIlse.

In the second part of the Japanese musical nunmber are Miss Pauline Chamberlain, Miss Alice Elliot and Miss Helen Grey and Arturo Gonzales, Clifton Gordon and Leon Turner.

The principals in the boxing match will not be announced until later, but two good "knights of the padded gloves" will hammer at each other for the edification of the unitiated.

In the fourth act, the quartet number, will be seen Arturo Gonzales, Arthur White, Archie McDonald and Paul Roller.

IN DOLLY VARDEN DANCES.

Ten more young women will appear in the Dolly Varden dances, namely Miss Marion Miller, Miss Gertrude Bangs, Miss Louise Mills, Miss Betty Yard, Miss Florence Morrison, Miss Alice Elliot, Miss Ruth Kroll, Miss Clare Reynolds, Miss Marjorie Waldron and Miss Helen Martin.

The next act will feature a solo dance by Miss Gladys Gerrish, and a beautiful Hungarian dance including the Misses Grace Outram, Lucia Smith and Margaret Mau.

The burlesque opera on "Romeo and Juliet" will be the funniest and most original of all the parodies on the tragedy. The beauty chorus of eight persons will be attired in the latest Parisian styles and will appear in twelve choruses of the latest song hits. Harold Blote will take the part of Romeo, Lloyd Cobbledick, Juliet; Harold Aydelotte, Paris, and Charles Cowan, the Friar The opera will be put on for two acts.

The seats are now open for reservation at the Oakland High school, [illegible] man & Clay's and at the Co-Op store in Berkeley.

MIDSHIPMEN SHOW LOSS IN WEIGHT AND STRENGTH

ANNAPOLIS, Md., Nov. 20.—A marked loss of weight and strength among the members of the first and second classes of midshipmen was the result of the summer cruise with the Atlantic fleet, according to a statement by Surgeon R. W. McDowell, medical officer in charge of physical training at the naval academy.

The change is ascribed to the lack of [illegible] plete shift of habits of work, sleep, recreation and diet. The average loss of weight among the midshipmen was six pounds.

FLEEING CONVICTS STARVE FOUR DAYS

Alcatraz Prisoners Are Found Hiding Under Infantry Barracks.

SAN FRANCISCO, Nov. 20. — After having gone four days and nights without food, Michael Mullen and Thomas Frayne military convicts, who escaped from the United States prison on Alcatraz island last Saturday afternoon, were captured last night hiding beneath the concrete infantry barracks. They were taken to the island hospital, where they now lie in a precarious condition.

The men were not missed until the prisoners were turned into their cells on Saturday evening A search of the island was made by the guards, but no trace of the men could be found. It was concluded that they must have in some manner constructed a raft without the knowledge of the guards and escaped As the search was made in the daytime this idea was not accepted by all of the officers, and the conclusion was reached that the men had confederates.

As soon as it was thought that they had got clear of the island circulars and letters containing accurate descriptions of the pair were forwarded to all of the chiefs of police in the bay cities, with instructions to be on the lookout for them, as they are considered dangerous.

The circulars had no result, and the authorities were becoming more and more puzzled over the disappearance. The fact that there are few places of concealment on the island and that escapes from the island prison are exceedingly rare added to the mystery.

CONVICTS DISCOVERED.

Late last night strange noises were heard coming from beneath the infantry quarters. Investigation was made and far back in the dark corners the two missing men were located. Both were almost starved and in a terrible condition from the exposure and lack of food and water. When they were dragged from their hiding place by the guards they were in such a weakened condition that they were immediately rushed to the island hospital.

After escaping from the guards the two prisoners had in some mysterious manner tunneled beneath the concrete basement wall and hid under the quarters in the hope of later being able to make their way out and get away from the island.

Both men are long termers. They are from the cavalry. Mullen, who is 25 years old, was a steamfitter before joining the army and Frayne, who is 23 years of age, was an oiler. Frayne is serving a term of 10 years and Mullen 11 years. They were convicted and sentenced to the prison at Fort Leavenworth, Kansas, but were later transferred to Alcatraz

Flagged Train With Shirt.

Tearing his shirt from his back an Ohio man flagged a train and saved it from a wreck, but H. T. Alston, Raleigh, N. C., once prevented a wreck with Electric Bitters. "I was in a terrible plight when I began to use them," he writes, "my stomach, head, back and kidneys were all badly affected and my liver was in bad condition, but four bottles of Electric Bitters made me feel like a new man." A trial will convince you of their matchless merit for any stomach, liver or kidney trouble. Price 50 cents at Osgood Bros.

AFTER COUGHING MONTHS

Brooklyn, N. Y., Woman Found Relief in Vinol.

Did you ever cough for a week? Then just think how distressing it must be [illegible] cough hang on [illegible] three months.

Mrs. Mary Primrose of 57 Norwell street, Brooklyn, N. Y., says: "I had a very heavy cold which settled into a chronic cough which kept me awake nights for fully three months, and felt tired all the time because my rest was broken. The effect of taking your cod liver and iron remedy, Vinol, is that my cough is gone. I can now get a good night's rest and I feel much stronger in every way."

It is the combined action of the medicinal elements of cod liver aided by the blood-making and strength-creating properties of tonic iron which makes Vinol so efficient for chronic coughs, colds and bronchitis—at the same time building up the weakened, run-down system.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. The Owl Drug Co., Oakland, Cal.

'DODIE'S' HUSBAND AGAIN IN TROUBLE

Judgment of $32,922 Is Rendered Against Jas. Dunphy, Son of Millionaire.

SAN FRANCISCO, Nov. 20.—Echoes of the past career of James Clay Dunphy, son of the millionaire cattle king whose sensational marriage to "Dodie" Valencia two years ago attracted a great deal of attention and notoriety, were heard in Superior Judge Van Nostrand's court this morning. A judgment was granted to John Henry Merdeith against Dunphy for $32,922.06. This was money advanced by Merdeith to Dunphy during the time that the latter made a practice of treading the paths along the great white way. It is said that a portion of the coin was spent on "Dodie" and that included in the bill is some $8000 for hammam baths.

Dunphy's wedding to Miss Valencia, followed by an annulment secured by his sister, who had herself appointed guardian, and the subsequent efforts of the fair "Dodie" to obtain a slice of the estate, formed a chapter in recent court history.

YOU NEED S.S.S.

Every sufferer of Rheumatism needs S. S. S. because this great blood purifier is a certain cure for the painful disease. Rheumatism is caused by an excess of uric acid and other corrosive, irritating impurities in the blood, which are carried through the circulation to the different portions of the system. This acrid matter coats the nerves, muscles and joints with a fine, caustic deposit and the sharp cutting pains or dull, constant aches are produced. S. S. S. cures Rheumatism because it is a perfect blood purifier. It goes into the blood, neutralizes the acids, and dissolves the irritating particles and forces them out of the system through the natural excretory channels. Then all inflammation and swelling subside, the pains and aches cease, and not only is Rheumatism permanently cured but under the tonic effects of S. S. S. the entire health is benefitted and built up. S. S. S. reaches inherited cases as well as those which have been acquired, and good results always follow its use. S. S. S. is an absolutely safe remedy because it contains no strong minerals to damage the system. It is made entirely of roots, herbs and barks. Book on Rheumatism and any medical advice free to all who write and request same. S. S. S. is for sale at leading drug stores.

ROUTED BURGLAR HAS HIS REVENGE

Chinaman Who Pursued Crook Is Attacked by Individual.

If anybody attempts to rob Jue Hing, 223 East Eleventh street, again, Jue will submit gracefully. Monday Jue found a man in the act of taking a bag of gold from his room, and gave chase to the burglar, calling in the police and giving the robber a run for his money. Jue was proud, even though he did not catch up with the thief. Last night Jue was attacked again, and he believes that the attack was made by the man he had pursued, assisted by an accomplice, as an act of retaliation.

Jue Hing almost effected the capture of the man who stole his gold Monday, and when the Chinaman had his man cornered the robber threatened that he would return to revenge himself, or that his "pal" would "do the job." Jue was troubled over the threat.

After [illegible] after an evening spent playing fan tan, Jue was returning home last night. He was followed by two men, one of whom answered the description of the robber who entered Hing's place Monday. As he was running across the Eighth street bridge the two men overtook Hing and stole his last quarter. Hing reported the second theft to the police.

The Century Electric Company reported to the police the theft of wiring valued at $40, from the basement of a new house at 1654 Fifty-sixth street.

PARKER'S HOBBY PROVES COSTLY

Gallant Colonel Pays $100 for the Privilege of Weaving Net.

SAN FRANCISCO, Nov 20 — Colonel Sam Parker, the gay, gallant and picturesque Honolulan, whose recent defeat for the office of Mayor of the island city rests very lightly upon his distinguished shoulders, was a passenger on the Mongolia, arriving yesterday The Colonel had a "kick" but it wasn't because he failed to become Honolulu's chief executive

One of Colonel Parker's hobbies is not making, and he is as clever with the needle and the mesh as any of the light-fingered Italian fishermen down at Meiggs wharf As usual Colonel Parker occupied half a suit aboard the Mongolia, paying a rate of $225 He fell to work weaving a net, and when more room was necessary the Colonel opened the door connecting his part of the suit with the other which happened to be unoccupied, and appropriated the additional space to string out the mesh.

Purser O. D. Martinez informed the Colonel that he would have to pay $100 more if he wanted to use the extra section. The colonel stormed, and finally the purser sent a wireless to R P Schwerin, the general manager here, asking for instructions Schwerin wired back ordering Purser Martinez to insist upon the additional fare.

The Colonel's friends aboard yesterday mentioned that he was entitled to a rebate

"I'm thinking so, too," replied the Colonel, with a twinkle in his eye, "but I made good progress with my net any way"

BRYAN TO HEAD WILSON CABINET

Semi-official Report Says the Nebraskan Has Been Offered Place.

WASHINGTON, Nov 20 — William J Bryan will be Secretary of State in the Cabinet of President Wilson providing he accepts It was learned last night on authority that can hardly be questioned that the premier post in the Wilson administration has been offered to the Nebraskan, and that he probably will accept Furthermore, Bryan apparently will be one of Wilson's chief advisers in selecting the new Cabinet

The tender to Bryan of the portfolio of state is the only Cabinet matter that has been formally settled up to this time Bryan's influence in the next administration can no longer be minimized Whether for weal or woe, the President-elect has made acknowledgments to the leader of the so-called progressive wing of the Democrats by inviting him to join the Cabinet He apparently has performed for Bryan the same office that President-elect Taft did for Philander C Knox four years ago by offering him the Secretaryship of State at the very outset of making his Cabinet, and commissioning him to assist in building the administrative machine

That is the significance that is now attached to Bryan's forthcoming visit to Bermuda which was reported this afternoon in press dispatches from Hamilton Bermuda, where President-elect Wilson is now reposing

LONDON'S TRAMWAYS IN ONE CORPORATION

LONDON, Nov 20 —Sir Edgar Speyer, carrying on the work begun by the late Charles T Yerkes, has achieved another master stroke of finance in pursuance of the policy of controlling the traffic facilities of London

To the huge combination of practically all the newer tubes of the London General Omnibus Company and the United Tramways Company, there has now been added the Central London Railway, City and South London Railway and Metropolitan Electric Tramways Company The two railways are to be taken over bodily and a new company is to be formed to combine the two tramway companies.

The total issued capital of the combined group exceeds 46,000,000 pounds ($225,000,000), and the combined receipts for the first half of 1912 exceeded 2,250,000 pounds. Under the new arrangement the tramways, omnibuses and railways will complement instead of competing with the respective companies

URGES NEED OF HOTELS TO CARE FOR TOURISTS

W. H. Weilbye Declares 'Seeing America First' Has Its Drawbacks

EDITOR TRIBUNE During the proceedings of the Trans-Mississippi Congress held some months ago at Salt Lake, I had the pleasure of listening to very timely and convincing addresses by James H Brady of Pocatello, Idaho, and others on "See America First" There was much food for thought in the subject.

Following the discussion it was said that once the tourist travel was assured, the hotel question would take care of itself It is to this point that I believe the public and the press should give some attention. I disagree with the idea that the tourist will come in any large numbers before there are hotel accommodations for him, but I am quite sure that once we provide the comforts that are held out to him as inducements to visit other countries he will only be too glad to "See America First"

The experience at the most frequented pleasure resorts in the world has been that they must offer something worth while before the traveler can be tempted to enjoy their hospitality, for it is well understood that the tourist seeking enjoyment goes along the line of least resistance and will not put up with discomforts when luxury can be had just as easily.

The government should build hotels in the national parks right now, and build good ones—those that will provide every luxury and every comfort—else our efforts to bring the tourist our way will not avail.

HAS SEEN IT FIRST.

I have "Seen America First"—have gone over it carefully and observingly. Recently I completed a tour of the world. My loyalty to my own country has prompted me to give much thought to this tourist question and how best the traveler can be persuaded to enjoy the beauty spots of his own land before turning his footsteps toward other climes.

Much is done abroad for the comfort of the American tourist, under present conditions we cannot give the tourist in America as much comfort and as many accommodations for his money as he gets abroad. But he should at least have some small degree of comfort and be provided with a few of the things to make his touring a pleasure rather than a drudgery.

He certainly does not get comfort or adequate accommodations in all of our national parks, and until he does he cannot be tempted to "See America First."

A case in point is the Yosemite Valley, the grandest, most inspiring of America's national parks It has no equal in the world for scenic splendor. Yet once in the valley, the tourist can hardly be made comfortable and runs a chance of being denied accomodations altogether

WORLD IS INVITED.

We are now not only asking all Americans to come west and "See America First," but are inviting the world to come to see America and especially the West. That which is most alluring in our invitation is the Yosemite Valley.

From what is being done along this line and from these persistent invitations we have every reason to expect an unprecedented tourist travel to the Pacific Coast during the next three years Yosemite has been visited by increasing throngs every summer for many years, yet the hotel accommodations in the valley have never been improved, and are woefully inadequate. What will they be during the next few seasons, when it is expected the travel in our direction will be unprecedented?

Recently I addressed a letter to the secretary of the Yosemite Valley Railroad, asking a number of questions on the conditions in the valley, with regard to the accommodations provided for tourists. The answers, which also indicate the questions, are given below.

"1. The average travel to the Yosemite Valley during the past five years has been 11,000 per year.

"2 We estimate that in the neighborhood of 30 per cent are accommodated in the Sentinel Hotel, the balance making use of the camps in the valley

"3 There is one hotel in the valley of about thirty rooms This hotel is an antiquated frame building without any modern conveniences nor private baths

"4. During the month of June there have been days when the travel could not be accommodated, even with tent accommodations

"5 The only reason I can give for lack of better hotel accommodations in Yosemite Valley is that up to a year ago the government would not give a long term lease for a hotel, and consequently capital could not be interested in the construction of a modern building"

ACCOMMODATIONS NEEDED

The condition in Yosemite Valley is probably worse than in any other notable national park, and it illustrates my contention that the government should proceed without delay to provide up to date hotel accommodations for the tourist who visits these pleasure places It should do that which will tempt him to visit them rather than follow a course that drives him away.

There is no reason why the private individual should be called upon to make the investment. The government itself should be above sugesting it

When the country itself awakens to the necessity of providing comforts for the tourist, he will take advantage of the changed condition and will "See America First." In the meantime our representatives to Congress should be urged to give the subject consideration.

W. H. WEILBYE.

Educator Has Seven Remedies for the High Cost of Living.

HUTCHINSON, Kan, Nov 20 —Seven remedies to overcome the high cost of living were offered here by Dean Frank P. Blackmar, professor of sociology at the University of Kansas, in an address before the Kansas Agricultural and Industrial Congress. They follow:

Let the government check the decline in the purchasing power of gold by taking, automatically, seigniorage of the bullion that is behind the dollar, thus leaving the value of the dollar stable and allowing the weight to rise or fall correspondingly with the rise and fall of average prices

Induce, if possible, more people to engage in the production of raw material.

Introduce scientific intensive agriculture in order to double the production per acre.

Revise the tariff by a scientific treatment which will eliminate present evils. Prevent as far as possible organizations from advancing prices arbitrarily Place a maximum limit to prices if necessary

Introduce simpler and less expensive methods of bringing the commodity to the consumer.

Finally, educate people in the principles and habit of true economy, thus doing away with extravagance and waste.

HOPE FOR END OF WAR AMONG MINE BUYERS

FRESNO, Nov. 20 —E. L. Spellman of New York has been in Fresno for the past week purchasing wine and investigating the wine situation in this valley He left last night for San Francisco, where he will meet Charles Sterns of New York, President Kitteridge of the California Wine Association and other prominent wine men and an attempt will be made to stop the war between the wine men in California and put the wine business on a firm footing again

For some time past there has been a fight on in California between the independent wine men and the association The independents have been cutting prices, ad as a result the growers this year received only about one-half what it cost to produce the wine Spellman, while here, purchased 2,600,000 gallons of sweet wine and 1,000,000 gallons of brandy. In the north he will buy from 1,000,000 to 2,000,000 gallons of dry wine

NEW YORK Nov 20 Three suits between the Shuberts, theatrical managers, and David Belasco, aggregating $450,000 in damages claimed, were discontinued at the mutual request of the litigants in the Supreme Court yesterday.

Representatives of the Shuberts and of Belasco said the suits had been hanging on for a long time and were productive of nothing but lawyers' bills. Mutual friends persuaded the opposing parties to declare peace. It was particularly specified that this did not mean an alliance. William Klein, counsel for the Shuberts, and former Judge Dittenhoefer, for Belasco, were in no humor to discuss the matter.

STREET TO TAP NEW DISTRICT

Railroad Commission Grants Permission for Richmond Crossing.

RICHMOND Nov 20 — Permission has been obtained from the Southern Pacific railroad company and the state railroad commission for a street crossing over the belt railroad tracks in the factory section at the northern part of the city that will give that section another thoroughfare leading directly to the northern portion of Richmond. The crossing has been made between the Western Pipe and Steel Works and the Pacific Sanitary Manufacturing company's plant.

By this permission obtained by George S Wall Filbert street one of the prominent thoroughfares of Wall's second addition in this part of the city has been opened into the addition. This street is sixty feet in width and finely improved. Opening it into the tract will entail expense which will be borne by Wall but it will be of great benefit to the addition which is looked upon because of its location in this industrial section of the city, as one of the finest in Richmond.

There are factories all around Wall's second addition and it will doubtless become one of the active centers of business and residence as the city grows. The Southern Pacific loop when completed will pas through it and the Sixth street trolley line will be extended to it. Wall is putting in magnificent streets and investors in the tract are greatly pleased with the property. The sales have been rapid and numerous.

Unless there are good and sufficient reasons given between now and Friday morning there will be two executions at San Quentin prison, the condemned men being Willie Luis and Alex Szafscar.

Willie Luis is the Chinese who killed his father's American-Chinese wife at San Luis Obispo in 1910 because she had taken the place of his mother who lives in China.

Szafscar murdered his divorced wife in San Francisco in May, 1912.

WHO IS 'MISS OAKLAND?' SECRET IS WELL KEPT

MISS ALISON STONE SELECTED TO FILL THE ROLE OF SAN-LU IN JAPPYLAND —Bushnell Photo

It is a long time since Oakland society has been given a more interesting problem to solve than the identity of the mysterious Miss Oakland who is credited with one of the leading roles in Jappyland the stupendous extravaganza which will be produced next month at the Macdonough theater for the benefit of the Children's Hospital project. Over the tea tables they are gossiping and the buds and matrons are equally anxious to learn the identity of the "girl in the pink mask" as she is generally referred to.

Persistent efforts to solve the riddle have met with discouraging failure, and the old saying that a woman cannot keep a secret has thus far been disproved. Rumors that the fair stranger engaged to fill the difficult role of O Hana San was a well-known actress imported for the occasion led to the announcement by Edward H Coats today that "Miss Oakland" was one of the best known and most popular belles of the season and a member of one of the city's first families. The secret is to be kept if possible until the night of the first production December 13.

Gradually the big cast of 400 people is being selected. One of the latest announcements is that Miss Allison Stone daughter of Mr and Mrs Edgar Stone will head the "Tuneful Ten" pagoda maids as San Lu queen of the pagoda. This is expected to be one of the most effective specialties of the production. The pagoda maids represent the sacred vestal virgins of Japan who worship at the inner shrine and are regarded at court with special favor. During the rendition of the "Dream of the Pagoda Maids" the "Tuneful Ten" appear in kimonos of exquisite design and chant the dreamy Oriental lullaby to the accompaniment of distant pagoda chimes. The result is said to be very effective.

Mrs Edgar Stone mother of Miss Alison Stone, and a well-known society matron is acting as chaperone in this number for the following ten debutantes: Helen Audigred Faith Cushman, Helen Carlton, Pauline Chamberlain Ruth Kroll Edna Aiken, Madeline Ross, Lucia Smith, Ruth Vincent and Dorothy Wishart.

COUNTY GOVERNMENT PLAN IS EXPLAINED

Mark L. Requa and Dr. David Barrows Speak at Berkeley

BERKELEY Nov 20—Before the City Club at its monthly meeting at the Hotel Shattuck last evening Professor David P Barrows of the University of California outlined a scheme of county government for the bay shore communities which aroused much interest and Mark L Requa, president of the Alameda County Tax Association the chief speaker of the evening spoke on "The Alameda County Charter" explaining the plan for saving in the conduct of county affairs.

The meeting was under the supervision of the committee on county charters including Professor T H Reed Supervisor Fred W Foss and F W Bearby.

Dr Barrows proposed a common county council with at least 100 members or one for each 10 000 inhabitants. This council would choose a commission of seven or so members to administer affairs.

"This body" he explained "would not directly administer ... It would choose a salaried commission of, say seven members to whom would be confided the county administration together with minor ordinance power. The council would meet to debate upon large policies and for the control of the commissioners activities. The commission would prepare the annual budget and all propositions involving the exercise of the taxing power. The council could amend these budgets and accept or reject the financial proposals of the commission. Broad county policies would be settled by the council. All details would be handled by the commission. The commission, either as a body or through its appointed head would appoint all subordinate officials from civil service eligibles. Such a government in some degree would be modeled upon successful continental administrative experience, and should not fail to succeed because of inherent imperfections in its general plan. In fact, I believe that such a combined council and commission would furnish us in America a new and needed model for local administration."

Dr Barrows defends his plan on two broad grounds. One is that there must soon be a realignment of county boundaries in California.

"Counties" he argued, "are artificial areas, local sentiment seldom attaches to them. They should be framed on the basis of economy and convenience. The rural portions of the counties affected would in certain ways gain by being detached from the urban regions which overshadow and outvote them. County ... in this state present many anomalies. They ought to be reorganized. The process could well be inaugurated here around the bay."

In this connection he explained that after the great bay county had been formed the remaining portions of Alameda Marin and San Mateo counties would easily consolidate with Contra Costa Santa Clara and Sonoma, making a more equitable and reasonable organization of counties than at present.

Dr Barrows other defense of his plan is more local. It is that the isolated bay shore cities are now unable to provide for their citizens adequate protection against fire crime and disease, or adequate service in public utilities.

ORDINANCE SETS NEW WAGE SCALE

Law Reorganizing Electrical Department Is Passed to Print.

An ordinance over which there has been considerable controversy, reorganizing the city electrical department was passed to print by the city council and will be given final passage next week. The ordinance was passed on the motion of Commissioner of Public Health and Safety Fred C Turner after being recommended by the civil service commission.

The bone of contention in the ordinance was the schedule of salaries to be paid electrical inspectors. These men formerly received $150 a month out of which they furnished their own expenses. The civil service board in its first draft of reorganization cut this to $125 a month and provided the men with transportation.

Protest was made, and after lengthy consideration of the matter the civil service board concluded that an error had been made in classifying the inspectors as journeymen electrician, and that they should be considered of the same standing as foremen. The salary schedule was raised to the union rate of $140 a month and the ordinance has been passed to print on that basis. This is the only change from the original draft.

FAVORS CHARTER CHANGE AFFECTING WATERFRONT

Commissioner Anderson Objects to Factory Site Auction Bids

Two amendments to the city charter which he deemed necessary before Oakland could ... the full measure of benefit in her waterfront development were outlined at noon today by Commissioner of Public Works Harry S Anderson who appeared as the luncheon guest of the Oakland Real Estate Association.

Anderson gave a comprehensive review of the municipal activities under his jurisdiction and undertook to explain the apparent delay in the fulfillment of the western waterfront scheme.

He declared that the following changes in the charter would be necessary. First, the provisions which deal with the limitations on waterfront franchises, and secondly that which provides for the leasing of public lands by auction.

CAN'T QUOTE TERMS

"The charter at present provides," said the commissioner "that our factory sites on the Oakland waterfront must be leased through auction to the highest bidder. We are therefore unable to quote terms to any prospective manufacturer and in the event that he is the only bidder at the auction we have only the choice of accepting or rejecting his bid. The other day a manufacturer came to me and tried to get some terms on a 300-foot tract of land near the Livingston street wharf. When he heard that a limit of fifteen years had been placed on all franchise leases he remarked that if he invested $100 000 there he would have to get one-sixth of it back every year in order to come out even. I finally induced him to wait until I could advertise the property and put it up at auction. He was the only bidder and his bid amounted to about $50 per year for the entire property, or 25 cents per foot.

"Of course I rejected the bid—what else could I do? But this illustrates the difficulty of not having a fixed rental for all city property so that it can be listed by the real estate men and the Chamber of Commerce and definite proposals made to prospective factory builders.

FAVORS CHARTER CHANGE.

"I believe also that the clause in the charter which provides that no franchise can be granted to any shipper within 700 feet of any other shipper doing business over the same quay wall should be changed as we have already found that it is liable to prevent our securing some of the largest ofthe steamship companies."

Anderson described at length the situation preceding the actual commencement of work on the waterfront projects.

"In June 1907, he said "Oakland voted the sum of $2 575 000 apportioned as follows. For a concrete pier at the foot of Livingston street $175 000 $817 000 for the purchase of waterfront lands as factory sites $503 000 for work in the Key Route basin and the balance to be used for the construction of a sea wall from Myrtle street to Broadway."

Anderson said that the Livingston pier had been completed for $25 000 less than the appropriation and that it was the finest work of its kind in the country.

EXPECT REVENUE SOON.

"We are now building a connecting link," he explained, "between the trackage on Livingston pier and the spur track of the Southern Pacific and the people of East Oakland have pledged themselves to utilize this pier as soon as this connecting link is completed, which will be about two months. The city will then begin to receive revenue from that direction."

Referring to the western waterfront developments Anderson described the magnitude of the undertaking told of the amount of money and material that had thus far been used and declared that within a few months the coastwise steamers and the river steamers would be able to dock at two apron wharves at the extension of Fourteenth street and the levee. A 20-foot roadway out Fourteenth street to the wharves will be accessible in a few days, and bids will be asked this week for the construction of an 800-foot warehouse on Apron Wharf No 1 so equipped with electrical cranes that material can be transferred directly from sail to steamer and vice versa.

PLANS FREE MARKET

"It is the intention of this department to inaugurate, continued the commissioner "a free market on these wharves where the produce men and hucksters can handle their wares as a sort of clearing house."

Anderson declared that he had heard that the Santa Fe Railroad had arranged to utilize spur tracks of the Key Route system so that the Santa Fe would connect at one end of the city's belt line railroad running along the levee and the Southern Pacific would connect with the other.

The various block systems which it is proposed to use on the 2000 acres of filled in land behind the sea wall were outlined by Anderson each scheme calling for 120 factory sites in blocks 150 by 400 so arranged that spur tracks can be run down alternating streets leaving the open streets free to wagon traffic.

A 60 foot strip along the entire frontage of the sea wall is to be reserved for landscape gardening effect an entirely original idea which brought applause from Anderson's hearers.

MORE MONEY NEEDED

Anderson intimated broadly that further appropriations would have to be secured by the city of Oakland for ... the money already on hand provides for the belt line railway and the sea wall work.

In regard to the southern sea wall work along the estuary Anderson described the plans in detail estimating the cost of the wall complete at $ 85 000. He said that the city would make no attempt to complete that portion of the wall between Clay street and Broadway until the condemnation suits brought against the ... property had been ...

The balance of the work is being done in fine shape according to Anderson by the new contractors the Healy Tibbitts Construction company.

In regard to the new schools the commissioner declared that contracts had been let for six schools and that the city had thus far saved $28 000 of the amount appropriated for those schools.

The Auditorium Anderson promised would be ready for a Native Sons big dance in September next year.

The real estate men seemed satisfied with Anderson's statement and he was given a vote of thanks by the fifty dealers present. The assistance of the association in procuring the desired changes to the charter was pledged.

STATE IS NOT LIABLE, OPINION

Decision Handed Down by the Supreme Court on Employer's Liability.

SAN FRANCISCO Nov 20—That the state of california and the various counties and municipalities are responsible only in the same degree as are other employers toward their employes was decided by the Supreme Court in an opinion rendered this afternoon. The suit was brought against the Industrial Accident Board by Fred Miller a state employe who had been injured in the performance of his duties. The suit was prosecuted by Attorney Sapiro.

The point at issue was whether the municipality and the various political units of the state came automatically under the compensation provision of the employers' liability law. The law is divided into two parts. One provides that an employe may sue the company when he can prove that his injury was caused by his employer's negligence. The second is the agreement on the part of the employer to compensate the employe during the illness caused by injury paying him a portion of his salary and his hospital expenses. This section does not allow the employe who agrees to the arrangement to sue but gives him the remedy even though the accident be his own fault.

It was contended in Miller's case that the state of California automatically was held liable under the compensation act. The court decided today that as there was no agreement whereby the state had come under the provisions of that section, it was not liable.

RIGHT HAND AT WOMAN'S THROAT

Witness Tells of Seeing the Lawyer Grasp Mrs. Szabo in Boat.

GOSHEN N Y Nov 20—"I saw Gibson seize Mrs Szabo around the neck with his left arm. I saw his right hand thrust at her throat, then they both fell out of the boat."

John Minturn eye witness of the death of Mrs Rosa Menschink Szabo for whose death on Greenwood lake Burton W Gibson of New York, her lawyer is charged with murder, so testified at Gibson's trial today. His testimony was introduced to bear out the state's contention that Mrs. Szabo was strangled by Gibson and did not die of drowning.

"Gibson and his companion were standing back to back in the center of the boat" Minturn said. "Gibson wheeled as they were passing and seized Mrs Szabo, they struggled for a moment, the boat rocked and they fell out, the woman first, the man afterward.

"When they were in the water presently the woman was lost sight of. The man then swam over to the boat, put his arm over it and turned it over. The boat remained right side up when they fell out and stayed in that position until Gibson toppled it over."

Minturn was standing at the water's edge he said when he saw the tragedy. The boat was about 100 yards away. He was afraid he would forget he added so he went home and wrote down what he saw.

PLAN TO ABOLISH PLEDGING 'EVIL'

Changes in Fraternity Administration Discussed at U. of C.

UNIVERSITY OF CALIFORNIA, Nov. 20.—Various changes in fraternity administration were considered at a council of representatives of the Greek letter societies, held on the campus this afternoon. The report of the interfraternity committee was considered, and announcement was promised later of the results achieved. Efforts to raise the standard of fraternity scholarship and to do away with evils of "pledging" were the reasons for the meeting, which was held with Professor O. M. Washburn, dean of the lower division.

A number of drastic reforms are scheduled. One is the publication in January of the fall records for scholarship of each fraternity and clubhouse, these to be circulated among the members thereof only. The abolition of high school "pledging," which secures new members for fraternities among preparatory schoolboys, was also recommended.

The interfraternity committee, which submitted the suggestions, is as follows: C. M. Torrey, chairman, Ernest G. Clewe, Lyman Grimes, J. L. Sampson and R. G. Sproul.

SEEK PRETTY WOMEN FOR POLICE IN CHICAGO

CHICAGO, Nov. 20.—"We need more pretty women juvenile officers," said Municipal Judge Newcomer yesterday when Miss Carolyn Grimsby, a juvenile court attache, led Patrick Gorman, a switchman, 6 feet tall and weighing more than 200 pounds, into court.

"Did you arrest this man?" asked the court.

"Well, I—he consented to come with with me," Miss Grimsby replied, blushing.

"It appears that pretty women juvenile officers have more influence with delinquent husbands than husky policemen," said the judge.

Gorman was fined $35 and costs for disorderly conduct.

BANDIT ESCAPES.

SAN FRANCISCO, Nov. 20.—The holdup man who robbed Frank Smith, a San Leandro milkman, on Callan avenue yesterday morning, is still at large. Constable Borge and Marshal Peralta are hoping of effecting an arrest before long.

I Asked the Judge

"What is the cause of the ever increasing number of divorces?"

He answered: "Too many men, and women, too, seek their pastimes and pleasures outside of their own homes. If something could be done to make their own firesides more interesting, more pleasure-giving, there would be fewer domestic failures."

He might have added that music in the home would be a big influence for good. The BUNGALOW PLAYER-PIANO insures the happiness and contentment of every home from the day it's installed. There is no real home without music.

CHINESE GIRL IS GIVEN TO FATHER

Miss Carrie Davis Loses Fight for Little Helen Lau.

After an extensive battle in the courts of San Francisco and Alameda counties, little Helen Lau, a Chinese girl over whom Miss Carrie Davis sought to obtain guardianship, alleging that she was being mistreated by her purported parents, was given back to the custody of Lew Hin Dock, or Lew Chong, yesterday afternoon by Superior Judge Ogden. The court held that testimony had not shown that the girl was being mistreated or that she was not the daughter of the Chinese couple who claimed her.

The girl was taken from a West Oakland cannery two months ago and lodged in the Oriental home in San Francisco by Miss Davis. At the time it was claimed that the girl was practically a slave. Helen Lau testified on the witness stand that she had worked willingly and that she saved the money for her own use. She further said that she had received the best of treatment at her home and that she desired to return.

Mrs. Maria Toy, a relative of Lew Chong, testified that she had known the man's first wife in China and also the child. Lew Chong said that he had brought her to this country following the death of her mother and that he had married again. Helen Lau as about 12 years old.

Skirmish Between Guards and Rebels on Mexican Central Road Ends Disastrously.

MEXICO CITY, Nov. 20. — A fight yesterday between rural guards and rebels for the control of a railroad train cost the lives of a lieutenant and three rural guards and two civilian passengers in the vicinity of Penjamo, State of Guanajuato.

The train traveling along the Guadalajara branch of the Mexican Central railroad ran into a bridge from which the rails had been removed and the engine and two cars fell through. A large force of rebels then ran down the hillside toward the wreck, not knowing of the presence of two rural guards in one of the cars. The guards took up positions and held the rebels off. The fight around the wrecked train lasted about an hour, when the rebels retreated to the hills.

INQUEST IS HELD IN METZGER CASE

ALAMEDA, Nov. 20. — The double drowning tragedy of November 3, in which George W. Baker Jr, and Wallace Rosenberg lost their lives, was recalled vividly again this morning, when Coroner C. L. Tisdale held an inquiry at the Alameda branch morgue to inquire into Rosenberg's death. Rosenberg's body was recovered last week and Baker's body the week before. The witnesses today were Gay A. Rosenberg, father of the drowned youth; Albert Mollitor, and Dr. Arthur Hieronymus. There was no fresh evidence regarding the drowning, but [illegible] reward for the recovery of the body. The boy's father said that no formal reward had been advertised, but that friends of his in San Francisco had engaged and paid boat parties to seach for the body of his son and also that of young Baker.

The Rosenberg body was found by Emmett Johnson, but the Johnson boy refused to handle the unrecognizable remains, but reported his find to other searchers. The body was brought ashore in a small boat rowed by Seymour Arada, the body being handled by Alybert Mollitor and Burgess Metzger. The only reward the body handlers will receive is the $5 offered by the county, which Mollitor and Metzger will divide.

The jury's verdict was death from asphyxiation through drowning.

CITY MOVES FOR SALT WATER BATH

Alameda Proposes New Municipal Venture; City Engineer to Give Figures.

ALAMEDA, Nov 20.—That the city of Alameda will at once proceed to establish a municipal bathing pavilion, to be constructed on land at the south end of Park street, near the muicipal electric light works, became apparent at the meeting of the city council last night, when Councilman William Hammond Jr. introduced a resolution instructing City Engineer I. N. Chapman to proceed with rough plans and specifications and the compiling of an estimate of the probable cost of construction.

Hammond, after introducing his resolution, stated that an enormous amount of hot water is going to waste from the municipal plant. This hot water, he said, could be used in tempering the cold bay water to a degree of warmth that would make bathing at all seasons of the year a pleasure. Hammon stated further that in his opinion some of this warm water could be piped and sold to resorts further west.

The proposition of the council will be to issue bonds for the purpose of realizing the necessary money to construct the bathing tank and buildings, the bonds to be retired by the profits of the enterprise. Hammond thought that the matter should be taken up at once. His motion was seconded and carried unanimously, and the City Engineer was instructed to take the matter up with the department of electricity and prepere the estimate of expense.

Council President E. B. Bullock introduced a resolution looking to the acquisition of the tide lands surrounding the island by the municipality. His resolution included the appointment of a committee to take up the legal phases of the prposition, and the preparation of an act to be introduced at the next legislature. On the committee Mayor Noy appointed the harbor commission, the public utilities commission, the city attorney and Councilman Bullock.

The appointment of J. H. Dockweiler to represent Alameda in the investigation before the department as to the interior on the acquiring of the Hetch Hetchy valley for a water system was approved.

HEIRS ORDERED PAID.

The heirs of late Fire Chief Fred K. Krauth were ordered paid $1000, in accordance with a provision of the State law, and the money was ordered transferred from the general fund to the special pension fund.

Permission for the city to use a strip of land west of Willow station for the purposes of beautification was granted by H. A. Bowen and accepted with htanks.

A complaint lodged against the owners of premises at 1825 Willow street was to the effect that a stable refuse box is allowed to remain uncovered and is a nuisance in the neighborhood. The complaint was referred to the board of health.

An ordinance providing for the recodification of the existing city ordinances and the repeal of those that have become useless was passed.

The city attorney was instructed to look into the legality of securing a site for the pound outside of the city limits.

The park and playground commission was instructed to expend $75 on the repair of a tank in McKinley Park, and failing to be able to repair it for this sum to purchase a new one at a cost not to exceed $175.

Councilman E. J. Probst reported the wells and tanks in Lincoln and Washington parks in good working order. He also stated that the electric light works is planning a new well for its own use, which allows the well in Jackson park to be used for park purposes again.

Alfred (Baron) Laroteau offered a collection of stuffed birds to the city. The Baron also said he would like to sell a carriage that Napoleon rode in. He said he would make cut rates on the vehicle, and that if the city did not want it he would sell it to the Panama-Pacific Exposition committee.

PATHETIC INQUEST HELD IN ALAMEDA

Paralyzed Husband Tells by Nods of Asphyxiation of Wife.

ALAMEDA, Nov. 20.—An unusually pathetic coroner's inquest was held at the Alameda branch morgue this morning to inquire into the death of Mrs. Kate Mason of 2415 Eagle avenue, who died last week, several days after being found unconscious in a gas-filled sleeping room. The chief witness was H. L. Mason, husband of the dead woman, a hopeless paralytic hardly able to walk and unable to talk. He can hear quite readily, and gave his testimony by nodding his head in affirmative or negative answers to questions of the coroner. Such questions as could not be answered by head nods were answered in writing, the witness managing to write after considerable apparently painful effort.

The Masons boarded with Mrs. Marie Hammar. Mrs. Mason was an invalid and occupied a separate bedroom. She kept a night light burning in her room. With the window open, a night breeze extinguished the low-burning gas jet and filled the room with deadly monoxide, while Mrs. Mason slept on undisturbed. She was found unconscious the next day. Dr. J. A. Riley worked for several hours to restore the unconscious woman. She lingered for nearly a week and then died. The couple have no children. The verdict was death from gas asphyxiation.

Several hundred bids have been sent out and invitations extended to the members of Companies A and F of the National Guard, Battery B and other military organizations to be present at the sixteenth annual ball to be given Friday evening at Maple Hall by the members of Company N of St. Mary's parish, First Regiment, League of the Cross Cadets.

The committee in charge is working on an original scheme for hall decoration which will consist of cut flowers and ferns. The regimental and national colors will also be used for decoration purposes. Affairs of this kind given in the past have been very successful, and from reports received by those in charge it appears that this year's dance will be the greatest success in the history of the company. William Backstedt's orchestra has been secured for the evening.

The grand march will form at 9 o'clock, and the full complement of staff officers from San Francisco will be in line. Miss May Olson will be among the many guests present.

SAILOR IS ARRESTED ON ROBBERY CHARGE

SAN FRANCISCO, Nov. 20. — John Moritz, a stevedore of 171 Fourth street was held up on the waterfront this morning by two men, who grabbed him by the throat and relieved him of $2. He reported the crime at the Harbor Station and two officers were sent out with him to search the neighborhood. In a billiard parlor at 170 Embarcadero, he pointed out Henry Wese, whom he identified as one of the thugs. Wese is a sailor and he was taken to the city prison and charged with robbery.

KNOWLAND BETTER REPORTS FAMILY

Sick Congressman Improves; Hundreds of Friends Feel Encouragement.

ALAMEDA, Nov. 20. — Congressman Joseph R. Knowland, who is ill at his home here, passed a comfortable night and is reported in an improved condition today. He is still unable to sit up and all visitors are denied admittance, but his family announce an improvement in his condition, which is welcome news to the congressman's friends of friends.

Those who have known of his actual condition have been gravely concerned over his illness. It was reported from his home today that he would be kept in bed for several days to come but there was a hopeful note in the reply that he showed a general improvement.

The congressman will be a busy man when he is able to resume business affairs again for he not only has his preparations to make for an early departure for Washington for the short session of Congress, but has much business to look after regarding the large estate left by his father.

Well informed parties express the opinion that the estate will total close to a million dollars, perhaps more. The elder Knowland was a successful business man. Though liberal in his expenditures he always had sound, safe reasons for a foundation for investments.

As a consequence his fortune steadily grew from modest proportions to commanding figures. Presumably no move will be made to probate the will until Congressman Knowland is able to superintend all movements in the estate proceedings.

The congressman was a fellow director and stockholder in most of the big concerns his father was heavily interested in and has already a very thorough and intelligent idea regarding the parent's estate and the proper steps to take to best conserve the estate.

The funeral will be held Friday afternoon, at 2 o'clock, from his late residence, 1524 Morton street. Cremation will follow.

A PLEASANT break in the unprecedented list of bridge parties will be a dance which Mrs. Percie Black and Mrs. Joseph Kelley will give this Saturday night at "The Ferns," and which is being pleasantly anticipated. About fifty bay city folk have been bidden.

It is planned to make the dance unusually attractive, informality being the keynote of the affair. A supper will add to the evening's enjoyment.

Both hostesses have a wide friendship circle in this city. Mrs. Kelley resides at the St. Mark Hotel, and frequently entertains various groups of friends, preferring this form of entertainment to large formal functions.

Society will be given another opportunity to enjoy its favorite pastime when Mrs. Bertrand J. York will give two smart bridge parties at her attractive home in Piedmont Heights, the scene of much hospitality on the afternoons of December 5 and 6.

Mrs. York will entertain two score of friends at the first affair and about forty have been asked for the second function. Mrs. Louis P. Mead, sister of the hostess, will visit Mrs. York next month, coming from her home in Byron Springs. She will greet her friends at her sister's entertainments.

AFFAIRS AT COUNTRY CLUB.

Half a hundred guests enjoyed the afternoon. Miss Hall is a delightful hostess and possesses much personal charm.

ORIENTAL AFFAIRS.

From now until December 13 society affairs are expected generally to take on an Oriental flavor. Japanese teas, with kimono and chrysanthemum accessories, will be quite the proper thing, while a number of residences have Japanese lanterns hung over the regulation incandescent. All this is in honor of the Children's Hospital and "Jappyland." So many society matrons and debutantes have learned the dreamy Oriental songs since rehearsals that the mode of entertainment at all evening affairs inevitably turns sooner or later to one of the hits of "Jappyland." It is a long time since anything created such a furore.

WOMEN IN THE NEWS

10,000 WOMEN TO BE IN AMAZON GUARD FOR WILSON

Inaugural Parade to Be Unique in History of United States.

WASHINGTON, Nov. 20.—For the first time in the history of the United States, marching women will form a large section of the inaugural parade next March. Woodrow Wilson, on his way to take the oath of office, will be accompanied by an Amazonian bodyguard of suffragettes. The Suffrage Association of the District of Columbia has voted to request the inaugural committee to give the women a place in the parade and the women have received private assurance from several sources that their request will be granted.

Ten thousand women, they estimate, will answer the appeal, and the capital city will be the objective point of a veritable army of suffragists. Many of them will be women who actually cast a vote for Woodrow Wilson for President in the states which have granted suffrage.

A general call for volunteer marchers will be put before the national convention of suffragists which will begin in Philadelphia Thursday. The responses from the women who have been broached on the subject indicate that the project is being received with much enthusiasm.

Derides Love Balm

NEW YORK, Nov. 20.—That Blossom Seeley, vaudeville actress, never loved her husband and therefore had no affection for him which might be alienated, was the assertion made yesterday by "Rube" Marquard, Giant pitcher, in his answer to a $50,000 suit filed against him by Joseph Cahen, also known as Joe Kane, husband of the actress.

Blossom, Marquard says, "never manifested any love or affection for her husband and they never lived peacefully, harmoniously and happily as husband and wife."

Marquard denies that he exerted any influence over the actress and denies all the other charges of Kane.

Aerial Lochinvar

PORTLAND, Nov. 20.—In the person of Silar Christofferson, most daring of aviators whose latest achievement was to dash into a Pacific ocean gale to the tragic wreck of the schooner Osprey, became an aerial Lochinvar yesterday.

At 3 o'clock in the afternoon he married Mrs. Emma Becker, a beautiful Portland woman, and bore her away in his hydroplane up the Columbia river to a quiet springs resort fifty miles distant.

The Rev. W. A. Breck performed the ceremony at the Hotel Portland.

"Afraid? Well, I guess not," said the new Mrs. Christofferson.

Mrs. Christofferson has been married three times before.

Infanta Is Author

LONDON, Nov. 20.—Infanta Eulalia, aunt of King Alfonso, is about to publish a volume entitled "For Women."

A former book by the Princess, "The Thread of Life," was published in defiance of the King, who telegraphed to his aunt requeseting her to withdraw it. The Infanta declined to comply and an estrangement followed.

"Beauty," says the author, in her new book, "is the highest human symbol. Women should be beautiful. Nothing is more painful and depressing than an ugly woman's face. A beautiful face inspires joy and stimulates and ennobles human effort. The woman on whom her tired husband cannot rest his eyes with joy, whose children take no pleasure in looking at her, who does not beautify her home, misses the real, essential role of woman—to be the center of harmony. Many errors are pardoned in the beautiful woman because she embellishes the world on which she confers a favor by the effect of her presence."

Bride of American

LONDON, Nov. 20.—Great interest was taken in the marriage yesterday of Charles Wilkins Short Jr., whose family comes from Cincinnati, O., and the Countess Camilla Hoyes, at Holy Trinity Church, Sloane street, as it was one of the very few instances in which an American man has married a titled foreigner.

A gathering at the church comprised many people prominent in society and included the Austro-Hungarian Ambassador, Count Albert Monsdorff-Pouilly-Dietrichstein.

Countess Hoyes, the mother of the bride, subsequently held a reception at the residence of her brother, Sir James Beethom Whitehead. Mr. Short resides in Boston.

Belle of Old Dies

LOUISVILLE, Ky., Nov. 20.—Miss Nannie Mason, 75 years old, daughter of Richard Barnes Mason, first governor of California, and a stepdaughter of General Don Carlos Buell, died here yesterday. A belle of international fame years ago, she had been an inmate of the Sisters of Mercy Home for four years.

THE USE OF POWDER

By LILLIAN RUSSELL

Copyright, 1912, by Lillian Russell.

LILLIAN RUSSELL.
Copyright Photo by Schloss, N. Y.

AS an adjunct to the toilet, a necessity in the nursery and a luxury in the bathroom, pure powders are essential. There are prudish women who declare that they never put powder on their faces, but they do put powder on the innocent bodies of their infants. The proper use of powder is as necessary as the use of veils for the protection of the skin. I do not means that powder should be plastered onto the skin to whiten it, but every woman requires just a little dust of pure powder on her face after washing it, just as her husband or minister uses it after shaving, as a protection. There should be no prejudice against such a habit. Who likes to see a red shiny nose on a plain or beautiful face? Children do not require powder on their faces for the reason that their little fresh faces rarely or never become shiny. It is the quantity and quality of food we eat and the exposure to the elements that causes the faces of grown persons to become shiny.

Every mother knows how essential it is in the care of infants. Its use might with propriety be extended. Many a woman would be improved if she were to dust some fine rice powder over her entire body after every bath—and it should be kept for that purpose in a fine gauze bag or large dish, with a generous sized powder puff, in her bathroom. But everything depends on having a powder which will itself be perfectly innoxious—a simple, pure article that can be made at home either for body use or for the face, to lend a hue to the surface which nature has withheld or taken back. A powder that I have used for years and found very efficacious is made of arrow root—the same that is used for baby food. To the arrowroot should be added just enough lycopodium to give it a creamy tint when mixed together. A few drops of some perfume, any one that you prefer, may be dropped into the mixture and then the whole should be sifted through bolting cloth which you can buy at the drug or department store. The more the powder is sifted the finer it will become. In using the powder a bit of cotton should be used in preference to a puff, for the cotton can be thrown away after using and a fresh, perfectly clean morsel used each time powder is necessary, while a puff may gather dust and microbes.

Many powders are made of rice flour, finely ground and scented to the taste. Rice is perfectly pure and harmless as is French chalk—this, in fact, is not chalk at all, but a fine variety of soapstone obtained at Briancone, a village in the French Alps; also in our own North Carolina. It does not injure the skin in the least, nor does it lose its color by secretions of the body nor by exposure to cold gases or sunlight, which cannot be said of some powders that are on the market today. Talcum powders are made of talc, which is harmless, as also is magnesia, but they are neither of them as delicate and wholesome as rice and arrowroot.

The powders that should be avoided are made of bismuth or zinc. I have seen a beautiful complexion made yellow, dry and wrinkled by the use of bismuth. It is generally called pearl powder by druggists. Several forms of the mineral are used in powders and liquids for whitening the skin, but they are both injurious and unsafe. Being a mineral, bismuth is subject to changes by contact with sulphurous gases, and as many houses are equipped with coal fires and gas pipes, a fair woman may enter a room with a white pearly skin, and in a few minutes turn to a gray, violet or blue shade. Zinc is healing in grease form, but as a powder is dangerous. There is a whitening used by some, made from carbonate of lead or flake white, which if used will destroy both beauty and health. So be careful to use what you know to be pure as an outside application as well as for internal comfort. Remember, the perfection of art is to achieve an absolute resemblance to nature at her best, not to surpass her or fall behind her.

BETTY G.—The removal of moles is a serious matter. They can be taken away by means of the electric needle or they can be cut out. In any case, no matter what the mark or blemish on the face may be, do not treat it rashly or allow anyone to touch it who is not skilled in such matters, for it often happens that in trying to remedy them a greater disfigurement is made. Especially should this be borne in mind in trying to remove any imperfection about the eyes and in the upper portion of the cheeks, for the skin is exceedingly tender in those regions, much more sensitive than in any other part of the face. Acids are used to remove moles and moth patches. They have to be sufficiently strong to accomplish the work and the applications should be made with such care that the acid is only applied to the place itself and does not run over upon the healthy skin. I do not recommend the use of these acids by one unaccustomed to them. It is much better that they be applied by those who are skilled and trained to the work.

Miss F.—Blackheads are sometimes caused from indigestion or anaemia, but frequently are due to neglect. They can easily be removed without much trouble, and without leaving a scar. Each night before retiring cleanse the face with a good cold cream, rubbing it well into the pores and allowing it to stay on about ten or fifteen minutes, then take what is left off with a soft cloth. Wash the face with warm water, not hot, and plenty of pure good soap. Castile usually agrees with a thin, sensitive skin, using a camel's-hair complexion, brush so as to get all of the dirt out of the pores. Rinse the face thoroughly with warm water, using cold artenately, using the cold last. This closes the pores and hardens the flesh. Give the above treatment a fair trial and I am sure you will see a vast difference in your complexion. I shall be happy to send you the formula for cold cream if you will send me a stamped addressed envelope.

VIOLA—Housework of any kind will spoil the hands unless they are protected. When the hands are in water rubber gloves should be worn, and when doing light housework, such as dusting, old loose-fitting kid or cloth gloves should be worn. If you will write me again, inclosing a stamped, addressed envelope, I shall be glad to send you formula for glove paste which will make the hands soft and white.

CLARA—I have never heard of peroxide being good for dandruff. If used on the scalp it will bleach the hair. There is nothing that will restore your hair to its natural color but a dye, and I do not advise you to dye your hair. Perhaps in time as it grows the roots will come in dark, and your hair will gradually regain its original color.

BLUE BONNETT—Fresh buttermilk is an excellent mild bleach for freckles. Use it just as you would water, allowing it to dry on the face. Give this a fair trial and then if the freckles will not come off send me a stamped, addressed envelope and I shall be glad to send you a stronger bleach. Pull the stray hairs in your eyebrows out and then apply a bit of ammonia to the place where the hairs have been pulled out. Brush the eyebrows each day with a small brush. If they wont stay down, apply a bit of vaseline, almond or olive oil to them to keep them down.

UNION OFFICIALS OPENLY ACCUSED IN COURT

LOS ANGELES DYNAMITER PLANNED TO KILL SHOUP

Declares He Would Keep Up Salaries With the Aid of Bomb

LOS ANGELES, Nov. 20.—Strapped to a cot in the Receiving hospital, Carl Reidelbach, the German patternmaker, who terrorized officers, magistrates and other officials, as well as prisoners and visitors, at the Central police station yesterday, by threatening to destroy the building and its occupants with an infernal machine unless Paul Shoup, president of the Pacific Electric Company, was brought to him, told a weird tale today.

"I did not want to hurt any one about the police station," declared Reidelbach. "All I was after was the head of the Pacific Electric. I did not even know his name was Paul Shoup until after I was arrested. And I did not even want to hurt him. I was merely going to show him my machine and tell him I was going to blow him up unless he raised the wages of his workmen and otherwise improved their condition.

"If he had given me his promise to do as I wanted I would have released him. If he had failed me, later I would have cornered him again and either would have forced him to do as I wanted or would have killed him."

NOTHING AGAINST POLICE.

"I have nothing against the police department. I feared that if I went to Shoup's offices I would be put out before I could see him. I figured that the best way to get him to promise to do what I wanted was to go to the police station and get the officers to co-operate with me in order to save their own lives.

"I had intended to blow them all to pieces at any attempt to thwart me. I was doing my best to save their lives. If they had been killed it would have been no fault of mine. You can't call that murder."

Reidelbach told of having placed his grotesque mask over his face behind a billboard about half a block from the police station. At that place he also adjusted the trigger of the infernal machine, his false fingers, which, like his maimed left hand and his good right one, he had stained red.

WORE FALSE FINGERS.

"I wore false fingers for the same reason that I wore the mask," Warr continued. "I wanted to escape detection. I figured that if the police arrested me later they would release me when they found I had no fingers on my left hand and that the man they were after was believed to have four.

"The machine probably would have exploded before the police could have prevented if I had not used some dynamite to keep powder from the cartridge from running out before the dynamite cap was in place.

"The machine is my own invention. I never heard of one like it. I don't want a description of the thing to get into the newspapers for fear others will steal my idea. One of the finest features of the machine is that instead of pulling the triggers to set the machine off, one has to hold the three triggers to keep it from going off."

FEAR HE HAD ACCOMPLICES.

Reidelbach declared that he was "alone in his plan," but Chief of Police Sebastian has taken all precautions to prevent any possible accomplice from trying to carry out Reidelbach designs or attempting a rescue. He has stationed policemen all around the Receiving hospital.

The would-be dynamiter is believed to have suffered a basal fracture of the skull as the result of the blows dealt him on the head by Detective James Hosick, who, with Detectives J. F. Fitzgerald and Samuel L. Browne, by stunning and disarming Warr, prevented what probably would have been great loss of life and property had the machine exploded.

Reidelbach varied his recital today by begging to be shot and declaring himself both an atheist and a vegetarian. Chief Sebastian said he was of the belief that the man was crazy, but Police Surgeon W. F. Carter said the man did not impress him as being what was ordinarily known as a lunatic.

HE IS MONOMANIAC.

"Reidelbach is possessed with one idea," said Dr. Carter. "He comes under the term 'monomaniac.' His speech is rational, his physical condition good, and there is every indication he is as sane as many persons called 'cranks.' Because his act was insane, it does not necessarily follow he is insane. He is of a morbid turn of mind and undoubtedly would kill himself if given the opportunity."

The police continued today their search of Reidelbach's home and planned to have analysis made of peculiar liquids found there. Chief Sebastian issued a statement commending Detectives Hossick, Fitzgerald and Browne for their bravery in attacking Reidelbach and rushing his infernal machine outside of the police station when the natural expectation was that such an attack meant death to those who attemped it.

Police officials intended to take Reidelbach out to Bloomington, San Bernardino county, to visit the cache where he was supposed to have a store of dynamite, but Police Surgeon Carter refused to allow the man to make the trip on account of his fractured skull.

Reidelbach developed alarming symptoms of skull fracture just before noon. He collapsed and became unconscious, while his eyes swelled and became black. According to police surgeons he is now in danger of death.

Reidelbach was immediately removed from the Emergency hospital to an upstairs cell in the city jail, which had been equipped with a cot. A nurse was in constant attendance upon him.

LIVED IN SALT LAKE.

SALT LAKE CITY, Utah, Nov. 20.—The name of Albert Henry Davis, believed by local officers to be the man who terrorized the Los Angeles police department with an infernal machine, appears on the Salt Lake police record. He was arrested on a charge of petit larceny in 1905. Davis was sentenced to 100 days on the chain gang, but escaped by hiding in the brush and breaking his shackles with a stone.

BIND OAKLAND APARTMENT HOUSES

Organization Effected to Keep Up Minimum Scale of Prices.

Twenty-five of the largest apartment houses in Oakland are reported to have formed a secret organization for the purpose of enforcing a scale of rentals with arbitrary limits for one, two and three-room apartments. Hereafter it will be impossible, by the terms of the agreement, to rent a room in any of the apartment houses which are members of the association, for less than $20 per month, and similar limits have been established below which apartments will not be rented. A sliding scale has been established for the least rental that will be accepted for a two-room apartment and larger accommodations. No limit is fixed as the maximum, the managers being left free to get as much as they can.

A penalty for violating the terms of the agreement has been fixed at $50, with an additional threat of an absolute boycott, it is said.

AGENTS VISIT HOUSES.

News of the formation of such an organization developed when agents last week visited the smaller apartment houses and endeavored to compel them to join in the combination. In several cases refusal to enter the agreement was met with the announcement that all non-members would be boycotted. It is said that the effect of such a boycott has already been noticed by those against whom it is directed.

Public service corporations, laundries, dairies and produce dealers who supply the people living in apartment houses usually rebate to the proprietors of such establishments a certain percentage of the profit. It is now alleged that the Apartment House Association will secure the lion's share of such rebating at the expense of the non-members to whom such concessions will be denied.

OFFICERS' NAMES WITHHELD.

The names of the officers of such organization have been withheld from the articles of agreement and efforts to learn their identity have only met with denials that the association had yet been formed.

Several of the smaller apartment house proprietors, however, admit having seen an agreement, though for obvious reasons they decline to permit their names to be used. It is reported, however, that a counter association of non-members may be formed to carry the case into court on the basis of a suit to dissolve an organization formed in restraint of trade.

BUFFALO PATROLMAN SHOT.

BUFFALO, N. Y., Nov. 20.—Patrolman George Claus was shot and killed shortly before midnight at a street corner of the East Side by gangsters, with whom he had trouble recently.

DR. ELVIRA LEE, PIONEER, IS DEAD

Daughter of the Late Galen Clark Succumbs at Home.

Dr. Elvira M. Lee, 72 years old, daughter of Galen Clark, discoverer of the "Big Tree" grove in the Yosemite valley and for many years guardian of the valley, died yesterday afternoon at her home, 228 Eleventh street. Doctor Lee had been suffering for several weeks with heart trouble, and was confined to her bed.

Doctor Lee was well known here as one of the few women practicing physicians. She was the widow of Dr. George Lee, former physician of Merced. Dr. Elvira Lee had practiced in this city since the fire, before which she practiced in San Francisco. She lived previous to that in Merced.

Doctor Lee came to this state in 1870 from Vermont, of which state she was a native. Her father, Galen Clark, was a well known figure in this state in literary circles up to two years ago, at which time he died. He was known as the author of several works on the valley, the big trees and Indian legends. Mrs. Lee leaves only a sister in the east.

UNIVERSITY EXERCISES HISTORY-MAKING FORMAL DEDICATION AGRICULTURE HALL

1 p. m.—Luncheon at the Shattuck hotel to invited guests.

2 to 5 p. m.—Open house in agriculture hall.

8 p. m. Room 220, agriculture hall; addresses by Dean Thomas Forsyth Hunt, Professor Frederick Rupert Marshall.

UNIVERSITY OF CALIFORNIA, Nov. 20.—Agricultural hall, newest building of the university, was formally dedicated to the service of the agricultural department today with exercises that included the investiture of the new dean, Dr. Thomas Forsythe Hunt, the unveiling of a bust of Professor Emeritus Eugene W. Hilgard, former dean, and the consecration of the new structure itself. The exercises began this morning at Harmon gymnasium and will end this evening with a public meeting in the new structure.

President Benjamin Ide Wheeler and Dean Hunt entertained during the day a number of distinguished visitors and alumni of the university. Among them were Judge Peter Shields of Sacramento, E. P. Clark, editor of the Riverside Daily Press, and Professor Frederick R. Marshall of the university farm at Davis. A number of the regents of the university were also among the guests.

FORMS NUCLEUS.

Agricultural hall was built from the "permanent building fund," which is one-fourth of the state's chief provision for the university. It is intended as the nucleus of a quadrangle of four similar buildings ultimately to be erected. It cost $200,000, is built of white granite, with mission tiled roof, and was designed by Professor John Galen Howard of the department of architecture. It is fireproof, solid and staunch and is expected to be as serviceable 10 centuries from now as it is today.

The dedicatory exercises began this morning at a little before 10 o'clock at Harmon gymnasium, which contained close to a thousand persons assembled to listen to the addresses to be delivered. President Wheeler opened the meeting with an explanation of the purposes of the new building, the need that had existed for it and the subordinate features of the exercises planned for its dedication. Judge Shields and E. P. Clark of Riverside followed him, speaking for their respective portions of California, the state's pride in the achievements of the department of agriculture.

DEAN INVESTED.

The formal investiture of Dean Hunt with the duties of his office was the chief feature of the session. President Wheeler and Dean Hunt faced each other upon the rostrum while the head of the university formally pronounced him dean of the college of agriculture. Dean Hunt replied in part as follows:

"In accepting the responsibility of dean of the college of agriculture and director of the agricultural station it must be recognized that I represent only one of the agencies by which the University of California seeks to develop the commonwealth. The office into which I have just been formally inducted typifies the university's relation to the public welfare. The organization thus represented looks back over a generation of steady and successful development under the guidance of but two directors, both of whom have the unique distinction of remaining as honored members of the faculty. The institution will honor itself during this day's exercises by remembering them with loving kindness.

"Upon behalf of himself and his associates the dean and director appeals to all agencies, public and private, for assistance and guidance. He asks the sympathy and patience of the governor of the state, the president of the university, the board of regents, faculty and citizens of California, while following in the sane, safe and sensible policies of his predecessors, he unobtrusively and without undue publicity endeavors to organize the best and most efficient faculty of agriculture that has ever been known."

DEDICATE BUILDING.

Following the investiture the president, faculty, invited guests, alumni and students proceeded in that order in academic procession to the steps of the new building where the exercises of dedication were held. The procession was headed by the university cadet band.

In front of the new building Dr. Eugene Woldemar Hilgard, professor emeritus of agriculture and former dean, delivered an address on "The Evolution of the Agriculture College." Having traced the history of agricultural education in the United States and his own work prior to coming to California, Professor Hilgard sketched the rise of the department at the University of California. He spoke of agriculture as "one of the fundamental units of the institution" and of its struggles to realize this position during succeeding years.

He spoke of the opposition of the farming interests to the university a few decades ago and of the efforts to separate from it the courses in agriculture. The discussion with farmers themselves of their problems he began in 1875. Continued efforts to prove to them the potential value of the university finally succeeded in aligning them solidly behind it, he said, until the unanimity of opinion that prevails today was achieved.

One of the most impressive portions of the morning's program was the unveiling of a bust of Professor Hilgard presented to the university by the Agriculture club. Russell Ray Ingalls, president of the club, made the address of presentation to an audience gathered in the foyer of the building and President Wheeler the address of acceptance. In a witty speech in which he based the difficulties of the occasion upon the paradox of unveiling "a bust in the presence of the party who has been busted," Professor Wickson withdrew the cover of the bronze.

FAME WILL LIVE.

Continuing he said:

"We unveil then this effigy of Hilgard not as a memorial of him for he needs none. His fame will live without such a token. His life is written in his work, and that cannot be forgotten. What purpose then does this bronze serve? It is an enduring record of our appreciation of Hilgard, a monument to our own insight and sagacity. We do not propose to have [illegible] century write in his books 'There was at the beginning of the twentieth century a man in California named Hilgard whose life and work are in the foundation of America's contribution to agricultural sciences, but his associates did not recognize his greatness.' And so we throw this bronze into the face of the future and we cry aloud to coming generations: 'This is our Hilgard, he looks mighty good to us, it will bother you some to produce a better man.'"

PRESIDENT HOST.

At 1 o'clock this afternoon President Wheeler was host at a luncheon at the Hotel Shattuck to the invited guests of the day. Covers were laid in the banquet room of the hotel for 100 diners.

Following the luncheon the doors of [illegible] hall were [illegible] the general public for a reception which was to last until 5 o'clock. Students in the department of agriculture acted as escorts for the many who visited the building.

This evening the exercises of dedication will close with a public meeting in the assembly hall of the structure. Dean Hunt is to speak on "The Motive of the College of Agriculture of the University of California." The second address of the evening will be delivered by Professor Frederick Rupert Marshall of the department of animal industries at the state farm at Davis.

Governor Johnson was unable to be present and take part in the program. He sent his regrets.

WITNESS SAYS RYAN WAS INVOLVED

Declares Officials Were Present When Dynamite Jobs Were Discussed.

Hockin Wanted Place on the Executive Board; Is Statement of Dugan.

INDIANAPOLIS, Nov. 20.—Eleven officers of the International Association of Bridge and Structural Iron Workers were accused by Patrick J. Dugan at the "dynamite conspiracy" trial today of having been present when blowing up of non-union jobs was discussed.

Dugan, former treasurer of a local union, testified that shortly after a building in Detroit was dynamited in June, 1908, the union officials held a caucus over the election of officers. At that time, the witness said, Herbert Hockin announced he had lost his position on account of having induced Ortie E. McManigal to blow up the Detroit job.

"Hockin said because of this he ought to be given a place on the executive board," said Dugan. "He said he was going to make his campaign for office on the strength of the Detroit job."

SAYS RYAN WAS PRESENT.

Dugan said President Frank M. Ryan and 10 other officers were present. Dugan testified an Indianapolis local union had destroyed a non-union job for $25 and when it was learned that the international union was payig $200 for each job blown up complaint was made to J. J. McNamara.

"McNamara replied people were learning too much about explosions," said Dugan. "He said District Attorney Jerome in New York had learned the iron workers' union was behind the dynamiting jobs in the east and they would have to be careful."

While J. J. McNamara was in jail in Los Angeles and before he pleaded guilty an effort was made by iron workers in Indianapolis to buy certain papers, testified Mrs. Mary E. Carroll. Mrs. Carroll said Fred Sherman, an iron workers' business agent, offered her $100 to procure a receipt in possession of Dugan. Dugan had said the receipt fas for $25, paid for destroying a non-union job.

Mrs. Carroll said on the promise of getting $100 for the papers she went to Dugan's home and attempted to induce Mrs. Dugan to give it up but Mrs. Dugan refused.

RICHMONDITES TO CELEBRATE GREAT HARBOR BOND VICTORY

6 TO 1 MAJORITY FAVORING PROJECT

Citizens Vote Overwhelmingly in Favor of the Waterfront Improvements.

RICHMOND, Nov. 20. — There was great rejoicing throughout Richmond last night and is manifest everywhere today, for the fact that the election for bonds to build a harbor and a tunnel to the waterfront through the hills of the southwest portion of the city was carried by an overwhelming majority yesterday, the vote in favor of both projects being about six to one.

The weather was bad and all the forenoon the rain poured down in torrents, and it was feared a light vote would result, but in the afternoon the skies cleared, the sun came out bright and the smiles and efforts of the bond workers increased proportionately. Ballots to the number of 2643 were cast in spite of the fact that the women could not be got out in the storm to great extent, and the voters rallied to the improvement propositions almost unanimously. The vote on the harbor was 2343 for and 300 against, while the vote on the tunnel showed 2202 for and 423 against.

Arrangements are being made to pull off a monster celebration of the victory in the immediate future, which will be on an elaborate scale, at which Richmond will invite everybody from everywhere to come and partake of hospitality and help celebrate the event which the people here are almost a unit in believing to be the key to great future prosperity and growth.

COUNCIL SOFTENS ROAD OF MANY TEAMSTERS

RICHMOND, Nov. 20.—The wide-tire ordinance, which was the cause of much trouble and some litigation some time ago, when the city's legal department started to enforce its provisions by arresting many teamsters and getting a favorable decision from the superior court of the county, was up for discussion at a meeting of the council, and it was decided to amend it so as to make it more satisfactory to the teamsters.

Hereafter those engaged in hauling rock from the local quarries will be allowed to haul two yards of rock in wagons of a 3-inch time, three yards on wagons with 4-inch tires, and four yards on wagons of 5-inch tire. This gives the teamster a heavier load than heretofore, but not heavy enough to damage the paving of the streets, and it is thought the hard feelings engendered by the former difficulty will now be soothed down and forgotten.

KNIGHTS OF PYTHIAS HAVE FUNDS FOR CASTLE

RICHMOND, Nov. —Within a few hours after the subscription list of the Knights of Pythias had been opened enough stock had been taken up to insure the immediate erection of the Pythian Temple, or Castle Hall, of the local knights of this city, at Fifth street and Macdonald avenue.

The sum of $3000 was raised, which, with other funds already secured, made up the $15,000 necessary to commence active operations on the building. Ground breaking will take place in a few days. It is proposed to erect a modern lodge-room, with the ground floors devoted to stores for rental purposes.

TO NOMINATE OFFICERS.

ALAMEDA, Nov. 20. — Spruce Camp, Woodmen of the World, will nominate new officers Friday night. The election will be held on the following Friday evening. The camp is undertaking a special campaign for membership which will close with the end of 1912.

AID SOCIETY PLANS HOLIDAY BAZAAR

Members of Fruitvale Presbyterian Church to Hold Big Sale.

FRUITVALE, Nov. 20.—The Ladies' Aid society of the Fruitvale Presbyterian church held a special meeting yesterday afternoon in the parlors of the church on Palmetto street to discuss plans for their annual Christmas bazaar which will be held Thursday, Friday and Saturday, December 5, 6 and 7, in the Helbrunn building on Champion street, near Hopkins, Dimond.

The members of the aid society have for months been working on the fancy work and wearing apparel to be sold at the bazaar. It is expected that this year's affair will be one of the most successful in the history of the organization, as many unique features will add to its popularity. A baby show will be one of its attractions. It will be held on Saturday afternoon, December 7, and all babies from 6 weeks to 4 years old will be eligible for entry.

At every booth some new feature will be added to make them doubly attractive. Mrs. Alcyon Hill and Mrs. Eva Reed will preside over the fancy work booth, Mrs. William Rutherford will have charge of the worsteds and crocheted garments, Mrs. Marie Nyhuis, assisted by Mrs. Henry Molima, at the home cooking and delicatessen counter; Mrs. William Yale, assisted by her daughter, Miss Florence Yale, and Miss Ellen Rhoda, at the candy booth; Mrs. George Welsh and Mrs. Beebe at the domestics booth. Mrs. J. Y. Miller will sell surprise packages in small wares, which, owing to their unusual nature, will create a great deal of merriment.

At the special meeting yesterday there were present Mrs. George Welsh, president of the society; Vice-President Mrs. R. C. Black, Secretary Mrs. Agnes Gibbard, Treasurer Mrs. Ellen Kerr, Mrs. Alcyon Hill, Mrs. Eva Reed, Mrs. Russell, Mrs. William Yale, Mrs. Henry Milloma, Miss Florence Yale, Miss Kittie Ewing, Mrs. C. Wiseman, Mrs. Franklin Rhoda, wife of the pastor, and Mrs. George Beebe.

Mrs. Kenyon was Miss Eastman, the daughter of Mrs. H. L. Eastman of this city, before her marriage several years ago to the young architect.

The Misses Edith and Hazel Foster were hostesses yesterday for the Little Bridge club, entertaining the club members at the Foster home on Grand street. Besides the young hostess, the members of the club are Misses Edna Siegfried, Helen Anthony, Isabel O'Connor, Edith Mau, Mary Bates and Mrs. Robert E. Retherton. Mrs. Shirley Meserve (Edith Foster), who has been visiting her family, will return to Los Angeles Sunday.

DROPS MARTINEZ CANAL CONTRACT

Mervy - Elwell Company Says Work Cannot Be Done for Appropriation.

MARTINEZ, Nov. 20.—After successfully bidding for the contract for the dredging of a canal and construction of a municipal wharf on the local waterfront, the Mervy-Elwell Company has notified the board of trustees that it would not proceed to carry out the contract in view of the fact that the work has been found impracticable under the appropriation of $25,000.

C. D. Elwell, waterfront engineer, says also that he considers the contract illegal. It is not yet known what steps the municipality will take to carry on the work, for which bonds were voted more than a year ago.

NEW SCHOOL BUILDING AT RICHMOND OPENED

RICHMOND, Nov. 20.—The schools of this city reopened this morning after a ten days' vacation, during which the annual institute of the county instructors was held in the auditorium of the new Tenth street grammar school building. This splendid new structure, costing over $65,000, was occupied by the children for the first time this morning, and the day is given over to the rearrangement of classes and a general reorganization. Workmen have been laboring industriously for weeks to have the new structure ready for occupancy by the pupils this week.

There are sixteen large class rooms, offices, rest rooms, departments for manual training and domestic science, and every other department known to the most modern school architecture, and in addition is an auditorium as large and modern as the average theater. Its entire three stories are models of the most improved methods of educational work, with convenience and sanitation noticeable features.

It is hoped to have the new Montana avenue school building, a duplicate of the Tenth street structure, ready for occupancy by the first of the year, the need for that structure not being quite as great as for the Tenth street building, where 750 pupils are enrolled.

RICHMOND NOTES

RICHMOND, Nov. 20.—The second day of the mission week services at local churches alternatively took place yesterday at Calvary Baptist church, the young people's societies of the city being in charge, with James Norton as chairman, and Miss Carrie Bedwell in charge of the music. J. E. Hill spoke on "What Can We Do to Advance Home Missions?" Floyd Haynes of the First M. E. church spoke upon "Finances for Home Missions." Miss Annie Woods, of Calvary Baptist church spoke upon "Home Missions in Richmond," followed by Mrs. Mary Church of the First Baptist church, whose theme was "How Can We Handle the Foreigner Coming to California After the Opening of the Panama Canal?" James Norton of the First Presbyterian church remarked on "What Are the Requirements of the Home Missionary?"

The building permits issued for new buildings in Richmond for the month of October, according to the report of City Architect J. B. Ogborn, totaled the amount of $58,000. So far the current month is keeping up with the record. The majority of the buildings last month were dwellings.

The work of widening Twenty-third street, south of Macdonald avenue to the Santa Fe tracks, is now under way under direction of City Engineer W. S. Farley. When this work is finished it will also be continued north of Macdonald, finally completing an 80-foot paved boulevard from the bay to San Pablo.

Next Saturday evening the second and one of the most attractive numbers of the winter course of entertainments being given by the Women's West Side Improvement Club will be given.

Councilmen Follett and Garrard have reported to the city council that the long drawn-out negotiations for the complete modernizing and improving of the Macdonald avenue subway have been agreed upon between the city and the Southern Pacific Railway Company and that the work will start at once.

Owing to the fact that Rev. and Mrs. Aubrey Wilson were moving their place of residence yesterday, the proposed feast of the Christian Endeavors was postponed until next week.

Chris Tilcso, a local carpenter who has many friends, started yesterday to erect for himself and family a new cottage, and when he started in with saw and hammer was much surprised to see six of his carpenter friends show up with overalls onth shrdl taoi cmfwybzgkqcmfw a job for a few days without pay. SPEED KING BOB TACKLES COURSE

Burman Asserts That He Will Give People Some Fast Events.

(By EDMUND CRINNION.)

Bob Burman, speed king; Joe Horan, Toney Janette, Jack Harkins, Waldie de Courcy and others were out on the Emeryville track this morning, burning up the course with their giant juggernauts. "Wild Bob" sent the Blitzen Benz around the course in a manner that would indicate that Barney Oldfield made a wise move when he sidestepped Burman and shut him and his cars out of the grounds at Tanforan, Sunday.

Burman says that he was on hand to enter the Tanforan track, "but Oldfield," says Burman, "learning of the intention appealed to Percy Walker, representative of the A. A. A. to whom he stated that he did not want Burman or any of his cars on the Tanforan track during the progress of his races; that he did not want to race with 'Wild Bob' and under no condition would he do so. In the face of Oldfield's appeal, Walker, as the A. A. A. representative, forbade myself or teammates from trying to force Oldfield into a race which he claimed that he did not want to enter.

"This was contrary with the published remarks emanating from Oldfield during the earlier part of the week when Barney invited and defied me to race with him. Myself and manager, F. A. Moross, were present at the race and expressed a willingness to enter but Oldfield was obstinate. This morning preparations went forward to get the Emeryville track into shape for the big speed carnival."

Already the entries of the following high powered cars have been signed and are absolutely assured, the famous 200 horsepower Blitzen Benz which holds all the world's records; the 200 horsepower Janetzy Mercedes, the 120 horsepower Benz, the giant Cutting racer, the Daraco, the 110 Benz, the big Stoddard-Dayton racer and others of equally prominent make.

Earle Cooper, who so decisively defeated Oldfield Sunday in three events, with his Stutz car, has been urged by Moross to try his luck against the speed king and the little Stutz "wonder" signified his intention of doing so.

The R. C. H., with Edwards up, has also agreed to enter and all told by the end of the week the largest field of automobiles ever assembled will be ready to face the starter's flag. An especial effort will be made to induce Barney Oldfield to enter as public opinion is reaching such a stage that he cannot much longer evade the issue.

BURMAN FINDS FRIENDS HERE.

Among the dealers in the automobile trade in Oakland that are taking a deep [illegible] and Olson, the Firestone tire distributors, and Manager G. McCutcheon of the Howard Automobile company's branch house. Holmes & Olson's interest in the meet is due to the fact that Burman is a firm believer in Firestone tires and will have nothing else on his race cars. McCutcheon's interest is on account of the friendship of long standing between himself and Burman. Both boys were testers of Buick cars in the factory together. This was about six years ago, before Burman's rapid rise in the motor racing world, and McCutcheon's advance along executive lines.

McCutcheon and Burman have always remained firm friends through the intervening years. This morning they indulged in a talk fest about old days when the Buick factory was located at Jackson, Michigan, and the racing game was young.

GOSSIP OF THE TRADE.

The new model "42" Oakland car arrived here this week at the Imperial garage in Webster street and attracted fully as much attention as it did in San Francisco when it first arrived on the coast. The Imperial garage has already booked several sales for immediate delivery.

M. Longfellow, a well known rubber tire man, has joined the Oakland branch of the Goodyear tire and rubber company. Longfellow is now already on the job with the "no rim cut, ten per cent oversize" tire.

IMPERIAL VALLEY RACE IS PLANNED

200-Mile Auto Contest to Be Held on New Year's Day.

EL CENTRO, Nov. 20. — A 200 mile automobile road race, five times around the principal part of Imperial valley, has been arranged for New Year's day. It will be run with the sanction of the American Automobile association and prizes aggregating $3000 will be awarded.

Several entrants in the recent Los Angeles-Phoenix and San Diego-to-Phoenix races already have signified their intention of entering the Imperial valley event.

The race officials invite entrants from everywhere.

The one pleasing feature about the use of a phonograph at a recent Boston funeral is that the corpse wasn't annoyed by it.

WARRANT OUT FOR PORTLAND LAWYER

Attorney Is Wanted in Connection With Vice Investigation in North.

PORTLAND, Ore., Nov. 20.—The release of Rigo, a violinist, because of lack of evidence, issuance of a warrant for a Portland lawyer, who is now in Marshfield, Ore., on business, and arrests of three more persons were the developments yesterday in the vice clique scandal which is undergoing investigation at the hands of the juvenile court in this city.

DENIES CHARGE.

MARSHFIELD, Ore., Nov. 20.—E. S. J. McAllister, the Portland lawyer, for whom a warrant was issued in connection with the vice clique scandal in that city, is in Marshfield, where he has been taking depositions in a legal case. McAllister stated that he was absolutely innocent of the charge against him and declares he cannot imagine how his name was dragged into such a case. McAllister said he expects to leave overland for Portland today and will reach there Thursday.

Sensational attacks against the Portland Young Men's Christian Association by a Portland newspaper, has called out several official statements from the board of directors of the Y. M. C. A., S. D. White, chief probation officer of the juvenile court, and Judge Gatens of the juvenile court.

The statement of the board of directors in part is as follows:

"What are the facts in the case as testified by Judge W. N. Gatens, of the juvenile court, and S. D. White, his chief probation officer?

"That there has been unearthed in Portland about fifty men who are under suspicion, and some of them under arrest, in connection with grave offenses.

"That the boys' department of the Portland Y. M. C. A. furnished the first evidence and has steadily co-operated with the court in the investigation and prosecution.

"That from three to six associate members of the 5300 members of the association are under suspicion. The association management has offered every assistance to the court to apprehend the guilty parties.

"Probation Officer White says, 'I want to say that no officer, director, employe or active member of the Young Men's Christian Association has even been mentioned as under suspicion.' Judge W. N. Gatens states, 'I can say without qualification, that no officer, director or employe of the Y. M. C. A. is connected directly or indirectly in the most remote manner with the offenses charged to have been committed.'"

CHINESE BIBLE SCHOOL TO MOVE

Farewell services of the Chinese Bible School of the First Presbyterian church will be held next Friday evening at the chapel of the church. Dinner for the teachers and scholars will be served at 6:30 o'clock in Brigade hall. The speakers will be W. A. Horn, Chung Git and Leung Lay.

The program will begin at 8 o'clock with selections from the New Cathay Boys' Band, Chinese, of thirty-five pieces, under the direction of Thomas Kennedy of the Naval Training School at Goat Island. The selections follow:

"Star Spangled Baner; march, "Captain Anderson;" overture, "Apollo;" overture, "Boys in Blue;" quick step, "Home Sweet Home;" "America."

The Quark Min Association band of sixteen pieces, also a Chinese organization, will play sacred songs. Some of the boys of the Chinese Bible school are members of these bands.

The speakers in the chapel will be Dr. Ira Condit, formerly a missionary in China for the last forty years, in charge of the Presbyterian Chinese work in California. Dr. Condit's topic will be "Early Reminiscences of Our Chinese School." Rev. J. H. Laughlin, pastor of the San Francisco Chinese Presbyterian school, will speak on "The Relation of Our School to New China."

Dr. Goodspeed, the pastor of the First Presbyterian church; H. H. Gribben, Bible school superintendent of the First Presbyterian Bible school, and Mrs. J. H. Beatty, for many years a teacher in the school, will also make addresses.

The First Presbyterian Chinese Bible School was organized in the former church at Thirteenth and Broadway, before the present edifice was built in 1875. The school will, when the church moves to its new temporary quarters at St. Paul's church, be moved to the Mission building of the foreign board on Harrison street.

INSPECTOR IS SUED FOR DIVORCE DECREE

SAN FRANCISCO, Nov. 20.—Albert T. Emmrich, a United States Government inspector, was made defendant this morning in a divorce action begun by his wife, Marie C. Emmrich, in which she accuses him of cruelty for eleven of the thirteen years of their married life. She cites numerous instances of beating, which she claimes were administered to her by her spouse. She declares that on one occasion her husband promised to take her on a long trip if she would save up some money. She asserts that she saved up $90 and handed it over to Emmrich for the purpose of arranging for the journey. After that, she says, she did not see him for three days, but on his return the money was gone.

As the result of one beating which she received, according to her complaint, she remained in bed for three days. She wants the custody of her two children and substantial alimony.

OVERCROWDING IN ASYLUM DEPLORED BY SECRETARY

Frank C. Jordan Reports on First Visit to the Institution

(By FRANK C. JORDAN, Secretary of State.)

SACRAMENTO, Nov. 20. — As a member of the State lunacy commission I have felt, during the past year, that it was my duty to inspect the several hospitals, and become acquainted with the conditions actually existing at them. I confess that I have not relished the task, and have held off as long as possible from so doing. Having determined to visit each before the session of the legislature in January, I decided to commence with the Southern California State hospital, located at Patton, in San Bernardino county.

On November 12 I arrived at the hospital. I had the impression, possessed by many, that to go through an asylum was to face, in every sense of the word, a "chamber of horrors;" that so many harrowing scenes would be witnessed, so many heart-rending instances occur, that the experience was one that would be unpleasantly fixed in memory for a long time.

I was informed by Superintendent J. A. Reily, that there were 1177 male and 651 female patients being cared for.

First, I was taken to where the pay patients are under observation. It was about supper time. Walking through the large assembly rooms I noticed particularly those there, and was struck with the spirit of contentment that prevailed. The rooms were well lighted and attractive. The patients were neatly attired, and everything was "cleanliness personified." The dining rooms were pleasant and cheery, the tables were covered with snowy linen, and flowers decorated each one. There was nothing to remind one of the real situation and condition of those so provided for.

FOOD IS INSPECTED.

I inspected the food being prepared. It was wholesome and pure. In all the cottages where the pay patients were under observation, the conditions were the same, and no one having relatives there need worry about their treatment or contentment.

I was then taken to the main building, and visited the dining room, where all classes of patients were at supper. This meal is a light one, the noon meal being the heaviest. I noticed that the food was about the same as that on the pay patients' table — wholesome and necessary, and was satisfied that no extravagance in diet was being practiced.

The patients were quiet and uncomplaining, and one could only pity their unfortunate condition of mind, and could not take exception to their treatment or care.

In the great kitchen I examined the food being prepared. No unpleasant odors offended. I went through the large cold storage room, where great beeves and hogs were hanging, and each were fresh and prime, and everything was perfectly sanitary. Questioning the superintendent as to the allowance of meat per day to each patient, I was convinced that only sufficient to properly nourish was provided.

Having requested to be taken through all the wards that night, it was agreed that we should start at 9:30 o'clock. At 9 the electric power went off and the buildings were plunged in darkness. However, the gas jets were quickly turned on by the attendants. It was suggested that the trip be postponed until the next evening, but I was anxious to get through.

IN ROOM WITH VIOLENT.

Our first visit was to ward No. 6, where the worst patients are. I confess that a feeling of trepidation possessed me for a moment when we were locked in a large room, where I was told at least 75 of the most violent were confined. I expected to be greeted with maniacal ravings, violent outbursts, and braced myself for the worst. The patients were in their beds, and as we walked between the long rows of quiet forms, I was only reminded by their wild-eyed glances of their condition. Not an outcry, nor an unpleasant incident.

Over an hour was passed in the various wards, and though in some the low wailings of the afflicted roused my pity, nothing harrowing or startling occurred. As I moved from ward to ward, the thought was ever in my mind that these were indeed but "children, helpless wards of the State." The helplessness and hopelessness of their situation was vividly impressed on my mind.

I did observe, though, in that hour's visit, that which compelled me to remark to the attendant — "If this condition continues long, it will be a disgrace to the State." In many wards overcrowding was apparent, and the cubic air laws were being violated; and worse than all, I saw in cold, cheerless and dark halls and coridors, long rows of these poor unfortunates sleeping on mattresses thrown on the floor. If the people of the State could have before them a flashlight picture of the sight, I know that not one would criticise the legislature for acting at once, and that the cost of additional buildings would be hurriedly voted, and an additional taxation would be willingly borne. This condition should be relieved at the earliest possible moment, and every human impulse demands it.

SITUATION CAUSES GASP.

After the inspection was over, I told Dr. Reily that I was simply dumfounded at what I had seen; that my impressions of what I expected to find were so different from what I had actually observed that it seemed incredible. As the result of conversations with the attendants, I am satisfied that it is due to the kind, careful treatment the unfortunates receive. Undoubtedly, there are many in desperate condition; that scenes most harrowing are of frequent occurrence; that severe treatment must at times be resorted to; that the vagaries of the mind bring on frequent outbursts, but I am satisfied that the segregation of patients is wisely made; that they are being given every possible attention, and that every effort is being made to bring about a speedy restoration of reason. It is admitted that when these unfortunate ones arrive at the receiving wards, after commitment from the counties, that their condition is much different from that each one is in after a short period of observation and treatment.

That much is due to the kindly treatment of officials and attendants is, I believe, true, for I was very favorably impressed as I noticed the kindly salutations of patients and officials. The statements made to each patient on arrival, namely, that the one desire of physicians and attendants is to help each, and as soon as possible grant his release, has the desired effect, and it is a fact that the officials convince them by their actions that such is the desire of all in charge.

My conviction that the majority of the patients are quiet and contented was strengthened when, on the following day, I saw a long line of patients taking their morning exercise, marching by fours, for an hour and a half, around the great square—all moving briskly and cheerfully; nowhere any evidence of dissatisfaction, no complaint or outbursts.

REMOVES HIGH FENCE.

The present management has removed the high fence, done away with the great yards where the patients were wont to gather, and instead, have adopted this plan, which gives each patient the exercise so necessary.

I might further remark that nowhere in the buildings while visiting the different wards, did I notice any unpleasant or disagreeable ... except ... where overcrowding few of the wards where overcrowding was necessary. So much concerning my observations of the patients, their condition and their treatment.

I will now refer to the management of this great institution, and the manner in which the interests of the taxpayers are being looked after. Frequently I have heard that the affairs of the insane asylums are administered, not in the interests of the people, but for the benefit of favored individuals and contractors; that there were many that should not be there; that there were many whose care should be, but was not, paid for by relatives; that the inmates were allowed to exist in idleness, when they could labor and contribute toward their support and care; that in the purchase and use of supplies of all kinds, extravagance and wastefulness was the order.

My investigation as to the Southern California State hospital disproves every one of these assertions. The grounds of the asylum cover 466 acres. Nearly all of the land not occupied by the buildings, or necessary for the use of the patients, is in a high state of cultivation, and very productive. Twenty acres of it is used for the raising of vegetables for the use of the inmates, over two tons being taken to the hospital each day. Only potatoes are purchased, all other vegetables being raised on the farm. Sixty acres is used for the raising of hay, grain and feed for stock. In the dairy 80 cows are being milked daily, at a monthly profit of $1400. Thirty-five acres is in orange groves, producing about $6000 annually. Fifteen acres is planted to small fruits of all kinds, and not only are the patients supplied daily in season with delicious fruits and vegetables, but this year 37,000 quarts of apricots and 34,000 quarts of other fruits and vegetables were canned for hospital use.

A large number of hogs are raised and killed annually, at small cost to the State. Poultry yards, with 2500 hens, give satisfactory returns.

300 WORK IN FIELD.

Three hundred patients are working in the fields, patiently, intelligently and industriously, requiring only the services of attendants or guards. More could be kept at work if provision was made for the employment of extra guards. Sixty per cent of the patients are employed on the farm and in the various departments. Of the remaining 40 per cent a great many are too feeble to work, or bed-ridden, or their condition is such as to prevent their employment.

It was an agreeable surprise, upon an examination of the accounts of the hospital, to find that in the last six years products of the farm were of the value of $238,494.98, the principal items being:

Milk	$75,509.80
Oranges	$34,321.55
Pork	$26,897.32
Hay	$18,922.50
Table vegetables	$36,233.36
Fruit	$ 6,954.46
Chickens, eggs, etc.	$ 3,990.75

And all this was gained by the aid of those confined at the asylum, and partially bereft of reason, who are uncomplainingly and cheerfully laboring.

I shall visit the four other asylums in the State. My investigation of the Southern California State hospital has been an interesting and not unpleasant task. I have been critical; I have found little to criticise. Those who have relatives there may rest assured that kindly treatment is being received by them. Society, the State, must care, must provide for the unfortunate insane. Humanity demands it. The affairs of this institution I know are well conducted. It has not suffered, and is not suffering from political influence. Employment depends upon ability and efficiency and nothing else. The institution is a credit to society, to the State, and to the administration under which it is being conducted.

The Tribune Pedalmobile Now on Exhibition in Heeseman's Window

Boys and Girls Here's Just What You've Been Looking for

It is a real vehicle--not a toy--and will hold a grown man's weight. The big racing hood is sheet steel, has slanting seat, giving driver real racing position; has a real automobile steering wheel of wood and white metal. One Big Feature is the Knuckle steering gear. The front wheels turn in response to the steering wheel—just as do the front wheels of a real automobile, the axle being stationery. This eliminates danger of upsetting on curves.

Remember—this machine is not a quadricycle or a mere toy or plaything. It is a real miniature racing car; guaranteed to carry 350 pounds at a speed of from 10 to 12 miles an hour, according to the skill and endurance of the driver. The Pedalmobile is made of the best quality of steel and has three speed controls--low gear for starting and general hill climbing; high gear for fast driving and on level places; neutral gear for coasting. See it in Heeseman's window.

Plenty of Action in Roped Arena Keeps Fans Busy Picking Favorites in Boxing

WEST OAKLAND CLUB'S TALENT IN SHAPE FOR BOUTS

Watson and Picato Ready and Fans Should Witness Well Contested Go.

By BERT LOWRY.

This evening at their clubrooms at Eighth and Pine streets, the West Oakland Club will stage Babe Picato and Reddy Watson in a ten-round contest as well as two six-round bouts and two of four rounds.

On Friday evening the Tuxedo Club will stage several bouts at Dreamland Rink in San Francisco, the headliner of which will be a ten-round contest between Fritz Holland and Otto Berg.

After these two shows are over the fans can sit back and wait for the Wolgast-Ritchie affair for the lightweight championship of the world at Daly City on Thanksgiving day.

For the show this evening the main eventers and the preliminary boxers are in the best of shape. Watson and Picato have trained well and faithful for the battle and the fans should see an interesting scrap.

Two six-round bouts and two four-round bouts wind out the card. In the curtain raiser starting promptly at 8:30 Eddie Miller will be opposed to Tony Freitas of East Oakland. Following these two will come Bert Sealey, the Alameda white hope discovered by the only Doc Stroll, and Mysterious Mitchell (no relation to Gregory Mitchell) in a four-round bout. These two met at the Oakland Wheelmen's show one evening and that bout was a scream.

Ray Campbell and Jim Horner are down for a six-round bout and Louis Rees of Los Angeles will meet Kid Peppers in another.

This will be a return to the ring hereabout of Rees. His last appearance in Oakland was against Tommy McFarland. Previous to that he had met and lost to Frankie Burns on a foul.

Peppers is a stranger from Kansas City, but those who have seen him in action say that he is bound to give Rees a tough old time of it. These two meet at 133 pounds.

NEXT COMES TUXEDO CLUB SHOW.

On Friday night Eddie Graney will stage a series of fights at Dreamland rink, comprising one 10-round bout, three six-round bouts and one four-round bout.

Fritz Holland and Otto Berg are down for the 10-round bout, which is a return engagement between the two. They met at the Wheelmen's show some months ago and put up a fierce 10-round draw with many fans thinking that Berg should have had the shade.

Holland has always contended that he was entitled to the verdict and says that he will prove it most conclusively on Friday evening.

Lee Johnson, the sensational West Oakland boxer, meets Young Attell, the Denver boxer who beat Roy Moore at the Wheelmen's last show. Willie Meehan will measure swaps with Chicago Jack Herrick in six rounds, and Jimmy Fox will tackle Marty Kane in six rounds.

Walter Wall and Young Hassan furnish the curtain raiser. Popular prices will prevail, with Toby Irwin giving all decisions.

WOLGAST IS OBLIGING.

Ad Wolgast is an obliging young man. Yesterday a half-dozen picture shooters invaded his camp and despite the coldness of the weather the little champion came out into the open and posed for all kinds of snaps for fully 15 minutes.

Then he went into the gym with the intentions of doing a little rope skipping and shadow boxing, but when he saw the crowd and knew what they wanted to see him box he donned the gloves and stepped three rounds with Louis Rees.

This pleased the crowd and to fill out the show Ad did a wrestling stunt with Charley Ansinger, a new arrival in the camp from the sunny south.

It wasn't a very pleasant day the little fellow had. Getting up in the morning he found it raining, but took to the road nevertheless. It was wet under foot and overhead and Ad didn't do his cold a bit of good. Still, in the gym work one would hardly think that he wasn't all fit.

Rees is a fairly good boy and gave Wolgast a chance to show what he could do. Barring a tendency to favor his left arm, which is bothering him a bit, he was just [illegible] and stepped through the three rounds with the same liveliness as we had seen him work while preparing for Moran and Burns.

RITCHIE WORKS HARD.

Over at Billy Shannon's villa in San Rafael Willie Ritchie went through the usual gym and road work. He boxed six rounds yesterday, three with a new man named Lem Kegg from Los Angeles and three with Frankie Edwards.

In these two bouts the Californian paid much attention to landing on the body and to wrestling, for he is well aware that in Wolgast he will find a rough and ready [illegible] who will be strong and who will do more or less of the pulling and tugging.

The crowd who braved the elements paid particular attention to the way Willie handled his left mitt and they noticed that he did not favor it in the least, which would bear out his statement that the member is just as good as it ever was.

BRAUN TO JOIN RITCHIE.

That a student of wrestling would help matters in the training caused Ritchie to have his friend Mel Moffitt wire to George Braun, a noted Olympic club wrestler who is at Tonopah, to join the camp at once and [illegible] on hand tomorrow morning bright and early to take charge of that end of the training.

Tommy McFarland, a fast boy who can rough it with the best of them, will also join the camp this afternoon and will take part in the boxing that will be indulged in.

Willie gave out his weight as being 136 yesterday, and said that he was never feeling as well in training as he does [illegible]

WHAT RITCHIE WILL DO.

Willie Ritchie is going to let down the bars to the heavy lightweights if he whips Wolgast in their Thanksgiving day battle. He is going to raise the lightweight limit to 135 pounds and make Packey McFar-

BUFFALO BOSS SAYS G. SCHIRM IS SOME BALL PLAYER

President Stein of the Buffalo club pays this tribute to George Schirm: "He was always one of the hardest working players on the team, whether the Bisons were in the lead or struggling along it was always the same to George. He was always plugging along hard for the team's success."

Schirm has been a Bison since 1906. He was drafted from the Columbia club of the South Atlantic. In that league Schirm made a record for himself as a speedy outfielder and was rated among the three best outer gardeners in the league. He continued his spectacular work in the field and on the bases for the Bisons but on account of an injury to his leg several years ago his efficiency for the local club was somewhat marred.

He came back, however, this year and more than held his own with Murray McCabe and Deininger in the Bison outfield. He was easily the fastest of the four and was the best Bison on the bases. His record for stolen bases in the six years that he has been a Bison is the best that any Buffalo player ever made for that period of time.

The facts are, Schirm's parents recently removed from St. Louis to Oakland and George expressed his wishes to President Stein regarding a possibility of his transfer to the Coast league. On account of Schirm's loyal services to the Buffalo club Stein felt obligated to favor the speedy gardener, the result being the sale to Oakland.

Schirm will find congenial company in the Oakland team. Pitcher Billy Malarkey and Outfielder Emil Zacher having been on the Buffalo team with the Flying Dutchman.

KILBANE WILLING TO MEET MORGAN OVER LONG DISTANCE

CLEVELAND, Ohio, Nov. 20 — An agreement between the managers of Johnny Kilbane of Cleveland, featherweight champion, and Eddie Morgan, English boxer, was reached late yesterday whereby the two will meet soon in a twenty-round bout for the championship. Terms and a date have not been agreed upon, but it is said the match will take place on the Pacific Coast within a couple of months.

Morgan has been in this country ten weeks and has secured decisions from several boxers from whom Kilbane had a hard time to win.

PROMOTER COFFROTH TO ENTERTAIN AT SHANNON'S

Promoter James W. Coffroth, who will stage the Wolgast-Ritchie go, at Daly City on Thanksgiving day, will act as host to a party of newspapermen and friends tomorrow afternoon at Willie Ritchies' camp.

The party will leave San Francisco on the 11:45 boat for Sausalito at which point several automobiles will meet them and a drive will be taken through the hills to San Rafael.

Arriving at the training camp a lunch will be served after which Ritchie will go through his regular work for the benefit of the party. Among the invited guests will be Leon Wing, Frank Herman, Jim Griffin, Bud Perner, Bert Lowry, Joe Murphy, William Slattery, W. W. Naughton, Willie Nelson and his famous organ, and others.

WALTER SUTOR DOESN'T UNDERSTAND WRESTLING

DULUTH, Minn., Nov. 20. — Walter Miller of St. Paul defeated Walter Sutor of Cleveland, welterweight wrestling champion, in two straight falls here yesterday. One hour six minutes and thirty seconds was required for the first fall, while the second was made in 23 minutes.

Sutor, Freddie Welsh, Matt Wells, Knockout Brown and other lightweights who are now too heavy to make the present limit at ringside legitimate contenders for the title. Billy Nolan is authority for the statement. The effect of such a move would be to add class to the division, for with such scrappers as McFarland and others of his class legitimate contenders for the title we should be assured of having a championship division notable for the class of the contenders. There is nothing to prevent Ritchie from making the change in the weight if he wins the title, as championship weights nowadays are matters of arbitrary adjudication by champions, and as they are champions [illegible] making their right to [illegible] country, whether we approve of disapprove of their acts.

Raising the scale for the lightweight division to 135 pounds probably would bring about a similar raise in the featherweight division. Kilbane is getting heavy and 125 pounds would suit him a lot better than 122 pounds now, it is said. Making the featherweight limit 126 pounds would allow a lot of the near-lightweights to get into the championship running in the lighter division. Both these changes would find approval in the ranks of the high officials in the Queensberry game and would tend to make the championship contention in each division decidedly more interesting and uncertain, as well as a bit more classy in the addition of the boys who now are a trifle too heavy to make the limit at ringside.

JIM FLYNN HAS WORD OF KNOCK FOR BIG HEAVYWEIGHTS

Jim Flynn the Pueblo fireman drifted into Los Angeles last Friday evening and when he got the ear of Jay Davidson poured forth his opinion of those two big ringsters, Luther McCarty and Al Palzer.

"Palzer is a dub and McCarty will go the same route taken by all the terrible ones is the substance of his remarks in sizing up the two leading rivals to his claims upon the white heavyweight championship.

"I wish some scientist would find a way of breeding bigger men so my job would be a bit tougher," says Flynn. "Giving away only 24 pounds is making it too easy for me and I will feel like I was fighting an opponent at my own weight. I only weigh 181 pounds, but in the past it has been necessary for me to handicap myself from 30 to 75 pounds in order to get a fight. McCarty weighs 205 pounds and stands six feet three inches, they say, which should give him some advantage, but you know the bigger they are the harder they fall."

Flynn really believes that Al Palzer would be rather easy pickings for him. In commenting upon the poor showing the New York scrapper made against poor old Tony Ross, Flynn says that Tom O'Rourke's hope furnished all the proof he needed of his lack of real class. Flynn believes McCarty is a better man than Palzer and will give him a tougher fight than would the big Eastern mauler.

YANKEES WIN HONOR AT GOTHAM'S BIG HORSE SHOW

NEW YORK, Nov. 20. — The United States scored a brilliant victory in the International jumping contest for officers of all nations at the Horse Show, taking first and second honors in a field of 23, containing representatives of England, Canada, Holland and Belgium.

Lieutenant C. L. Scott, Thirteenth United States cavalry, riding Lieutenant Barkley T. Merchant's Mostor, was declared the winner of the blue ribbon Captain Guy V. Henry, Fifteenth cavalry, finished second on Bazan.

This was the first international contest in which the American riders and horses have made a sweep.

FINAL PRACTICE FOR YALE AND HARVARD

NEW HAVEN, Ct., Nov. 20. — The Yale eleven had its last hard practice this afternoon in preparation for the Harvard game.

CAMBRIDGE, Mass., Nov. 20. — The last practice of the Harvard varsity football team that will play Yale at New Haven on Saturday was called for this afternoon.

JIMMY DUFFY OUTPOINTS ENGLISH HARRY THOMAS

CLEVELAND, Ohio, Nov. 20. — Jimmy Duffey of Buffalo received the decision on points over Harry Thomas, the English lightweight, at the close of their twelve round fight here last night. The bout was fast.

DAVE ORR AN INSPECTOR

Dave Orr, the old-time first baseman, is now inspector for President Ebbetts on the work being done on Ebbetts' Field in Brooklyn. He declares the story that the heavy concrete grand stand is settling because built on made ground is all bosh. There is no settling, and for another thing the stand is built on bedrock, not on made ground.

NOTHING FOR HONEY BOY.

Honey Boy Evans, the minstrel man, is a dandy little advertiser, but as yet he has bought none of the numerous ball clubs he has made "offers" for, nor has Ty Cobb, Mike Donlin or Charley Dooin signed up with him as end men for his minstrel show.

BRESNAHAN IS IN DEMAND.

CHICAGO, Nov. 19.—Roger Bresnahan, deposed manager of the St. Louis Nationals, is the authority for the statement that three National League teams are anxious to obtain his services for 1913. The Cubs, Cincinnati and Pittsburg in the National League are after him, he says. He could not hope to displace Archer as first catcher of the Cubs.

LEIFIELD WILL BE THERE.

"I'll be right there helping Johnny [illegible] manager, says "Lefty" Leifield of the Cubs.

SMITH STOLE MANY BASES.

One hundred and twenty-eight bases stolen on Catcher Syd Smith in the American Association during the last season in 152 games.

CUB PLAYED 4631 GAMES.

Since there has been a Chicago National League team it has played 4631 games. Of this number it won 2712 and lost 1919, for a winning per cent of .586.

MENSON IS AN INFIELDER.

Barney Dreyfuss harbors the idea that Eddie Mensor is an infielder and if Manager Clark agrees the diminutive one from the Pacific Coast may be moved in next season.

HOPPE LOOKS BEST IN BILLIARD TOURNEY AT NEW YORK

NEW YORK, Nov. 20.—All but one of the 28 scheduled games have been played in the professional 18.2 balk line world's championship billiard tournament and the final match between Hoppe, the champion, and Morningstar will be decided tonight.

At the close of last night's play Hoppe was in the lead with five games won and one lost. Slosson has won five and lost two, and Morningstar has won four and lost two. If Hoppe beats Morningstar he will win the tournament and retain the championship, but should Morningstar win there will be a triple tie for first place between Hoppe, Slosson and Morningstar, which will necessitate extra games.

Slosson played a fine game of 31 innings, defeating Cline, 500 to 306. Slosson's best effort was made in the twenty-third inning, when he gained 111 points.

Yamada treated the spectators to some pretty billiards in winning the game from Taylor, who has only scored one victory out of seven contests.

The scores: Slosson, 500; average run, 16 4-31; high runs, 111, 71, 73. Cline, 306; average, 9 27-31; high runs, 49, 34, 25. Yamada, 500, average, 25; high runs, 83, 72, 58. Taylor, 273, average, 14 7-19; high runs, 64, 42, 32.

MORDECAI BROWN IS AFTER UMP BERTH IN AMERICAN

CHICAGO, Nov. 20. — Mordecai Brown, former star pitcher for the Chicago National League team, may be an umpire in the American League next season.

President Johnson has two vacancies in the staff of umpires to fill, and it is said Brown is being considered for one of these positions.

EASTERN COLLEGES PLAN EIGHT-OAR BARGE RACES

PHILADELPHIA, Nov. 20. — Arrangements are being completed here for a series of three-cornered varsity eight-oared races between Harvard, Princeton and the University of Pennsylvania. According to the plan the first race will be held in Philadelphia next May. After that the race will be held in Cambridge and Princeton every third year.

The Pennsylvania football authorities are negotiating for games with Yale and Harvard next year, although it is doubtful whether a satisfactory schedule can be arranged.

SENATORS MAKE TRADE THAT LOOKS BRIGHT

CHICAGO, Nov. 20. — The Chicago National League Baseball club today traded Tom Downey, utility infielder, to the Sacramento club of the Pacific Coast League in exchange for Edward McDonald, who went to the Sacramento club from the Boston Nationals last year.

MATTY CAN PLAY CHECKERS.

Christy Mathewson will make another invasion of Boston shortly. He goes as a representative of the New York checker players at the annual tournament in Boston. Next to pitching ball the one thing that Christy prides himself on is his ability as a checkerist.

KNOCKERS ARE AT WORK.

Three knockers born every minute. Some one clips the dispatch telling how Clark Griffith felled a deer in Montana with a stone, marks it with a blue pencil and sends it in with this written on the margin "Rotten, he couldn't break a pane of glass."

ANOTHER MATE FOR ED. WALSH.

With Billy Sullivan passing out of major league base ball, Ed Walsh must have a new battery mate, for when Bill goes another famous battery will be broken up. The man who succeeds Sully will be Ray Schalk.

BATTLER WILL BE FIT.

NEW YORK, Nov. 19. — Battling Nelson telegraphed the managers of the Forty-fourth Street Sporting club yesterday from Hammond, Indiana, that he would leave there at once for this city to get ready for the 10 round bout with Leach Cross, Thanksgiving afternoon.

WHITE HOPE ON HIS WAY.

SAN FRANCISCO, Nov. 19.—Billy McCarney, with his "white hope," Luther McCarty, left for Los Angeles last night, where he will commence training for his twenty-round bout with Jim Flynn on December 10th.

SCHEME MAY REMAIN.

The decision of the Pacific Coast League to drop the scheme of numbering players called for a protest in some quarters. Argument seems to be divided on whether the plan was a success or not.

SOME ADVICE FOR McGRAW.

Some brute has suggested that McGraw take this as his subject of his vaudeville monologue: "How to Win the Deciding Game of a World's Series With Seven Players, a Bonehead and a Sieve."

SMITH STOLE MANY BASES

One hundred and twenty-eight bases were stolen on Catcher Syd Smith in the American Association during the last season in 152 games.

MENSOR IS AN INFIELDER.

Barney Dreyfuss harbors the idea that Eddie Mensor is an infielder and if Manager Clarke agrees the diminutive one from the Pacific Coast may be moved in next season.

DUNDEE EARNS RIGHT TO MIX WITH ALL GOOD ONES

LOS ANGELES, Nov. 20. — Johnny Dundee, the New York featherweight, completely outclassed Frankie Conley of Kenosha, Wis., last night at the Vernon arena. After using the Wisconsin lad as a human punching bag for 18 rounds, Dundee shot in a terrific left to the paw at the beginning of the nineteenth that put Conley practically out. Referee Eyton stopped the bout and gave Dundee the decision.

Dundee's work was exceptionally fast and clever, and showed that he was to be reckoned with in the scramble for Johnny Kilbane's title.

HARVARD MEN BEING COACHED FOR GAME WITH YALE

CAMBRIDGE, Mass., Nov. 20. — The Harvard football men were given a half hour's blackboard talk and an hour of scrimmage in preparation for Saturday's game with Yale. In the stadium the teams went through a number of the known Yale formations, after which the varsity took the ball and went against the second team for short, sharp rushes down the field. The ball was rushed to within kicking distance for Brickley, who made three field goals during practice.

BURNS MAY BE MATCHED WITH CHAMP WOLGAST

Jim Coffroth is going right ahead with his matchmaking and it is just possible that Frankie Burns and Ad Wolgast will be the next attraction around the bay.

The matter has been put up to the champion and he is willing providing he gets his price. Of course all depends on whether the Cadillac wonder wins or loses.

RUBE CARRIES BIG CANE.

Ruba Marquard is wearing a cane, now that he is a vaudeville actorman. The Reuben became addicted to gloves shortly after arriving in Gotham, so it can be said without fear of contradiction that he is fully metropolitan in all his doings.

McGRAW MAKES A DENIAL.

John McGraw denies that he blocked any desire of John Kling to get out of the National League. It had been reported the Giants refused to pass claim on the former Boston manager.

COUNCILMAN F. L. KRUMB NOW STREET OFFICIAL

ALAMEDA, Nov. 20. — Councilman Fred L. Krumb was last night appointed assistant superintendent of streets by the city council and resigned his position as councilman from the first ward. Mayor W. H. Nov announced that he had as yet given no thought to Krumb's successor on the council.

The appointment of Krumb was agreed upon in committee but last night Councilman Alfred Morgenstern voted against the appointment prefacing his vote with the statement that he saw no need of creating the new office. He said that most of the city street work was already finished and that if the street superintendent, V. M. Frodden, was not able to attend to his duties as heretofore that he should give up the place and let a new superintendent be appointed.

Morgenstern believed the new position meant more expense with no accruing benefit. On the vote Krumb's appointment was confirmed by a vote of 7 to 1, the retiring councilman not voting.

GIVES BOOKS TO STANFORD.

STANFORD UNIVERSITY, Nov. 20.—Five hundred volumes of historical and scientific value have been presented to the university library by J. E. Hewston, superintendent of the Stanford farm. The books are from an extensive collection of Hewston's father, who was a pioneer and a great friend of Senator Stanford. The elder Hewston was an expert as a chemist, astronomer, botanist and civil engineer. In addition to this he was a first-class cabinetmaker and blacksmith.

CONDUCTOR GETS DAMAGES.

NAPA, Nov. 20.—The jury in the libel suit of Conductor James Adams against W. H. Cameron, a merchant of this city, returned a verdict yesterday in favor of the plaintiff conductor for $5000. The jury decided that Cameron was actuated by malice when he wrote to a Southern Pacific official that Adams was under the influence of liquor on a certain date. On the strength of that letter the conductor was dismissed, after having been in the company's service 15 years.

YOUNG ATHLETES TO CONTEST AGAIN IN FIELD EVENTS

The banking class of St. Mary's college will meet the commercial class of the same institution this afternoon on the college oval in the second interclass track meet held at the local school during the present season. Interest is keen between the two classes over this afternoon's affair and each class has had a large squad of men out daily training in preparation for the event. Both teams are practically evenly balanced and it is impossible to pick a winner. Although but two classes are competing over 100 men have entered, emphasizing the great school spirit now prevalent at the local college. Coach Otto Rittler is in charge of the contest and will have as assistants members of the other classes of the college. Last week the freshman class of the college took first honors in the college interclass. Next week the academic classes of the school will compete in an interclass. From the showings made in these different engagements the varsity track team of the school will be picked.

SANTA CLARA RUGGERS IN PRACTICE FOR NEVADANS

SANTA CLARA, Nov. 20. — The Santa Clara players are practicing daily for their big game with Nevada University at San Francisco on the St. Ignatius grounds. Coach Higgins will announce the fifteen players who will wear the Red and White tonight, though there is little doubt as to the choice of thirteen of the players. Among those who are sure to be numbered among the select may be mentioned Best, Ramage, Flood, Morrison, Ybarrando, Stewart, Hogan, Quill, Voight and Kylie. Castruccio, the plucky little half back, will not be in the game owing to parental objections, and his place will probably be filled by Tramutola.

ALAMEDA ALL-STARS TO CLASH WITH BODIE'S CREW

ALAMEDA, Nov. 20. — If the weather permits the new Alameda All-Star ball team, organized under the name of the Alamedas to play winter baseball, will open the season at Alameda Recreation park next Sunday, meeting the Bodie Stars. The diamond has been raised a foot, through filling in with 500 loads of earth and is now being rolled daily. The grandstand has been moved and several other improvements made. The club is backed by a regular business organization and is managed by George W. Nellis.

NO CHANCE FOR STANFORD TO MEET SANTA CLARA

STANFORD, Nov. 20. — All that talk about a rugby game between Stanford and Santa Clara will end in naught for it will be utterly impossible for the students to agree to another break in their studies.

While there would be considerable interest in such a match, under the conditions it will be impossible to proceed further with any arrangements.

CUTLER IS VERY CONFIDENT.

CHICAGO, Nov. 20.—Bob Managoff, the Asia Minor wrestler, who will meet Charley Cutler in the windup of the Globe Athletic Club's initial show Wednesday evening, predicts the defeat of the Chicago man. Cutler, though not ready for a hard bout, is confident he will tumble the foreigner.

VARSITY RUGGERS TO MEET FIFTEEN OF LOS ANGELES

California Arranges Contest That Will Be Played on Bovard Field in South.

UNIVERSITY OF CALIFORNIA, Nov. 20.—On Thanksgiving Day the California Varsity Rugby team will play a post-season game with the University of Southern California. The contest is to take place on Bovard Field on the campus of the southern university in Los Angeles.

Unless the Methodist Rugbyites have improved considerably over the form they displayed here early in the season, the blue and gold varsity should defeat them without difficulty. On October 12, the U. S. C. team engaged in a contest on California Field with the California freshmen, and the latter won without much trouble by the score of 23 to 3. This game, however, was played when the southerners had been on the field only three weeks, and consequently were not playing the best of Rugby. After a month's play, they should now be at their best, and on their home grounds, will doubtless put up a better exhibition.

Another item contributing to the dope on the probable outcome of the Thanksgiving game, is the recent victory of the Waratahs over the Los Angeles team by the overwhelming tally of 41 to 6. The games which the Australians played here proved that no such margin of superiority exists between them and the California team. Consequently, it seems a certainty that the southern team is doomed to defeat in the coming contest.

Eighteen men, accompanied by Coaches Schaeffer and Cerf, will leave Berkeley two days before the game. This list consists of the following names: Stroud, Peart, McKim, Miller, Douglas, Fleming, Fish, King, Fletcher, Morris, Hazeltine, Allen, Evans, Bogardus, Saunders, Pauplan, and Carpenter.

YALE MEN ARE SENT THROUGH A FINAL SCRIMMAGE

NEW HAVEN, Nov. 20. — The Yale varsity football team lined up against the scrubs for light scrimmage yesterday. The scrimmage was more to test some new offensive plays than anything else, and it is understood the coaches were pleased with the increase of power and speed in the back field. Bomeister followed the plays from the side lines.

The last hard scrimmage before the Harvard game will be held tomorrow behind closed gates.

ST. MARY'S-OAKLAND GAME IS POSTPONED

Owing to the heavy rain which fell yesterday, the game between the baseball nines of the Oakland high school and St. Mary's college has been called off. The contest was to have been played this afternoon on the college campus but the rain has made the playing field a literal puddle of muddy water, making it impossible to stage a baseball contest. The two institutions will meet at some later date.

FOOTBALL PLAYER MEETS WITH SERIOUS ACCIDENT

NEW HAVEN, Conn., Nov. 20. — John Westley Castles Jr., a substitute back on the Yale team, is at the college infirmary today suffering from concussion of the brain as the result of injuries received in a football scrimmage yesterday. He will not be able to play in Saturday's game against Harvard.

Castles was at the bottom of the heap in the scrimmage and when the men got up off the pile he was unconscious.

BELIEVE MISTAKE LED TO DETENTION

Parents of Bride Whose Husband Is Held Think Error Is to Blame.

BERKELEY, Nov. 20. — Mr. and Mrs. W. J. Getchell of Berkeley Heights are expecting word at any moment from their daughter explaining that the detention of her husband by the San Bernardino police for a check that the banks had to mark "no funds" is due merely to an error of some sort. Mrs. Getchell stated this morning that she and her husband had been intimate with J. Hunter Smith Jr., whom their daughter married November 6, for two years, knew his family well and were confident of his honesty.

A San Bernardino dispatch this morning told of Smith's detention on a charge of passing a worthless check in San Francisco. Smith indignantly denied the transaction imputed to him, and explained that if insufficient funds were in the bank to cover his check, he had merely computed his balance wrong and could easily justify himself with the bank.

Mrs. Smith, the bride of two weeks of the young man, is well known in this city and was educated in the Berkeley schools. She is the daughter of W. J. Getchell, an attache of the Southern Pacific company. The wedding took place at her father's home on November 6 and the young couple left the following day by steamer for Los Angeles. Their visit to San Bernardino was to friends of Smith's, whose father is a consulting engineer in San Francisco.

BELIEVES IT IS MISTAKE.

"I am quite certain," declared Mrs. Getchell this morning, "that the whole matter will prove to have been a most unpleasant mistake. Perhaps my son-in-law has written a check which was not fully covered by his deposits, but if so, it was because he had somehow figured his accounts incorrectly. He comes of a respectable family, which would always have been as willing as we to help him through any temporary difficulty. With this knowledge there was no incentive for him to do anything wrong. I am quite certain it will all prove a mistake."

Smith's young bride proved his staunch supporter when he was detained by the San Bernardino authorities, according to the dispatches from that city. She offered to give up her jewels to pawn if necessary to clear him. But both the authorities and Smith himself, who stoutly averred his innocence of wrong intent, declined to permit the sacrifice.

BALKAN WAR IS FACTOR IN MARKET

Domestic Political Conditions Advanced as Cause of Irregularity.

NEW YORK, Nov. 20.—The Balkan war situation and domestic political conditions were advanced as factors in today's heavy and dull stock market. The opening was irregular, with 1 point gains in Canadian Pacific and a few other issues of less speculative importance. Oil stocks were conspicuous for their activity and strength, but the rest of the list was largely reactionary, with moderate pressure against such leaders as Reading, the coalers, Amalgamated and some of the usually dormant specialties, including Beet Sugar preferred, Cotton Oil, Harvester and Republic Iron.

Call money was in light demand on terms practically unchanged.

Bonds were easier.

LIVERPOOL WHEAT IS WEAKER TODAY

Argentina News Bearish; the Receipts of Northwest Continue Heavy.

CHICAGO, Nov. 20.—Wheat today reflected weakness at Liverpool and went to a new low level for this year's crop. Argentina news was bearish and receipts northwest of here continued heavy. Reports of tension between Servia and Austria failed as an offset. The opening ranged from ⅝c lower to ¼c advance. May started at 89⅞ to 90⅛c, a drop of ⅛@¼c to ¼@⅛c, rallied to 90⅜c and then fell back to 90¼c.

Further weakness ensued, notwithstanding big experts' clearances and abrupt stoppage of Kansas and Nebraska farm deliveries.

The close was firm, with May ⅛c net higher, with December 93⅛c.

Belief that the corn market had been oversold helped that cereal to rally. May opened ⅛@¼ to ¼@⅜c off at 47@47⅛c and rebounded to 47⅝@47⅛c.

Corn—Despite weakness, corn continued firm. Lightness of country offerings made oats firm. May, which started unchanged to a shade lower at 32@32⅛c to 32¼c, rose to 32¼@32⅜c.

Packers buying carried provisions upward. First sales varied from last night's figures to 5c higher, with January at $19.10 for pork, $10.77½ to $10.82½ for lard and $10.20½ for ribs.

Close: Wheat—December, 85c; May, 90⅜@90⅛c; July, 87⅝c.

Corn—December, 47⅞c; May, 47⅝c; July, 48⅝c.

Oats—December, 31½c; May, 32½c; July, 32½c.

Pork—Jan. $19.45c; May, 18.60.

Lard—November, $11.35; December, 11.37½.

Ribs—January, $10.37½; May, $10.

CHICAGO, Nov. 20.—Cash—Corn, No. 3, white, new, 40¼@47c; No. 3 white, old, 56¼@58¾c; new, 47c; No. 3 yellow, old, 50@51c; new 44@45¾c; No. 4 new, 45@45¼c; No. 4, white, old, 52c; new, 45@46¼c.

Rye—62c.

Barley—48@74c.

Timothy seed—$3@3.75.

Clover seed—$13@17.50.

Egg Market in Nearby Counties.

PETALUMA, Nov. 20.—Today saw a drop in the price paid for selected pullets of 3c, after receipt of transactions of the San Francisco Dairy and Egg Exchange, with no change in the price paid for extra ranch. Independent dealers and speculators paid off on Monday's deliveries at the rate of 47c for extra ranch and 36c for selected pullets. The market is said to be weak, but it is noticeable that the retail price does not follow the drop of the wholesale price. Production is near, but not quite at the low figure of the year, and will not begin to increase for some time. In the poultry market the delivery was light.

SANTA ROSA, Nov. 20.—Second grade eggs fell off 3 cents per dozen yesterday on the local market upon receipt of advices showing the morning transactions on the San Francisco Dairy Produce and Egg Exchange. Local dealers all quoted [illegible] and 36 cents, compared to 39 cents yesterday, for second or pullet grade for the eggs delivered Monday. Stormy weather prevented heavy delivery yesterday. Feed remains high, but there is a plentiful supply of green feed.

TEMPERANCE TOWN DRUGGIST WORRIED

Object to Odium and Would Stop Sale of Liquor on Prescription.

LONG BEACH, Cal., Nov. 20.—Aggravated by the insinuations that always cluster about the number of drug stores in a saloonless town, proprietors of 13 pharmacies of Long Beach have on file with the city council today a petition praying that the anti-liquor ordinance recently adopted be extended so as to prohibit them from dispensing intoxicants on prescription. They ask specifically that the provision of the otherwise drastic ordinance which gives them permission to sell liquors on prescription be stricken out.

The reason given by the druggists is that the odium attaching to a temperance town drug store injures their business.

POWER COMPANIES BROUGHT TO MARK

Secretary Fisher Says That Reasonable Rates Must Be Granted.

WASHINGTON, Nov. 20.—Secretary of the Interior Fisher yesterday flatly told water power corporations holding license that they would be forced to grant reasonable rates to consumers regardless of ancient contract rights to the contrary. This announcement, affecting many large interests in western states, was made at the hearing of the regulations soon to govern water power on public domain in California.

The regulations probably will be in force with only minor modifications suggested at the hearing and with the view to close co-operation between the federal and state authorities of California. Secretary Fisher said that under the regulations companies which upon having their rates pronounced unreasonable by state authorities, resort to jockeying and delays in the courts, will have their licenses revoked.

"After the state authorities," he said, "have decided it and the matter has gone clear through the state supreme court, then if you insist on your right of going into the federal courts with a bill of equity claiming confiscation, the interior department will revoke your license. You say the matter of rates ought to be regulated by the state; very well, we will go the whole route with you."

President J. H. Eshleman of the California railway commission, the public utilities board, expressed accord with the department's policy, adding that he did not care to have his commission a mere "moot court."

WANT STATE TO INSURE SCHOOLS

Educators Would Create Fund for Protecting Public Buildings.

SACRAMENTO, Cal., Nov. 20. — Educators throughout California have started a movement to obtain legislative enactment at the coming session to create a state insurance fund for public school buildings in an effort to save the counties and the state the expense of paying premiums to eastern insurance corporations, and thus keep a large amount of money in California.

To this end Edward Hyatt, state superintendent of public instruction, has been asked to gather data and information showing the damage to school buildings by fire during the last ten years and the proportionate amount of money paid in insurance premiums. Hyatt has written to each county superintendent in the state and requested such information. He has received responses from ten cities and counties to date which places the fire losses on an average of less than one tenth the amount of the premiums paid.

INDIAN IS SAID TO BE 131 YEARS OLD

Chief Fire-Maker Believed to Be Oldest Known Human Being.

CHICAGO, Nov. 20.—Wah-Hagun-Ta, Chief Fire-Maker, a Blackfeet Indian from Placer reservation, said to be 131 years old, is on his way to Chicago to attend the land show.

So far as known Chief Fire-Maker is the oldest human being in the world. He is said to have been born in the region now known as Glacier National Park in 1781.

The chief was first of his race to visit the "Great White Father," and his visit to Washington when President Jefferson was in the White House was a memorable event in his life.

In his tribe he is regarded as an oracle. At the time of his birth, according to the Indian legend, the father of all spirits, standing on a mountain, shot an arrow which found a mark in a tree near his father's tepee. The prophecy, as interpreted by the medicine man, was that he would live forever and assist the gods in their councils.
